*"I know of no other technology available that produces the high level of pathogen abatement as Air Oasis air purification units"*

1

**Dr. Nabarun Ghosh**

*Associate Professor of Biology at West Texas A&M University*

## Why are AirOasis air purifiers necessary?

According to the World Health Organization, 40% of all buildings are a serious hazard to our health because of poor indoor air quality. According to the EPA, indoor levels of air pollutants may be 2-5 times higher than outdoor levels. Most people spend up to 90% of their time indoors.

### Indoor air pollutants can cause:

- Offensive odors
- Nose and throat discomfort
- Eye and skin irritation
- Lung irritation
- Fatigue
- Headache

### What's the solution?

Domestic & International lab tests prove the Air Oasis air purifiers are effective in reducing:

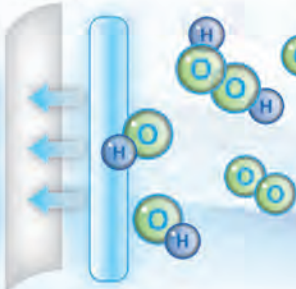

- MRSA on surfaces up to 63% in 24 hrs
- Odor causing VOC's up to 85% in 1 hr
- Mold and fungi up to 99%
- Aeroallergens up to 99%
- Bacteria up to 99%
- Viruses up to 99%

## AHPCO Technology

Replicating Nature and The Sun

Step 1.

Ions are Created from UV Light

The **UVC lamp** destroys germs that pass by. Redundant air-cleansing ions are then formed from water vapor when rays of light from the **UVC lamp** excite the **AHPCO Catalyst**.

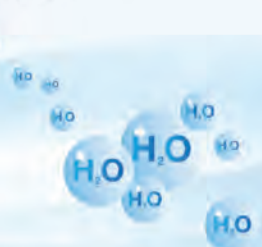

Step 2.

Bacteria, Viruses, VOCs & Other Pollutants are Destroyed

Redundant ions **actively** seek out pollutants and break them down. They are neutralized as the contaminants are destroyed.

Step 3.

Harmless By-products of Water Vapor

Ions revert back to harmless water vapor and the cycle repeats, thereby reducing additional contaminants.

## Bi-Polar Ionization

Bringing Mother Nature Indoors

Step 1.

Step 2.

Step 3.

### Positive & Negative Ions are Dispersed

Positive and negative ions are created by splitting water vapor present in the air. Our purifiers are **proactively** dispersing ions throughout the ambient air.

### Bacteria, Viruses, VOCs & Other Pollutants are Destroyed

Polarized ions **actively** seek out pollutants and break them down. They are neutralized as the contaminants are destroyed. A clustering effect causes contaminants to become heavy and drop out of the air.

### Harmless By-products of Water Vapor

Polarized ions revert back to harmless water vapor and the cycle repeats, thereby reducing additional contaminants.

+

# iAdaptAir®

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Aeroallergens
- Smoke odors
- Airborne particulates

## The 5 best air purification technologies in 1

- HEPA
- Carbon
- AHPCO®
- Germicidal UVC light
- Bi-Polar Ionization

## Recommended Use

- iAdaptAir L - Covers 600 sq. ft.
- iAdaptAir M - Covers 450 sq. ft.
- iAdaptAir S - Covers 150 sq. ft.

