

## Join the Young Governors Network

### Young Governors Network – Newham Focus Group

School governance is one area of life where you still count as being young up to the age of 40. Just 11% of governors fall into this age-group nationwide.

Sophie Tuhey, a governor at a Newham school, has been instrumental in establishing a network for young governors in partnership with the National Governors

Association. Its aims are to explore areas of common interest and promote greater diversity in the make-up of boards.

We thought it would be really interesting to hear what Newham-based young governors have to say and will therefore be holding a focus group on **Thursday, 16 March 2017, from 18:30 at Francis House**. A sandwich buffet will be provided.

At this session Sophie will give an overview of the network and the work that has taken place so far, and we will then open the meeting up for wider discussion.

We would love to hear the views of as many of you as possible. Although the meeting is aimed at governors up to the age of 40, any governor will be welcome.

Please book a space by emailing [edugov@npw.uk.com](mailto:edugov@npw.uk.com)

# The Vicarage World of Work

**Vicarage Primary School hosted 15billion-ebp as part of Work Week.**

All pupils from Nursery to Year 6 found out about different jobs and careers, learnt how to identify their skills and discovered how the skills they learn at school can be used in the workplace.

Through Work Week, 15billion-ebp aims to:

- Develop children’s awareness of the world of work and work-related concepts and vocabulary
- Increase understanding of a variety of occupations and roles, and help prevent stereotypes around gender and cultural suitability for particular jobs
- Help demonstrate the links between learning in school and success in adult life
- Develop financial capability from a young age, increasing understanding of earning and saving money
- Develop children’s sense of responsibility and their skills for co-operation, enterprise and problem solving
- Develop parents’ and carers’ awareness of the world of work

An employability workshop for parents was also held as part of 15billion-ebp’s “Route to Work”. The main aim of this initiative is to enable parents to become more employable by providing CV workshops, advice on covering letters, application forms and interview technique, culminating in devising individual career action plans for all attendees, supplemented by ongoing 1 to 1 Support.

Careers advisors, as well as the main lead, Afsar Ali, were on-hand at the event to help guide parents back to the world of work. The event was well attended with the possibility of a follow up course for those unable to attend being discussed.

Kellie Ryder, the event co-ordinator, said: “At Vicarage we feel partnership with parents and carers is of the utmost importance because only through working together can we achieve the best results for our children”.

## Teaching Maths for Mastery: In-Depth

A three-day course teaching maths using the Singaporean method with Juliana Loh, Singapore's first 'Master Teacher'.

After the success of her previous visit, at a course attended by sixty teachers and school leaders, we are phenomenally pleased to be running this course once again with Juliana, a primary maths teacher from Singapore with over 35 years of experience and expertise, in a partnership between Maths No Problem, Elmhurst Teaching School and London North East Maths Hub.

Ofsted, National Centre for Excellence in the Teaching of Mathematics (NCETM) and the Department for Education (DfE) have all emphasised the value of the pedagogical and discovery-learning nature of the Singapore approach to teaching maths.

With teaching methods that have been tried and tested over the last 30 years, and through the incorporation of key learning theories, such as Piaget, Dienes, Bruner, Skemp and Vygotsky Singapore has become a "laboratory of maths teaching" which has seen them rise to the top of the TIMSS and PISA international rankings.

This course is three days which allows time and space for planning and reflection on this revolutionary approach, providing you with the best chance to use this method successfully. Our Singaporean expert will cover concrete-pictorial-abstract, effective use of questioning to encourage deep mathematical thinking, bar modelling and problem-solving.

At the end of the course you will understand the key learning principles behind the success of Singapore maths and the approach used within the Maths - No Problem!

## Well-being for school staff A Mindfulness Workshop

### Facilitator: Louise Picton

Counsellor and Clinical Supervisor at the Brentwood Catholic Children's Society (BCCS)

Louise has worked in schools for 18 years in an educational and therapeutic capacity. After training to practice as a child and adolescent counsellor she became interested in bringing her 25 years of meditation experience to clients. Mindfulness proved to be an accessible way to do this and she has since opened up this training to school staff.

A happy, well-motivated staff is an essential ingredient in a high functioning school. The Health and Safety Executive have cited teaching as being among the top 5 occupations affected by work-related stress with 70% of teachers saying their health has suffered because of their job. An increased ability to deal with the stress and emotional intensity of the job can improve teacher/student relationships along with personal well-being.

