

World Fuel Services

The trusted global network
providing energy solutions
and enabling global commerce.

We solve energy challenges.

We collaborate with transportation, commercial and industrial partners to provide energy solutions that best suit their needs – wherever, whenever.

Energy Solutions

Global Network

Enabling Commerce

An aerial view of an offshore wind farm in the ocean. Numerous wind turbines are visible, stretching across the horizon. The water is blue and shimmering with sunlight. A small boat is visible in the distance. In the bottom right corner, the deck of a larger ship is partially visible.

Energy Solutions

The energy market has changed, but we have a history of adapting to market dynamics.

Energy is our foundation. We supply nearly every type of energy product to customers around the world. Our team of certified energy managers, brokers, traders, engineers, and risk professionals ensure that energy challenges are solved safely and reliably. We stand with our customers to meet their current and future energy needs – now and into the future.

We continue to expand the products and services we offer to meet the changing energy needs of our customers.

Lubrication Performance Services

Price Certainty

One of the major factors threatening the growth and success of any business is the uncertain, often volatile, cost of energy.

With more than 30 years' experience in fuel procurement and logistics, we understand how volatile fuel, natural gas, and energy markets can impact your business. Fluctuating energy costs put pressure on margins, challenge your budgeting process, and can significantly hinder your growth.

Secure an energy agreement that matches your ongoing needs and get greater control over your future energy spend. We're here to help.

Your Reliable Partner in Price Risk Management

With integrity, responsibility, and a solid financial foundation, we deliver the Price Risk Management solutions our customers require to succeed simply and effectively.

Our transparency, solid balance sheet and breadth of products and services make us the partner of choice for thousands of customers and suppliers across the globe.

Buy better, buy less.

Our professional energy managers help you deliver against your unique energy strategy.

powered by **Kinect**
ENERGY GROUP

As an integrated solutions provider within World Fuel Services, Kinect Energy manages over 200TWh for our clients, simplifying their energy and risk management, sustainability, procurement and supply.

We always start by listening, so we truly understand your energy needs.

With global reach and local experience we help you develop the right solutions in natural gas, electricity, liquid fuels, biogas, renewables and carbon trading mechanisms.

Supply Management

Secure your supply and simplify logistics with a trusted partner.

Portfolio & Price Risk Management

Your unique strategy demands customized energy price risk management and active hedging.

Data Management

Are you making sense of your data; create insight from complexity.

Consulting & Sustainability

Capture enduring competitive advantage and ensure compliance through better insight and execution.

Kinect-Procure™

Take the hassle out of managing energy supply across your organization. We optimize your energy procurement so you stay on or under budget.

