

CONCEPT

AXION Easy is a high quality inflatable tent with simplified structure, respecting financial limits of our clients. Even with limited budget it provides them an opportunity to use a quality brand inflatable tent, made in the EU, without compromises. An EASY model is an easy concept of four independent inflatable legs nicely forming a roof with a place for four artworks to be printed by sublimation printing without color limits. Similar to other AXION models, there is a possibility to use different branded roofs with one structure, easily changeable by the zip-off technology for better promotion. The zip-off cover, walls, visors and the entire inflatable structure can be printed in full color dye sublimation upon demand..
