Probable Severity	Likelihood of Harm	Risk Rating
Trivial injury = 1	Very unlikely = 1	1 to 6 = LOW
Minor injury = 2	Unlikely = 2	
Moderate injury = 3	Possible = 3	7 to 14 = MEDIUM
Serious injury = 4	Likely = 4	
Major Injury = 5	Very likely = 5	15 to 36 = HIGH

Golf Driving Range Risk Assessments **2019-2020**

What are the hazards and dangers?	The risk and who to	Severity, Likelihood and Risk Ratings			Control measures used to reduce likelihood and risks	Other precautions	Current Residual Risk
Being struck by a golf ball by another user.	Personal injury to user, other range users and spectators	5	2	10	Signs to warn all users that they are not permitted to collect balls from the gravel or other parts of the outfield.	Monitoring of the range by CCVT is routine	Low
Striking another person with a golf ball.	Personal injury to user, other range users and spectators	5	2	10	Bay dividers are in place to prevent any lose balls from potentially striking a user in a other bay	Monitoring of the range by CCVT is routine	Low
Being struck by a golf club by another user.	Personal injury to user, other range users and spectators	5	3	15	Warning signs are posted in each bay to ensure that users do not encroach beyond their own bay or into another bay.	Monitoring of the range by CCVT is routine	Low
Striking another person with a club	Personal injury to user, other range users and spectators	5	3	15	Warning signs are posted in each bay explaining that users must be at least 2m behind the person hitting the ball.	Monitoring of the range by CCVT is routine	Low
Injuring hand/arm/fingers whilst using the Power Tee's	Personal injury to staff and guests	2	4	8	Warning signs are posted in each bay and at the ball dispenser explaining that guests should contact a member of staff should a PowerTee stop working.	Only trained staff are to work on the Powertee, power should be isolated to the unit before taking it apart to avoid the risk of electrocution	Low