1000G3

+

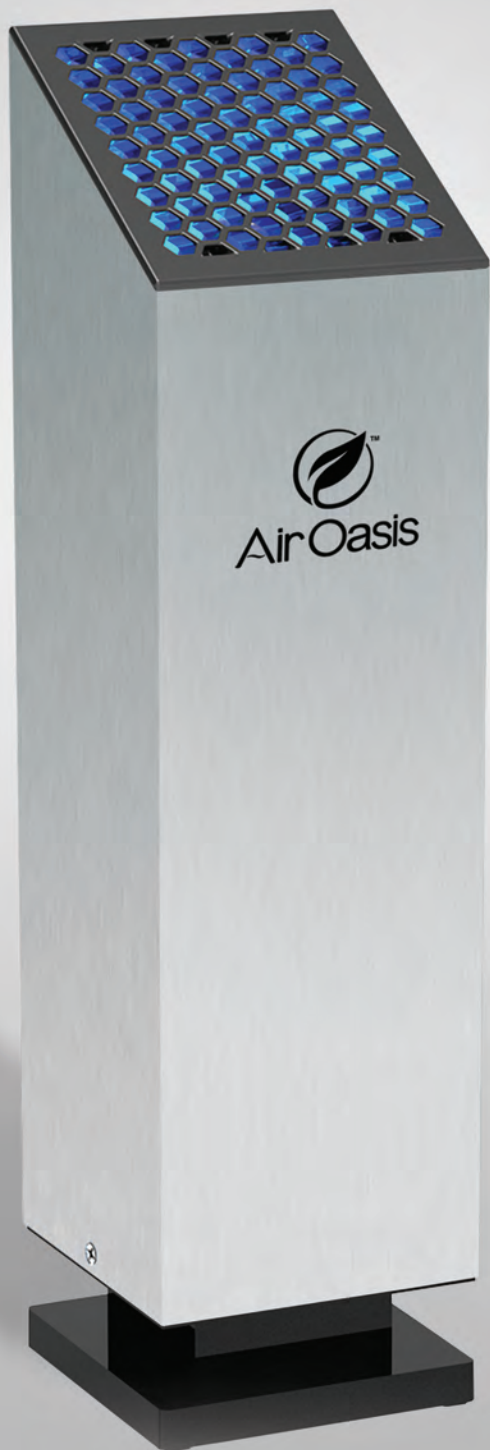

# 1000G3

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Aeroallergens
- Smoke odors
- Airborne particulates

## Recommended Use

- Nurseries
- Bedrooms
- Bathrooms
- Offices
- Utility rooms & more

+

# 3000G3

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Aeroallergens
- Smoke odors
- Airborne particulates

## Recommended Use

Larger areas such as:

- Great rooms
- Large living areas
- Master suites
- Large offices
- Kitchens & more

+

# 3000XG3

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Aeroallergens
- Smoke odors
- Airborne particulates

## Recommended Use

Larger areas with higher contaminants such as:

- Restaurants
- Salons
- Pet clinics
- Fitness centers
- Lobbies & more

+

# 5000PRO

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Particulates
- Aeroallergens
- Smoke odors

## Recommended Use

Larger areas with higher contaminants such as:

- Bars
- Lounges
- Job sites
- Warehouses
- Remediation sites & more.

# NANO INDUCT

## Quickly Reduces

- Mold
- Bacteria
- Viruses
- VOCs & odors
- Aeroallergens

## Recommended Use

For ducted HVAC systems  
4 to 6 tons (1600-2400 CFM)

# BI-POLAR<sup>®</sup> 2400

## Quickly Reduces

- Mold, bacteria & viruses
- VOCs & odors
- Particulates
- Allergens
- Smoke, pollen & air borne dust
- Static electricity

# BI-POLAR<sup>®</sup> ICE

## Quickly Reduces

- Slime
- Sludge
- Biofilm
- Mold
- Yeast
- Bacteria

## Recommended Use

Most commercial  
ice machines

## Food-grade certified

# Customer Testimonials

My daughter has always suffered from allergies. I also have a cat who we had to bring to the vet every other month for an anti-inflammatory just so he could breathe. Ever since we purchased your purifier, my daughter hasn't had any problems with her allergies, and we have not had to take our cat to the vets for an anti-inflammatory in a year and a half. I was quite pleased to know we purchased a product that has a direct affect on our health.

Sincerely,  
J. Frale

Hello,

I want to thank you very much for your speedy help on my air purifier. I am very glad to have it back so quickly. Your service support is outstanding!! Best wishes and thank you again for your outstanding service, not only what the machine does, but how you stand behind your guarantee.

Sincerely,  
I. Crego

## Actual Customer Results

Before

After

I am a pastor in the Early Childhood Department of a very large church and we have tried many things in our baby rooms to freshen the atmosphere. None of the products that we tried ever did the job until we were introduced to the one from Air Oasis. I can truly say that when I go in those rooms now, the air is no longer offensive and we certainly give it every opportunity with 26 newborns in one room for at least two hours at a time.

Sincerely,  
K. Love

Thank you for choosing Circus Circus for your test trial on the Air Oasis 5000. We did compare the Air Oasis 5000 against our ozone machine and the Air Oasis 5000 was the best machine hands down. In the future we will be happy to do business with Air Oasis and order some of your fabulous 5000 machines.

Sincerely,  
Kenneth Banks
