VIDEO DOOR ENTRY Smart audio/video door entry system.

Insafe Video Door Entry puts you firmly in control of visitor access to your building at all times. Employing the very latest digital technology, **Insafe Video Door Entry** provides clear audio-visual communication between you and your visitors.

- For residential, commercial, industrial and educational premises
 - Identification of visitors before granting entry
 - Can be fully integrated with our other Insafe systems
- Code/Pin and Prox credential electronic access control options
 - SIP compatible - answer the door from a PC or smart device
 - Control internal and external doors

Typical Applications

SHOPS
HOTELS
CINEMAS
HEALTH CLUBS
GOVERNMENT BUILDINGS
RESTAURANTS

BANKS
POST OFFICES

TOUCH SCREEN VIDEO DOOR ENTRY

Ultimate access. Smart, simple, state-of-the-art technology.

This is our ultimate door entry system, combining state-of-the-art digital technology with the convenience of a **touchscreen** display to provide a true 21st century visitor experience.

- Advanced 7" colour touch screen
- Toughened, anti-glare & high contrast glass screen
 - Advanced sound
 - Pan / tilt camera function
- EM, Paxton and MIFARE® technologies
 - RFID reader
 - IP and PoE technology
 - SIP compatible

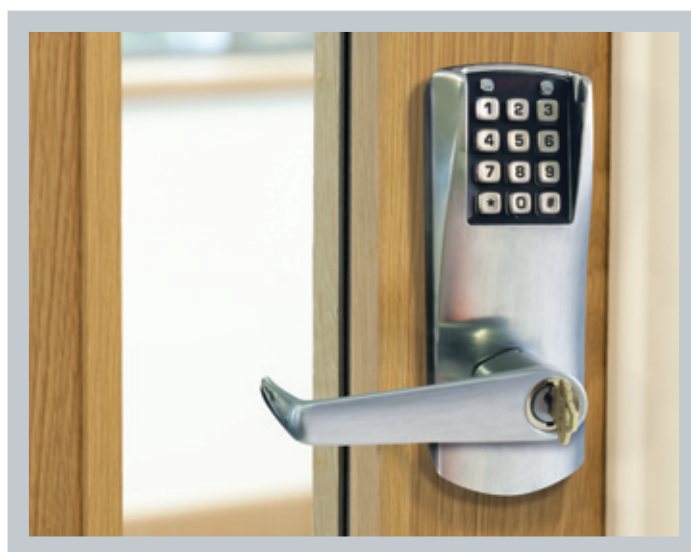

ACTIVA® ONE

Standalone, robust lockable handle.

Activa® One is our entry level electronic access control system that cleverly combines the convenience of a digital entry keypad with a robust and attractive lockable handle providing simplicity of use and excellent security all within a single device.

- Pin code access
- User friendly design with access granted/denied LED indicator
 - Robust vandal resistant construction
 - Simple administration with audit trails
 - 100 user codes, 1000 event audit
 - For internal and external doors

STAND ALONE ACCESS CONTROL Simple self-contained access.

This is our entry level electronic access control solution, providing state-of-the-art technology within a totally self-contained, stand-alone system that is both cost effective and easy to manage.

- Easy to install and administer
- Low cost professional access control
 - Vandal resistant
- Digital, card and fob credentials options
- Rapid deployment and implementation
- Suitable for the control of low/medium security risk

STAND ALONE ACCESS CONTROL High Security.

Our high security stand alone access control provides the same simple, cost-effective, stand alone solution but with the added security of a **remote door control unit**, installed within the premises to minimise the risk of unauthorised interference with the system.

- Simple to install and administer
- Separate door controller for enhanced security
 - Vandal resistant design
- Digital, card and fob credentials options
- Rapid deployment and implementation
- Suitable for the control of high security internal and external doors

ULTIMATE ACCESS CONTROL PC and server based access control.

Our UK designed, manufactured and supported ultimate access control system incorporates all of the very latest high technology features you would expect to cater for the world's most demanding access control requirements.

- Complete high security and monitored access control
 - Integrates with other Insafe systems
- Compatible with Insafe's entire range of readers and credential technologies
 - Full reporting and audit trails
- Can control hundreds of doors and multiple premises from a single location
 - Up to 10,000 users
- Provides total control of access across your entire estate
- Fully integrates with your fire and security systems networks
