Description

Sysco[®] shelving can be adapted to your needs and wishes. This steel shelving system has multiple depths and heights and will flushly fit all available space. Even around pillars, ventilations shafts and other objects. Sysco shelving is suitable for single installation along a wall and can be applied as double sided shelving placed in the room. All information and objects are directly accessible.

Optimum preservation

Uprights are available single closed and flush closed, and may be provided with perforations to allow ventilation and hence optimum preservation of your documents or objects. Sliding doors or roller front doors further protect the system's contents.

The flexible shelving system

Sysco[®] is available in a huge range of dimensions. A wide range of accessories enable you to arrange your shelving system space as efficiently as possible. And Bruynzeel's Sysco[®] shelving can be made mobile at any time. For further information on **Mobile Shelving** visit the Bruynzeel website www.bruynzeel.co.uk
