

silhouette®  
wound + skin assessment

---

Delivering the  
precision you need  
in practice.

The global leader skin and wound surveillance.

**Silhouette® enables wound care practitioners to reduce risks with:**

- Unparalleled accuracy and consistency of images and data, including 3D depth and volume measurements.
- A secure cloud-based system that provides up-to-the-minute patient data in simple to read dashboards that enable collaboration across locations and specialists.
- A range of sophisticated yet simple to use point of care devices that virtually eliminate user error.
- Regulatory approvals and supporting compliance with CFR Part 11 and HIPAA.
- Superior support services available globally, 24 x 7.
- A specialized services team that provides full project management, planning, configuration, and onsite wound surveillance training.

*Silhouette is available for use across a range of end user devices (iPhones, iPads, and SilhouetteStar 3D cameras) to meet the needs of different users.*

*The SilhouetteLite+ sensor attaches to the back of mobile devices, enabling accurate and consistent 2D measurements and images.*

“With Silhouette providing accurate, objective imaging and a graph to track healing trends, we have improved patient care outcomes because we now have high quality, timely information on which to base our clinical decisions, intervene promptly, and determine best practice.”

**Joan Selekof, BSN RN CWOCN, Manager  
of University of Maryland Medical Centre  
Wound Care Team**

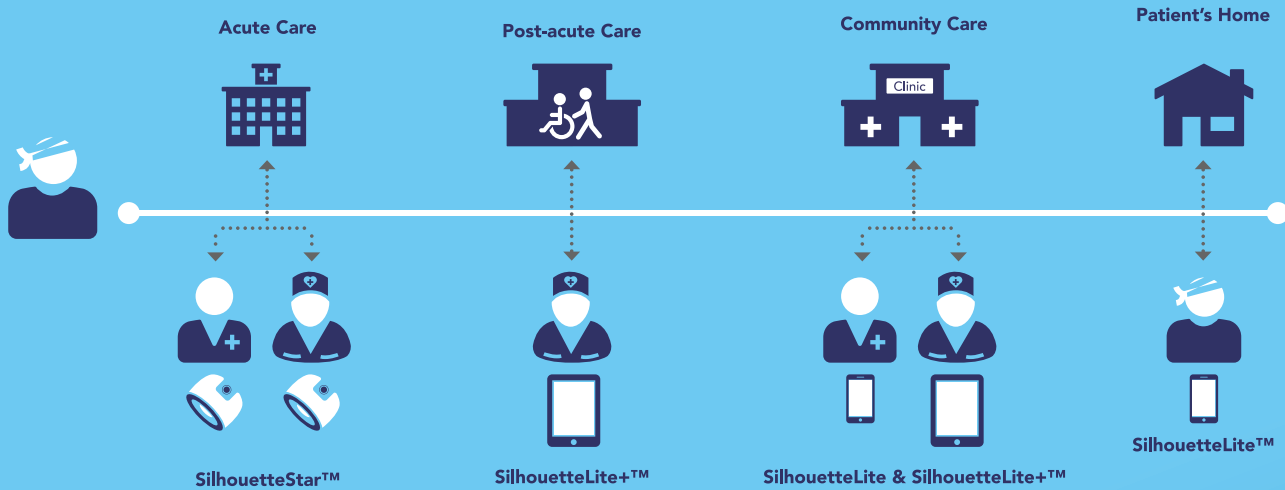

## A Proven Telehealth Solution

Silhouette is an ideal telehealth solution because of its portability, ease of use and EMR integration for secure data sharing across multiple locations.

Silhouette is deployed as a skin and wound surveillance telehealth solution in many countries, including:

- Our largest telehealth deployment in the US spanning 5 States.
- Multiple sites across the East Midlands in the UK.
- A number of regional health networks in New Zealand and Australia.

# Silhouette Operates Across the Continuum of Care

## About ARANZ Medical

ARANZ Medical is a healthcare informatics company focused on innovative medical imaging and data-capture devices, and analysis software. The Silhouette product suite is primarily used for wounds and skin disruptions, and is well suited to clinical trial and telemedicine applications. The company is an ISO 13485 certified manufacturer of medical devices.

Patents pending. Silhouette is approved for sale in the USA, Europe, Australia, Canada and New Zealand. Specific features of the solution may change without prior notice. Silhouette, SilhouetteConnect, SilhouetteStar, SilhouetteLite+ and SilhouetteLite are trademarks of ARANZ Medical Limited.
