

Overview:

1. Practical seminar "Vibration test with shakers"
2. m+p VibControl software training days

We look forward to welcoming you to the events we offer.
It's worth it!

First practical seminar "Vibration test with shakers"

In 2014 we are offering a "vibration testing with shakers" Seminar for general vibration control theory instruction. Following the 2-day practical seminar you will have the opportunity to participate in a third day of hands-on training for optimal operation of the m+p international VibControl software. This training day can also be booked separately.

Seminar Content

At this Seminar you can deepen your knowledge of theory and practice in vibration testing with electrodynamic or hydraulic shakers. After an introduction to the basics of vibration control, valuable information and tips about the common types of excitation will be reinforced with numerous experiments. In addition to the classic types of excitation - sine, random and shock - we explore mixed test modes, Transient Capture, shock response spectrum (SRS) and time domain replication. In addition, lectures will be held on the following topics: Shaker jigs and test fixtures, temperature and environmental chamber applications, and suitable acceleration transducers (e.g. TEDS sensors) for vibration testing. Industry specialists support the seminar.

Who should take this Seminar

Our seminar is aimed at managers, engineers and technicians who want to expand their knowledge of vibration testing, from newcomers to 'old hands'.

Schedule and Fee

4/23 – 4/24/2014 Burlington MA 2-day practical seminar	\$ 950.00
4/23 – 4/25/2014 Burlington MA 2-day practical seminar + training day m+p VibControl	\$1250.00
4/28 – 4/29/2014 Rochester NY 2-day practical seminar	\$ 950.00
4/28 – 4/30/2014 Rochester NY 2-day practical seminar + training day m+p VibControl	\$1250.00

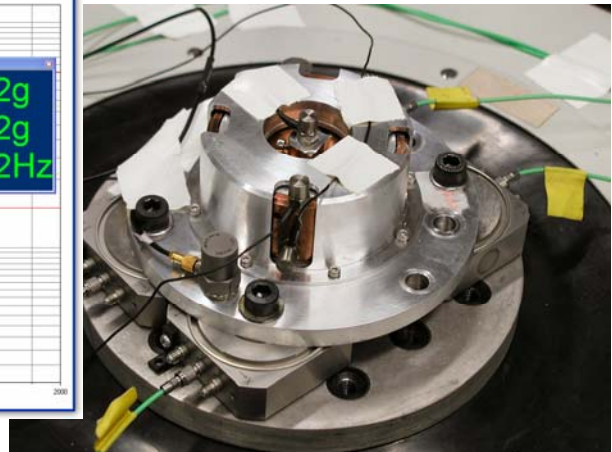

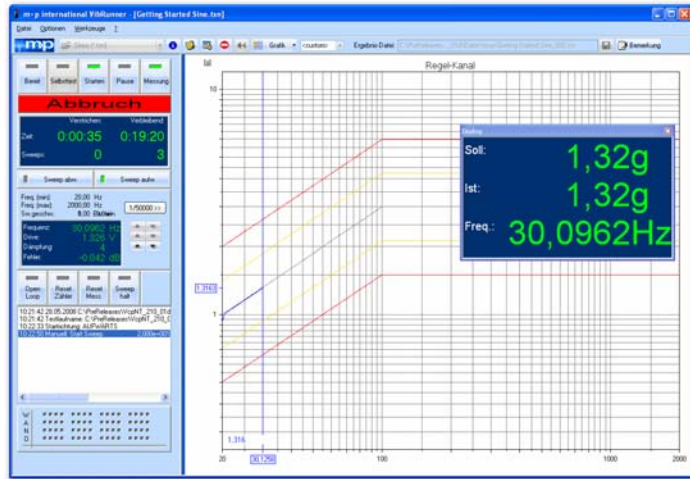

The participation fee does not include taxes per participant.
This includes the course materials, lunch and coffee breaks.

Registration Deadlines

Burlington MA Seminar:	3/31/2014
Rochester NY Seminar:	4/7/2014

Timely registration is requested, the number of participants is limited to 20.

2. m+p VibControl Software Training

Content

As an m+p VibControl user, you can deepen your knowledge of operating the m+p VibControl software and the inherent subtleties of vibration testing. You have the opportunity to ask individual technical questions and share your experiences and suggestions with your application with other participants and the instructor.

- Introduction to m+p VibControl program structure
- Implementing vibration test specifications
- m+p VibControl test definition, test run with shaker, test evaluation
- Excitation types: Swept Sine with notching, Sine Dwell, Random, Classical Shock

Who should take this Seminar

Our training is aimed at current m+p VibControl users.

Dates and Location

Burlington MA, from 9:00 to 5:00 25th April 2014

Rochester NY, from 9:00 to 5:00 30th April 2014

Participation fee

The fee for the training day is \$500.00 plus tax per participant. This includes lunch and coffee breaks.

Application

Registration is required no later than 14 days before the start of training.

Registration

Please fax or e-mail completed form to:

| <input type="checkbox"/> 4/28 – 4/30/2014 Rochester NY | \$1250.00 /Participant |

2. m+p VibControl software training days

- | | |
|--|------------------------|
| <input type="checkbox"/> 4/25/2014 Burlington MA | \$ 500.00 /Participant |
| <input type="checkbox"/> 4/30/2014 Rochester NY | \$ 500.00 /Participant |

Location Information:

The Burlington MA Seminar will take place at the:

Hampton Inn Bedford-Burlington
25 Middlesex Turnpike
Billerica, MA 01821
Hotel: (978) 262-9977
Fax: (978) 262-9660

The Rochester NY Seminar will take place at the:

Hampton Inn Rochester-Webster
878 Hard Road
Webster, New York, 14580, USA
Hotel: 1-585-671-2050
Fax: 1-585-671-2066

Participants are responsible for arranging accommodations. Blocks of rooms have been reserved at a discounted rate. Please contact our main office for assistance in making reservations 973.239.3005.

We reserve the right to cancel events with too little demand, failure of seminar lecturers, force majeure, etc.
