ESTIMATING POLICY

We are a quality conscious company and because of this, we aim to offer you, our customer, the best service and quality of workmanship possible.

When we put together a repair estimate, we prefer to have the vehicle on site. Our reason being that it may not always be possible to assess the full extent of damage without a hydraulic lift.

Any repair carried out on behalf of an insurance company will only be to restore the vehicle to its PRE-ACCIDENT CONDITION. It will not include wear and tear imperfections, such as Stone Chips, Rust Spots and Minor Cosmetic Dents or Scratches. The insurance company's engineer will not authorise work that is not attributable to the claim.

Our estimators will be happy to give you a supplementary estimate for any extra work that you are considering having repaired. We feel that the quality of our service and the overall finished appearance of your vehicle can be much improved by offering you this service. It will cost proportionally less to have the extra work repaired whilst the vehicle is already in the work shop and should help you retain the optimum value of your vehicle.

Please contact us on 01474 359444 to discuss your requirements.

All our work is guaranteed: either as per the terms of your insurance policy or for one year from completion of the work (excluding rust treatment).
