# The Larger Profile takes a Ricoh Pro L4160

THURSDAY, 19 MARCH 2015 11:17

Letchworth-based display print specialist has bought a Ricoh Pro L4160 from Josero, a newly authorised wide-format dealer for a range of Ricoh products.

Gary Orsman, managing director, The Larger Profile, said: "The Ricoh Pro L4160 appealed to us because it offered the versatility that couldn't be found in other wide-format printers. The latex ink combined with the white option provides print flexibility that we haven't been able to achieve with our other UV or eco solvent printers and we are now able to fulfill some particularly tricky print projects accurately and efficiently."
