The Signature Collection

Imagine...

A world where the quality of our sleep directly influences the quality of our lives, where our waking days are full of boundless energy and our daily lives are a symbiotic and harmonious reflection of night and day...

A perfect sanctuary, a place to relax, rest and unwind. A haven of comfort, where the tranquillity of peaceful solitude is a frequent and welcome destination in the complex journey that is our daily lives...

A world where the humble meticulous artisan embraces innovation in a pure belief that the physical and poetic dimension of design can sculpt our well-being on an intellectual and physical plane...

Our secret...

This world has existed since 1929.

MADE IN THE UNITED KINGDOM

dunlopillo®

NATURAL COMFORT SINCE 1929

The natural way to sleep

We use only pure latex... pure and simple

Natural latex is a wonderful material derived from the sap of rubber trees (Hevea Brasiliensis) grown in managed sustainable plantations around the world.

Every drop counts

A rubber tree only produces 27ml of latex daily. Perfecting comfort takes time... in fact it takes one tree over 500 days to create enough latex for a single mattress.

Environmentally friendly

Latex is one of the most eco-friendly mattress fillings. Latex rubber trees purify over 90 million tons of carbon dioxide a year. All of our natural latex is sourced from sustainably managed plantations.

Health and wellbeing

Natural latex has anti-allergenic, anti-bacterial and anti-microbial properties. The unique Dunlop manufacturing process ensures that all these characteristics are embodied in our innovative Dunlopillo mattresses.

Quiet, durable and ventilated

Dunlopillo latex is resilient, responsive and completely noise free, helping to provide a revitalising, undisturbed and natural sleep. The unique open cell structure of Dunlopillo latex enables all of our mattresses to be self ventilating for the whole of their life.

Dunlopillo sleep science

7 Comfort zones

Softer comfort zones cushion your shoulders, hips and heels, whilst firmer support zones provide perfect balance to allow your spine to be correctly aligned in which ever position you sleep in.

Breathable

Dunlopillo latex's open cell structure is made up of millions of interconnecting microscopic air bubbles, which not only ensures a very supportive mattress, but also promotes constant air circulation. Natural movement during the night helps ventilate the mattress and keeps the bed at a constant and comfortable temperature.

Pressure relieving

Through its unrivalled elasticity, our latex provides instant pressure relief and encourages a healthy blood supply to your muscles so you awake feeling refreshed and revitalised.

Durable

Dunlopillo latex mattresses are designed to deliver long lasting performance by utilising their natural resilience to hold their shape and remain durable for years to come.

Health and wellbeing

Natural latex has anti-allergenic, anti-bacterial and anti-microbial properties.

Maintenance free

Designed to make life easier, Dunlopillo mattresses are completely maintenance free. Once on your base the mattress doesn't need to be moved again - no need to rotate or flip.

Progressive comfort

Dunlopillo latex instantly responds and adapts to individual profiles and movements and encourages deeper and more restful sleep.

Orchid

The Orchid mattress marries the Dunlopillo blueprint for firm comfort with an extra deep comfort core. The result is a fusion of intelligent design that characterises sublime comfort, subtle support and the very best in sleep innovation.

Featuring a 180 x 200cm Orchid mattress on a firm edge pocket 2 drawer divan base. The base and Lorton headboard shown in Duck Egg 3524.

Comfort

Millennium

Personifying the very essence of comfort, the Millennium mattress embraces the comfort values that the Dunlopillo brand was founded upon in 1929. The extra deep comfort core coalesces all of Dunlopillo's design and technical expertise into the ultimate instrument to aid a perfect night's sleep.

Featuring a 180cm x 200cm Millennium mattress on an adjustable electric 2 drawer base. The base and Santon headboard shown in Crushed Silver 0310.

Comfort

Celeste

Integrating our unique blueprint of firm comfort with softer graduated support, the Celeste mattress is an unprecedented technical triumph of sleep design. The initial firm support is complemented by a subtle, yet softer foundation of comfort that reflects Dunlopillo's rich design heritage.

Featuring a 180 x 200cm Celeste mattress on a firm edge pocket base. The base and Winstar headboard shown in Cool Grey 0223.

Royal Sovereign

A timeless classic with a renowned reputation for comfort, the Royal Sovereign has been cleverly innovated to deliver a seamless sleep experience. The expertly engineered mattress surface contours the body, whilst the deeper comfort core delivers holistic levels of inspired luxury.