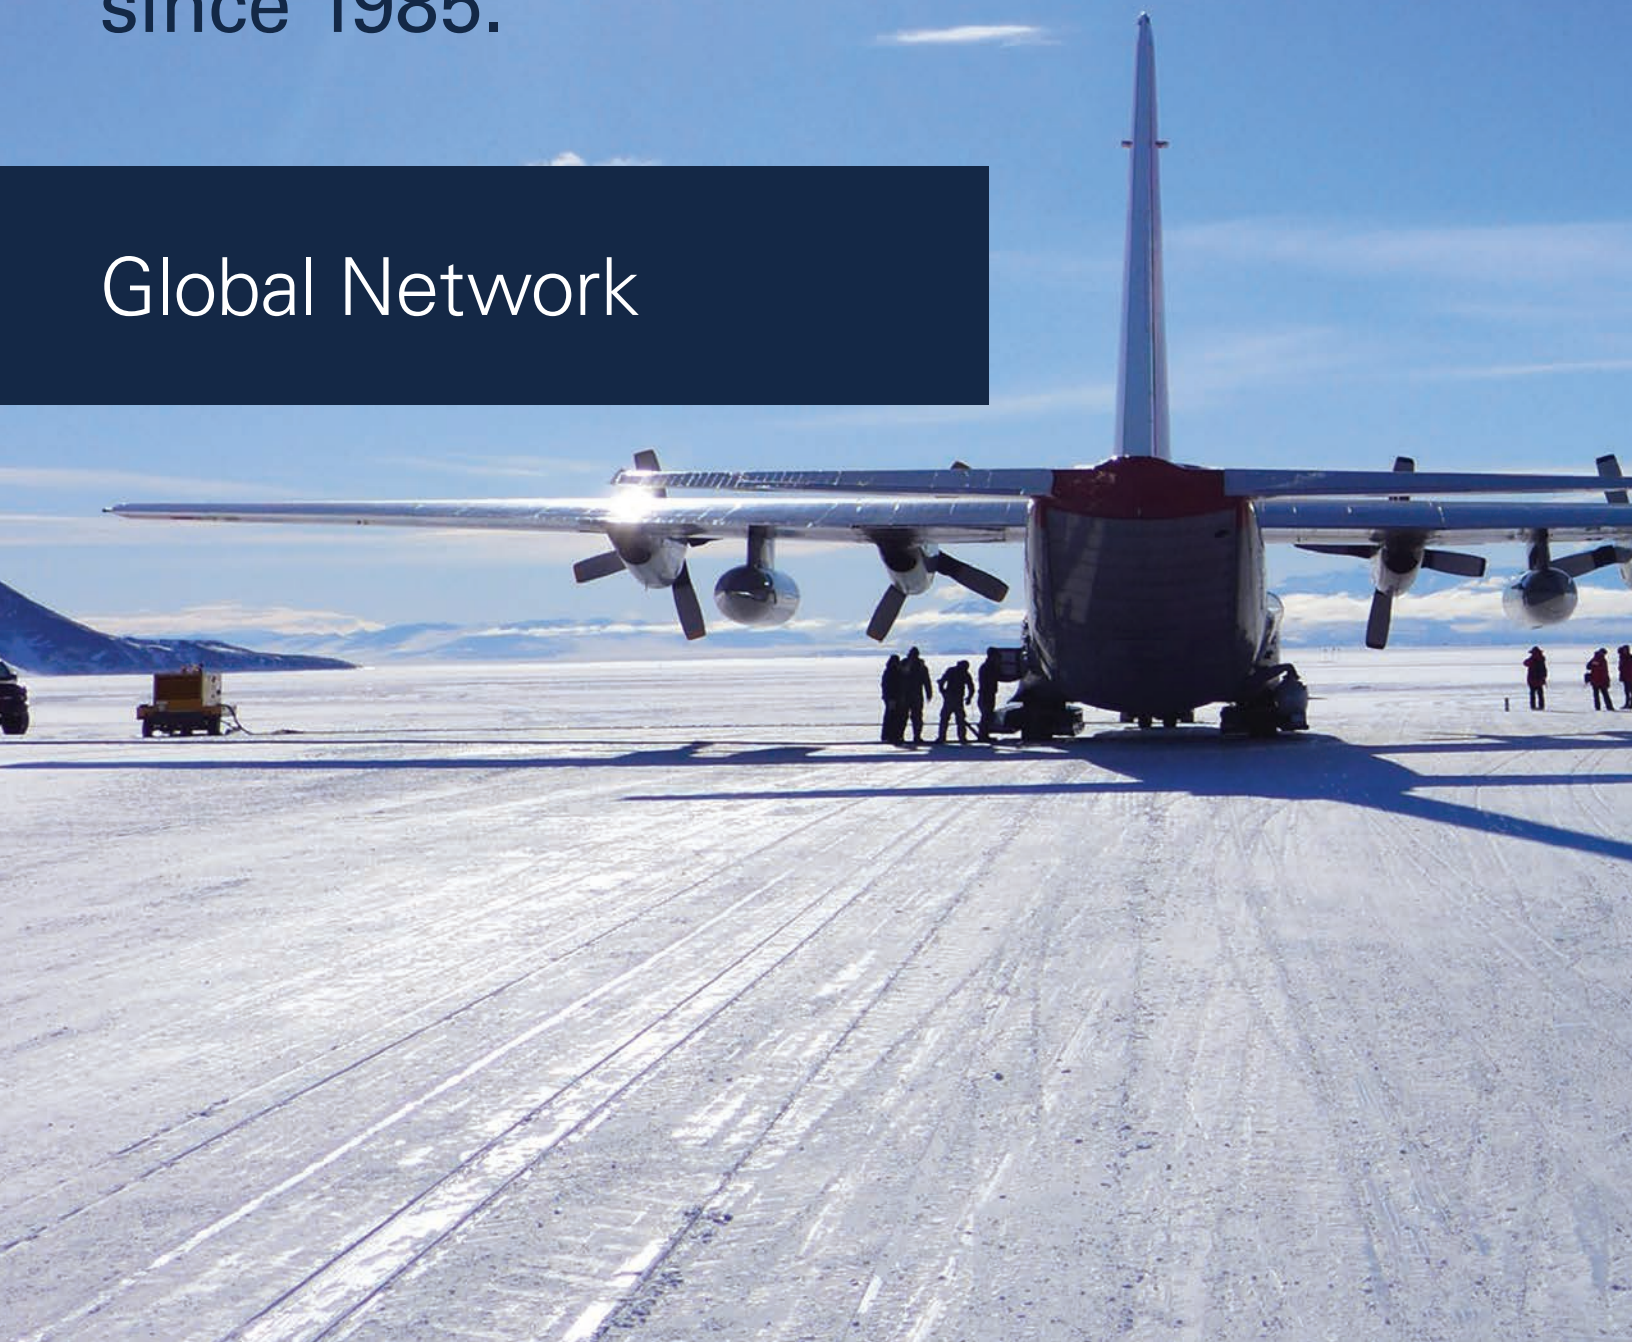

Kinect Online

Empowering you with award-winning, energy knowledge and insights.

Transporting energy in 200+
countries and territories,
since 1985.

Global Network

Our global logistics network covers strategic supply inventories, time-tested supplier relationships and air, sea and surface transport across the globe.

Ensure product supply and manage logistics for smoother operations.

Logistics & Distribution

- Break-Bulk Delivery
- Bulk Delivery

- Onsite Mobile Fueling
- Turnkey Fuel Logistics
- Wholesale Rack Supply

Inventory & Storage

