Dear PDM sponsors:

I wanna appreciate and thank you for providing the news papers to our school (Southern High school). I always pick up and read the newspaper everyday in school since the first day of school til now. Just by reading the newspaper has interested me to keep on reading, and keep track of what is happening on Guam. And I can read the newspaper when I get ~~bored~~ ^{bored} or have nothing to do or when I'm done with my seatwork or homework in class.

I really want to appreciate you (PDM sponsors). For giving us free news papers to our school. I really want to thank you for your support to us. Thank you

Dear sponsors,

May 13, 2010

Thanks for giving us newspapers.

It really helps us out with our assignments.

We use the newspaper and read it during

our 15 min. silent reading. We use it

on our read alouds. We even use it for our

voice of a freshmen's. It's really helpful.

We get lots of news and local updates.

Articles on the news paper get so

interesting that it makes want to

keep reading. So thanks.

Always,

Rissa Nangarta.

(Merizo).

Dear Sponsors,

I deeply & sincerely thank you for providing the PDN for our school. You have helped us to be informed of our local news and to expand our writing abilities by writing current events from the newspapers you have donated. You have helped us enormously for these are not just ordinary newspapers to us. We use them to read and learn more / stay informed and also we use them for educational purposes such as current events, newsletters, even just to relax and clear our minds. Thank you so much once again and your generosity is deeply appreciated.

This is going out to the people that are editing newspapers! I would like to thank you guys for putting your effort in this wonderful newspapers. One thing I like about reading the newspaper is because it talks about things on Guam or places on Guam. Such as the baby they found in the sewer. If it wasn't for the newspaper I wouldn't know anything about the poor baby they found in the sewer. and today I read about the waters in Tumon Bay the color is brown/red I wonder if I could get a good look at this when I get home. I even love to see the horoscope cause that's the first thing I'll read then I'll start to look through all the pages to see what is going on.

The end!

May 13th 2010

to: SPONSOR,

Well I'd like to thank YOU for providing
our school, SOUTHERN HIGH, free newspapers.
The newspapers really help me to keep me
up to date with the news & it helped me
to do my current events in my English 9 & 10
class. YOU are very kind to give us the
PDN newsletters for free.

thank* you
a lot!

always & forever
- IISette MARIA KIKU

From: Aaron

News papers are good to pass the time. They let us know what is happening around the island. It also lets us see how our great kind President of the United States, Barack Obama, is helping out the Nation even through the lies of the G.O.P. on him and the annoying Republicans who have been trying to obstruct his administration for silly political reasons by pretty much voting no on everything he endorses. The News paper also allows us to check the weather and see how our school's teams are doing. The News paper also really helps us to do reports on our current events using the PDN as our main source. Thank you for the News papers!

Sincerely, Aaron

PDN

I would like to thank you for providing the people of Guam written updates on what is happening. My favorite part of your news paper is the horoscopes and the sudoku games. I would like to know how to solve a crossword puzzle, though. I'm still working on it. Without the PDN paper the people of Guam wouldn't know what is going on around the island. Although, the island does need more attention, the PDN paper is doing a great job here on Guam.