Featuring a 180cm x 200cm Royal Sovereign mattress on a firm edge 2 drawer base. The base and Honour headboard shown in Slate 0268.

Comfort

Firmrest

Over 80 years of design, research and development have culminated in the perfect design blueprint for engineering firm supportive comfort. The Firmrest mattress epitomises this quest and is unapologetically the firmest mattress in the Dunlopillo spectrum of comfort.

Featuring a 180cm x 200cm Firmrest mattress on an ottoman base. The base and Noble headboard shown in Phantom 0249.

Diamond

With its stylish aesthetic and contemporary depth, the Diamond mattress has been developed to optimise ergonomic support within a specifically designed Dunlopillo latex interior. This multi-density comfort core is arranged in seven targeted support zones that deliver a pioneering sleep experience.

Featuring a 180cm x 200cm Diamond mattress on a firm edge pocket base. The base and Lindal headboard shown in Petrol 0213.

Mattresses

Time costs nothing, but spending time choosing the right mattress is an investment in your health, happiness and well-being. A good night's sleep depends on a number of factors, but selecting the right mattress is the foundation to a restful and relaxing sleep – night or day.

The Signature Collection of mattresses represents Dunlopillo's blueprint for absolute comfort. Each one of our 12 mattresses offers a truly unique environment to rest, relax and unwind. Each mattress has been designed to provide excellent postural support, whilst delivering a level of unique luxury that is unparalleled.

Our advice... please take your time to choose your perfect Dunlopillo mattress.

Choosing the right mattress

It is very important to consider the support your body needs... a neutral position is essential, one in which your spine has correct natural curvature and your head, shoulders, waist and legs are in proper alignment.

A bed that is too soft or too firm will cause your body core to fall out of neutral alignment leading to persistent discomfort and restless sleep patterns.

Sumptuous deep mattresses 24cm

The Orchid and Millennium mattresses feature the deepest of 100% pure Dunlopillo latex mattress cores. You can truly feel that touch extra depth delivers a substantial and sumptuous difference for unsurpassable sleeping comfort.

Bases

Designed to offer the ultimate comfort experience, your Dunlopillo mattress can be enhanced when paired with a Dunlopillo base. Conceived to work in perfect harmony with all of our Dunlopillo mattresses, your Dunlopillo base plays an important part in maintaining the performance and longevity of your mattress.

With a host of options that include the firm edge pocketed base, a wireless adjustable base, a unique slatted base and a supremely stylish ottoman, your comfort and aesthetic style can be tailored just for you.

The Dunlopillo combination of mattresses and bases generate a multitude of comfort levels ensuring that the perfect sleep environment can be personalised to you and your partner's exacting requirements.

Dunlopillo mattresses can not be used on solid plywood or hardboard top beds or divans.

Ottoman

An ottoman base is an ideal solution if space is limited in your bedroom as it provides generous storage space for linen, towels or clothes.

On the ottoman the base lifts easily with the help of gas rams and hinges.

Ventilation holes have been drilled in the lid of the ottoman to allow air to circulate through the upholstery fabric and the mattress positioned on top.

Adjustable electric

The ultimate in stylish and functional comfort, the Dunlopillo electrically adjustable bed is a fluid harmony of practicality, innovation and design. The sprung birch wood slats individually flex to your body shape, weight and movement providing a firm yet supportive foundation to your Dunlopillo mattress.

The firmness of the system can also be controlled through the use of cleverly designed comfort adjusters positioned in the lumbar region of the system. Moving the adjusters to the outside edge of the system will create a firmer feel, whilst positioning them centrally will create a softer feel.

Individual remote controls allow you and your partner to adjust the back and leg areas to find your perfect comfort position. The wireless remote control even functions as a torch so you do not have to disturb your partner and can be easily stored away when not in use.

Slatted

The Dunlopillo slatted base incorporates our supremely comfortable sprung birch wood slat system. Driven by our blueprint for comfort, the slat system has been designed to flex to your body weight and movement offering a firmer level of support and comfort compared to the sprung edge base. This system also dramatically increases airflow beneath the mattress, which in turn enhances the natural breathable characteristics of Dunlopillo latex.

The firmness of the system can also be controlled through the use of cleverly designed comfort adjusters positioned in the lumbar region of the system. Moving the adjusters to the outside edge of the system will create a firmer feel, whilst positioning them centrally will create a softer feel.

