TIENS Health Pillow, based on the Traditional Chinese Medicine, is shaped especially to provide ideal support for the cervical spine. It is made of light and soft pearl wool that keeps it in proper shape. Because of the wool's elastic properties, the pillow offers strong support to the neck, while putting less pressure on the cervical vertebrae and such prevents gravity-caused neck strain during sleep. Thanks to a combination of magnetic field, infrared light and negative ions the pillow supports the proper function of the cells in the body and improves their oxygenation.

TIENS

An appropriate length and quality of sleep is so important because it determines not only whether we feel rested, but also how our entire body functions.

The Health Mattress by TIENS, thanks to its unique structure, helps normalise the biological magnetic fields in the human body, eliminates fatigue and improves sleep length and quality.
