Forthright named AppSense 2015 Partner of the Year, Rookie of the Year

Award Recognizes Forthright for Exceptional Customer Engagement and Revenue Growth

Miramar, FL and Sunnyvale, CA, *April 7, 2016*- Forthright and AppSense, the global leader of secure user environment management (UEM), today announced that Forthright has been named AppSense 2015 Partner of the Year, Rookie of the Year. The award, presented during AppSense's annual North American Elevate Partner Conference in New Orleans, La., recognized Forthright for its exceptional achievement in the areas of customer engagement, revenue growth and implementation innovation.

> *"As a leader in mission-critical enterprise engineering and managed services, there is great synergy in receiving this recognition from the leader in secure user environment management," commented Andrew Medina, CEO, Forthright. "We see AppSense as a critical component in enabling our clients to meet their security and compliance needs while enhancing user experience and productivity."*

As an award-winning provider of enterprise engineering and managed services, Forthright is a trusted advisor to some of the world's largest companies, delivering complex enterprise information technology solutions. Utilizing AppSense, Forthright enables clients to provide their endusers with personalized workspaces and mobile data access, while ensuring easy policy management, heightened security, and improved performance.

> *"We are pleased to recognize Forthright as our 2015 Partner of the Year, Rookie of the Year," said Jim Airdo, vice president of channel, AppSense. "Forthright continues to demonstrate an exceptional commitment to our mutual customers, driving new opportunities for AppSense solutions and providing sales, technical and support excellence. We look forward to our continued partnership in 2016 the years ahead."*

The AppSense Partner of the Year awards were selected following close evaluation of each partners' annual contributions based on planned expectations in the areas of engagement,

revenue and growth. Commitment to AppSense training, dedicated personnel and overall performance was also considered.

An AppSense Go+ Gold+ Partner, Forthright offers a complete suite of AppSense UEM solutions including DesktopNow, DesktopNow Plus, DataNow, Application Manager, and AppSense Insight which enable IT organizations to centralize desktop security, management and personalization policies with a prescriptive view into security-related activity. These solutions allow users to have greater desktop personalization while improving security, performance, desktop consistency, and reliability.