The slatted base has also been designed to allow for the addition of our solid timber drawer storage options.

Firm edge pocket

Constructed from sustainable timber, the precisely upholstered Dunlopillo firm edge pocket base supports a responsive pocket spring layer that works in perfect harmony with your Dunlopillo mattress. Seated inside a wooden frame the pocket springs soften the comfort of the mattress while providing a firm edge that prevents 'roll off' from the side of the bed.

One piece mattresses are supplied with drop middle firm edge pocket divans to prevent any feeling of a firm ridge in the middle of the bed, while pairs of mattresses, zip and link mattresses for example, are supplied with firm edge all round divan bases, allowing them to be separated to twin beds when required.

Dunlopillo pocket bases have been designed to give you a deeper, softer comfort level while being constructed to allow the addition of solid timber drawer storage options.

¹ Available as a combination of adjustable in one half and slatted in the other.

See www.dunlopillo.co.uk for full weights

Storage

Adjustable electric, slatted and firm edge pocket bases are available with a choice of three drawer configurations allowing you to add flexible storage to your bedroom.

If you do not require drawers with your base, we also offer a non-storage option. All drawers are assembled from solid hardwood using dovetail joints for strength and glide along smooth operation runners.

If you choose a base with drawers please consider if your room has enough space to open them: bases with drawers will need at least 40cm surrounding space from the side of the bed to enable you to pull the drawers out fully.

	Width	Length	Internal height	Weight limit
Large drawers	78.3cm	52.5cm	15cm	25kg
Small drawers	40.5cm			

dunlopillo
NATURAL COMFORT SINCE 1929

Adjustable electric beds

The Dunlopillo fully adjustable electric bed is the ultimate partner in helping you rest, relax and unwind. The intuitive wireless remote control allows you to find your perfect comfort position and the cleverly designed sprung birch wood slats can themselves be adjusted to find the perfect lumbar tension that suits you and your partner's individual needs.

Wireless control

A Dunlopillo wireless remote control enables you and your partner to independently adjust each side of your Dunlopillo bed to ensure you achieve the very best comfort and a restful night's sleep. The controls have six different adjustable actions that allow you to position your head, back and legs in your ideal comfort position.

The wireless remote control even functions as a torch so you do not have to disturb your partner and can be easily stored away when not in use.

1. Head and foot end raised
2. Head and foot end lowered
3. Head end raised
4. Head end lowered
5. Foot end raised
6. Foot end lowered
7. Torch

Comfort adjuster slats

The firmness of the slat system on the slatted base and adjustable electric bases can be controlled through the use of cleverly designed comfort adjusters positioned in the lumbar region of the system. Moving the adjusters to the outside edge of the system will create a firmer feel, whilst positioning them centrally will create a softer feel. Other comfort levels can be achieved by moving the adjuster between the soft and firm positions.

1. Slat holders
2. Tension adjuster
3. Fabric centre belt

Headboards

A headboard can be the focal point of any sleep sanctuary by creating a pleasing and reassuring back drop to your room design. Dunlopillo offer a range of seven stylish headboards to accompany your Dunlopillo bed. All of the designs are available in a choice of premium fabrics ensuring the perfect design union between headboard, mattress and base.

Lorton

Upholstered headboard in a traditional design with a main panel of beautiful buttons and pleats in a diamond pattern arrangement.

Santon

Upholstered headboard with a striking brick panel design.

Honour

Upholstered headboard with a row of seams and pulling detailing.

Lindal

Upholstered headboard with twin seam and pull details in the top corners.

Noble

Upholstered vertical paneling for a sleek and sophisticated look.

Rydal

Simple and classic upholstered headboard design with row(s) of buttons for added interest. 1 row of buttons for bed fix and 2 rows of buttons for standard height.

Winster

Simple and classic upholstered headboard design.

Bed fix
Upholstered panel height 70cm
Same width as mattress/base

Is a standard headboard design with the upholstered panel on long wooden struts. The wooden struts are the most common form of fitting a headboard to your bed, allowing you to position the upholstered panel in line with the top of the mattress.

Extra height
Height 132cm for Lorton and Santon
Height 135cm for all other headboard designs
Same width as mattress

Is a floor standing headboard design that neatly aligns with the width of your bed. Integrated struts/fixing points allow you to fit the headboard to your base.
