

Waverley

New for 2014 – announcement

It is with great pleasure that The Waverley Bakery announce that with immediate effect, we have been appointed principle distributor, UK and Ireland, for the CREMODAN® Emulsifier & stabilizer system range, part of the DuPont™ Danisco® portfolio.

CREMODAN® is used throughout the world by manufacturers, both large and small. This distribution agreement ensures CREMODAN® is available to all, in formats from one bag, to ten tonnes or more!

We are able to offer our customers technical assistance and advice regarding challenges and recipes, as well as one day training courses at our office in Glasgow.

We invite you to **come and meet us to find out more** about our CREMODAN® offer on **stand 21 at the ICA Exhibition, Harrogate, February 18th-20th.**

DANISCO.