- Inventory Level Management
- Storage Facility Installation & Service
- Storage Facility Leasing
- ISO Solutions

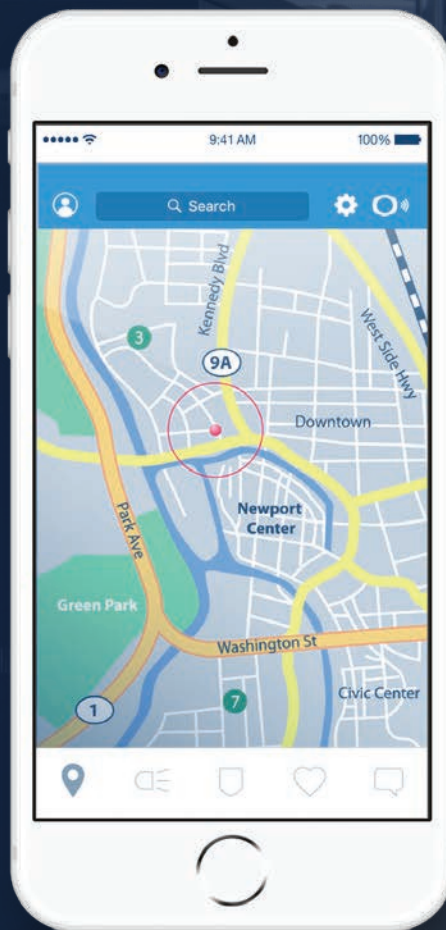

Logistics made possible by technology.

Technology isn't a buzz word for us. We've embraced it to transform how we do business, making interactions faster, easier, and more intuitive – to optimize our customers' experience.

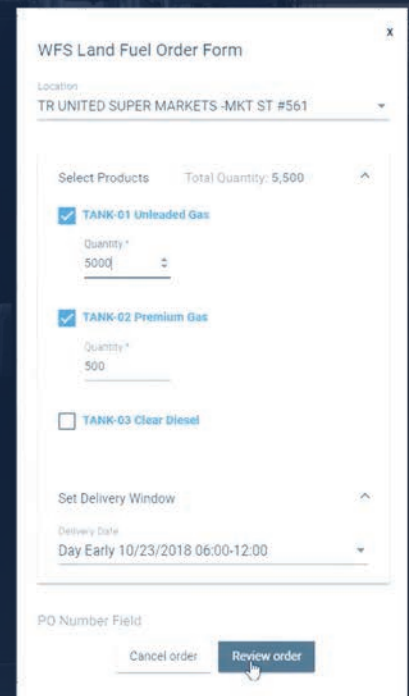

myWorld

Innovative mobile app with comprehensive flight planning information.

Fleet Automation

24 / 7 order tracking and delivery information, with real-time transit updates.

