DIAMONDDERMABRASION

Utilising the latest advanced Dermabrasion technology, your clients will see and feel the difference with immediate visible results

DIAMONDDERMABRASION

Utilising the latest advanced Dermabrasion technology, your clients will see and feel the difference with immediate visible results

The Silhouette Diamond-Dermabrasion will provide your business with a treatment system that attracts new business and delivers instant, visible results to your clients as well as fantastic revenue to your salon.

Silhouette Diamond-Dermabrasion can not only be used in the fight to correct skin conditions such as Acne scarring and stretch marks but for preventative treatments to delay the signs of ageing too. This flexibility in range of treatments, combined with instant visible results makes the Silhouette Diamond-Dermabrasion a 'must have' system for every salon.

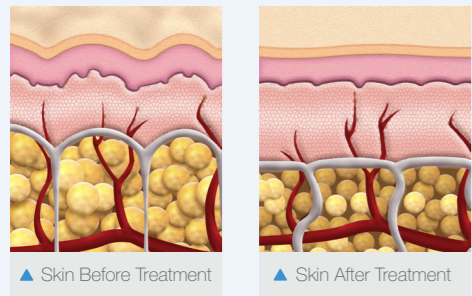

How it Works...

Designed to improve the overall appearance and quality of the skin, the Silhouette Diamond-Dermabrasion exfoliates the outer layer of the epidermis to treat a variety of skin conditions ranging from ageing skin due to sun exposure, acne scarring & stretch marks.

Based on the dual actions of exfoliation and adjustable vacuum stimulation, the Silhouette Diamond-Dermabrasion system exfoliates dead cells from the skin surface, deep cleansing the pores and stimulating local blood flow and boosting collagen production. The treatment creates a firm, fresh and more even complexion that continually improves over time.

Features & Benefits

- Diminishes the appearance of lines & wrinkles
- Stimulates Collagen production & blood flow
- Smooths out rough, uneven patches
- Removes debris, dead skin cells & unblocks pores
- Reduces the appearance of stretch marks
- Effective against hyper-pigmentation
- Decreases Cellulites 'Orange Peel' effect

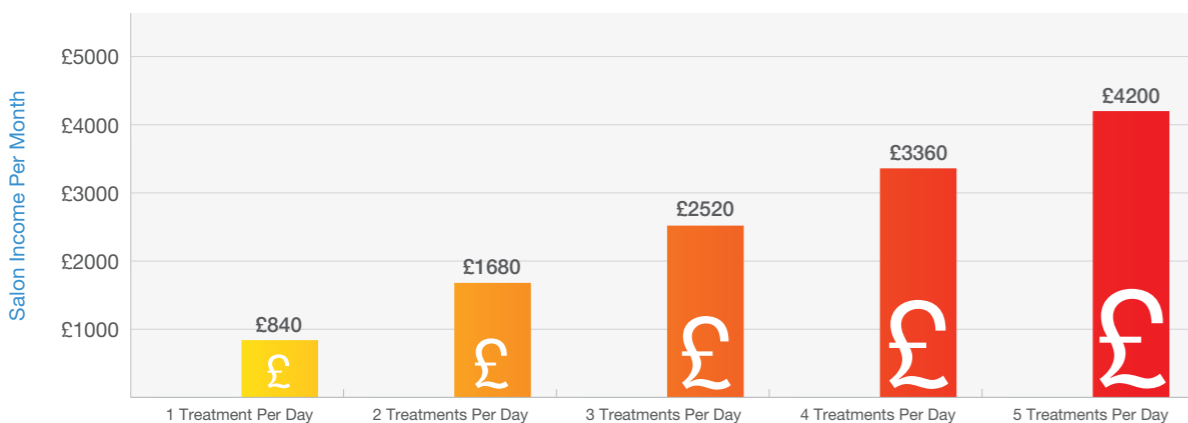

The Effect of Diamond-Dermabrasion

Whilst the exfoliation effects of the Silhouette Diamond-Dermabrasion are immediately visible on the surface, the secondary effect provided by the vacuum stimulation can be viewed here below the epidermis.

The vacuum stimulation causes a lift and an evening of the skin's underlying structures whilst stimulating blood flow, Collagen production and increasing lymphatic flow to effectively aid in the disposal of metabolic waste and fatty deposits.

Monthly Income Projection

Based on performing 1 treatment per day over the course of a 6 day working week at a cost of £35 per facial treatment.

“Our therapists & clients are all equally impressed with the results provided by the Diamond-Dermabrasion.”

Lynn Bradley, Salon 292, Nottingham

Flexibility in range of treatments, combined with instant visible results makes the *Silhouette Diamond-Dermabrasion* a 'must have' system for every salon.

The Complete Salon Solution

Dual Filtered

The system incorporates a dual filtering system, designed & developed for increased hygiene & efficiency.
