

Ultra Smooth
and Legno:
two ways to
finish strong.

Lasting inspiration from Montreal

ARBORITE[®]

UL finish with minimum sheen gives products a modern and sophisticated twist.

The LE woodgrain finish adds elegance, depth and dimension to woodgrains.

Finishes greatly enhance laminates, creating a more luxurious or realistic feel. Responding to industry trends, we added two new and sophisticated tactile textures to our collection of finishes.

Ultra Smooth (UL) is a matte, soft finish available in several patterns and stone looks. Legno (LE) offers matte and gloss combinations giving the look and feel of real wood with a fine, striated, irregular grain.

Arborite's Monolith (P407) shown here with UL finish

Arborite's Uptown Urban Walnut (W474) shown here with LE finish

Products available in Legno (LE)