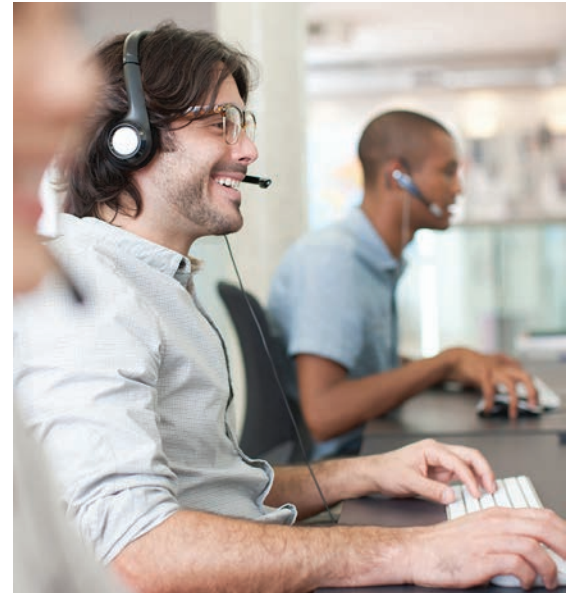

Customer Portal

Cloud-based dashboard to view and manage your orders, invoices, and data.

With a side of humanity.

Our technology doesn't stand alone. Every technology-enabled solution we build is backed up by our team of local professionals – so there is a person to call for support, when you need it. It's the innovation you want with the helping hand we all need.

Fleet fueling, without the hassle.

Wherever your fleet needs to go, we have the perfect card solution for you. Operate a fleet of trucks or aircraft? Our fleet cards provide flexibility and make fleet administration easy. No matter the fleet, no matter the size, we provide powerful fueling solutions.

Aviation

Enabling Commerce

Drive sales growth and enhance your customers' experience with robust payment and credit solutions.

Our sophisticated managed services and expert driven integrations support B2B resellers, eCommerce, manufacturers, and retailers around the world. These solutions help reduce the costs associated with working capital, A/R, and credit cards so you can focus on what matters most: powering global commerce.

powered by **msts**TM

Since 1978, MSTs has helped businesses to reach their full potential with global payments and credit solutions. We believe through innovation and technology, B2B commerce can be accelerated.

Customers first. Always.

Your success is our success.

"XLR's reputation among owners, pilots and brokers is built around our customer-centric approach and ability to deliver a seamless experience for private passengers. Our partnership with World Fuel Services has enhanced that experience and we're looking forward to a long and successful relationship."

Chris Beer, Director – XLR Executive Jet Centers

"The combination of providing both fuel, electricity and gas management was what made working with Kinect Energy Group and World Fuel Services so easy, as they managed the global project as one team. Other companies could only provide energy or fuel and that meant we would have to deal with."

Kevin Verburg, Director of Asset & Technology Procurement – Gate Group

"The partnership between Kinect Energy Group and our team was excellent. Energy audits identified a total of 95 opportunities to save energy, 15 of which underwent full life cycle cost analysis, which predicted that an outlay of £202,900 would deliver an annual saving of £74,374 with a net present value of £417,727 to the College."

Steve Beeby, Superintendent of Buildings – St. John's College

"World Fuel Services has always provided us with strong support, especially during tough times such as Hurricane Florence in 2018. Uninterrupted supply helped us keep business moving forward."

Senior Procurement Manager – Major Shipping & Logistics Organization

Partnership you can count on.

Our market-based professionals offer true local expertise and decades of experience. Combined with the global resources that only a Fortune 100 powerhouse can provide – we deliver unmatched opportunities that no one else can.

A history of success and a future filled with opportunity.

Every day, we serve as a steadfast energy, logistics, and transactions partner to thousands of customers. For over 35 years, our market intelligence, relationships, and collaborative culture has made us the partner of choice to all of our stakeholders. We are forward-thinking, anticipating energy challenges, and delivering meaningful solutions.

Commitment to safety you can trust.

Nothing is more important than safety. Even in the most challenging environments, safety is central to everything we do. At job sites and customer locations, on and off the road, and during deliveries – our focus on safe, secure operations is paramount.

That's why we've invested in a team of professional safety, risk, health, and environmental experts who work with our customers and business partners to ensure safety wherever we work, 24 / 7 / 365. Because we're all in this together when it comes to protecting people and preserving the natural environment we all share.

All working together.