Mindfulness/meditation practice can help school staff to change the way they think and feel about their experiences – especially stressful experiences. Mindfulness exercises are ways of paying attention to the present moment, based on techniques centred on meditation and breathing. Recent research from the University of Oxford shows that people who regularly practise mindfulness/meditation can achieve reductions of nearly 60% in their anxiety levels and 40% in their overall stress. Research explicitly carried out on teaching staff who have adopted a mindfulness practice has indicated a reduction in 'burn-out' and an improvement in classroom performance.

Mindfulness in schools has tended to focus on students – this introductory workshop aims to address school staff. It will provide a brief overview of the theory behind mindfulness/meditation and an opportunity to sample some of the techniques that form part of a regular practice. This largely experiential morning is aimed at all primary and secondary school staff to include TAs, pastoral staff, heads of year as well as teachers. Attendees will participate in practices which they can take away and use at home and at school – in time they may even wish to share them with their students.

#### Feedback from delegates:

*"Louise's delivery was very relaxed and open and made the theory and practical aspects of mindfulness very accessible."*

*"I would recommend it to anyone."*

*"Thank you so much for giving us strategies to learn how to take a step back from situations in class and how breathing techniques can help calm situations."*

*"Great trainer. Very relaxed, knowledgeable and engaging."*

*"I really enjoyed myself and hope my school will set up a group"*

## Supporting Young People in the Secondary Education Setting

**Facilitator:** Catherine Munns

- Lead Training and Development Co-ordinator and Counsellor, Brentwood Catholic Children's Society (BCCS)
- Team Leader, Child and Adolescent Mental Health Service (CAMHS) (2008-2015)

Catherine studied at the Tavistock Clinic and has a Post-Graduate Diploma in children's mental health. She is also a fully qualified Counsellor with extensive experience of working with children, adolescents and families. During her role as Team Leader at CAMHS, Catherine began to deliver training to schools.

**Co-Facilitator:** Louise Picton

Counsellor and Clinical Supervisor at the Brentwood Catholic Children's Society (BCCS), Louise has worked in schools for 16 years in an educational and therapeutic capacity.

Schools are increasingly challenged with understanding the complexity of children and young people's emotional health and wellbeing. In addition to supporting pupils' emotional health and wellbeing, schools are also tasked with the responsibility of promoting academic achievement.

This half-day Workshop is aimed at all Secondary School staff with a view to empowering you "to be part of the response". The focus of this workshop will be on:

(a) Identifying and understanding the unconscious processes children and young people engage us in, and the ways in which we can respond; and

(b) Promoting healthy staffing bodies by supporting staff to understand the complex unconscious processes which we can become engaged, and immersed, in.

Helping staff to navigate, and 'tune in' to, the subtleties of challenging and de-skilling interactions with young people will undoubtedly result in the young person responding more positively to their teacher; their setting; and this will translate into their ability to learn. I hope that the additional upshot of understanding such interactions will be that your staff will feel calmer, self-aware, upskilled, and in a better position to help.

*Feedback from recent workshops run by Catherine Munns:*

*'Excellent course. Highly recommended to other colleagues who work within schools or other child-centred professions.'*

*'This is one of the best training courses I've attended in the last three years.'*

*'Catherine was very tuned into how we were feeling and gave excellent targeted support for us.'*

*'Well put together ... I felt very confident in Catherine's knowledge and ability.'*

"Schools need to have a clear awareness of the extent and nature of mental health problems in children and young people and of their responsibility to be part of the response, not least because these problems do not go away. Half of lifetime mental illness starts by the age of 14."

Salary L12 to L18 plus children's centre leadership allowance

Are you a passionate leader of 0-5 family learning who has the drive to work with an incredibly caring and dedicated team? We have a reputation for high quality provision including an amazing outside garden. Some of our families bring East End traditions to Edith Kerrison, whilst others bring global experiences. Together we are a stronger community.

Edith Kerrison has been established as a nursery school for nearly 100 years. A children's centre was built alongside in 2008. We now lead on delivering the Best Start in Life Offer, which includes outreach services into Custom House and Canning Town. We have a collaborative partnership with other nursery schools in Newham and

local boroughs through a Learning Without Limits network. We work with our local PVI partners and childminders to raise the quality of our provision through innovative evaluation of practice, so that together we improve family and children's outcomes.

Governors are seeking to appoint an experienced early years teacher who can be an inspirational role model in teaching, playing and leading. You will enjoy the challenge of laying future pathways for Edith Kerrison that are cemented with a deep rooted understanding of how babies, young children and parents learn. You will have the communication skills to transform this into a strategic vision, that can be understood and provide sway in a multi professional environment so that the children, families and staff thrive.
