## **SOLAR ECLIPSE – 4<sup>TH</sup> DECEMBER 2021 – ANTARCTICA**

One of the world's most wondrous experiences in one of the earth's most fantastic places! An Antarctica viewing of the total solar eclipse is expected on 4<sup>th</sup> December 2021 and our partners, Oceanwide Expeditions, will be position three of their fleet to give the very best opportunity to experience this phenomenon. Although total eclipses occur roughly every 18 months, they can only be properly seen along a few key path locations. And what better location than one of the wildest and least-known places on the planet?

The ships (m/v Plancius, m/v Ortelius and m/v Hondius) will be positioned in the centre of the moon shadow at the edge of the sea ice in the Weddell Sea between the South Orkneys and South Georgia. And, as if you needed a bonus, the 19-nights voyages also take in the Falkland Islands and South Georgia. This is the chance of a lifetime, and that's no exaggeration.

Just one word of warning. We can't guarantee perfect visibility of the eclipse – there's always the chance of overcast skies and adverse conditions could alter certain details of the pre-planned route. Whatever happens, this will definitely an opportunity which will be utterly unforgettable.

### **Dates**

On board m/v Plancius	23 November – 12 December 2021
On board m/v Ortelius	24 November – 13 December 2021
On board m/v Hondius	26 November – 15 December 2021

The above dates are for the voyage only. Other travel arrangements are not included and will depend on individual wishes/requirements. [Island Holidays](http://www.islandholidays.co.uk) is happy to help.
