DAVID CLOUTING LAUNCH NEW LG HAUSYS DECOFOILS AND GIPLAST EDGE BANDS AT W16.

David Clouting used the recent W16 exhibition held in Birmingham to showcase their latest LG Hausys Decofoils and a brand new collection of edgebands from Giplast for whom David Clouting have been appointed sole UK Distributor.

Sales Director Edward Quant reported tremendous interest in the 5 new foils launched at the show which included three woodgrains and two concrete designs.

The introduction of the Giplast range of edgebands also caused quite a stir in what was a busy and successful show for the David Clouting sales team.

FIVE NEW DECOFOILS JOIN THE DC RANGE

Five new LG Hausys Decofoils have been introduced into the David Clouting range following their successful launch at the W16 exhibition.

A membrane pressable Dark and a Light Springfield Oak which is matched to Pfleiderer, a Natural Chalet Oak, a Light

Grey Concrete and a Cashmere Concrete which are also available in laminating grades.

For further information about these five new Decofoils please email: marketing@davidclouting.co.uk

GIPLAST APPOINT DAVID CLOUTING

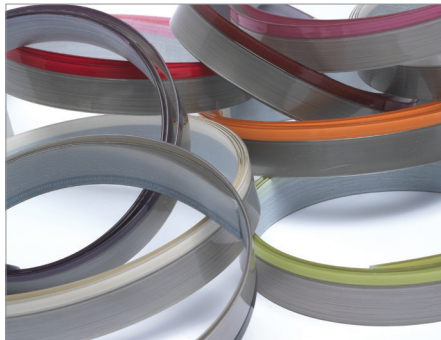

World leading edgelanding manufacture Giplast have appointed David Clouting as their sole UK distributor for a wide range of edgelanding products which will include, High Matt, Extra Glossy, Woodgrain, Metal, GTech Laser, Materic Stone, 3D and Metal Wood.

GIPLAST, based in Italy, started nearly 40 years ago specialising in the extrusion of PVC profiles for the building industry.

In 1988 the company started production of a T profile for the furniture industry and then later developed their market leading ABS and PVC edgelanding range.

David Clouting's Sales Director Edward Quant said "The Giplast edgelanding range has been carefully matched to Hard Coat products; in addition we will be stocking 0.8mm for PUR and laser edging

processes. We are tremendously excited about working with Giplast and to be able to offer our customers such a wide range of high performance, quality edgelanding products."

INTERIOR FILM – IT'S PLAIN SAILING

The success of LG Hausys Interior Film now extends from shop fitting and specialist interior contractors and designers to the boat building industry following its IMO certification for use in the marine industry ...and its popularity continues to grow.

Interior Film is an innovative self-adhesive, decorative film, quick and easy to install. It's so versatile it can be applied to almost any interior

surface including: wood, metals, plaster board, plastics and even melamine. This enables walls, doors, furniture, skirting and architrave to be attractively and quickly transformed.

Offering excellent flexibility and adhesion, Interior Film provides the perfect finish, even to curved or complex shapes. Easy to clean and maintain Interior Film is hardwearing and remains stable if exposed to heat, humidity or low temperatures.

Air free technology enables Interior Film to be easily applied to give a superb bubble free surface.

Available in a range of over 400 designs and finishes including: Exotic woods, Leather effect, textured metals and Natural stone, Interior Film is available to view on the BIMSTORE website and is also CE Certificated.
