## Confidence with CAVITY TRAYS

### Let the Timloc Technical Team help you

#### What we need to know:

- **Type of roof construction?**  
Pitched, mono-pitched, flat or other?
- **Roof pitch?**
- **Length of the abutting roof?**
- **External wall construction material and thickness?**  
i.e 75mm brickwork, 150mm stonework, 225mm blockwork or other?
- **Cavity width?**
- **Cavity insulation thickness?**
- **Leaded or unleaded trays?**
- **Short or long lead?**
  - Short for dressing over upstand of secret gutters/lead valleys
  - Long for dressing over profiled tiles

Alternatively send the projects drawings straight through to us
