

Securing your safety.

Protect your workers from COVID-19.

Bull Products has responded to customers' urgent needs by sourcing and supplying a new range of products to protect workers from COVID-19, in any construction, healthcare, commercial or industrial location, including masks and visors, surface and hand sanitisers, and mobile wash and sanitising stations.

Mobile sanitising stations

Enabling workers to regularly and effectively wash and sanitise their hands is a vital part of keeping many industries operational. These simple and quick-to-deploy cleaning stations can be connected to a clean water supply and foul water drainage. Two models can include a sink, soap, sanitiser, paper towels and be customised to a customer's own requirements with branding and signage.

SaniHub Hand sanitiser station

- › Product code: SH01
- › 2x hand dispensers
- › Bespoke signage options
