

It costs over £700,000 each year to run our services. Around 90% of these funds must be raised through fundraising and charitable donations.

Care is free of charge to those who need it. We rely on the generosity and support of our local community to help us keep our services running so that we can make a difference to the lives of those we support.

How your support helps

£20 provides an hour's direct nursing care to one of our patients.

£120 covers a bereavement support group for adults.

£1000 pays for direct care to one of our patients for a week.

£30,000 covers the cost of our Hospital Transport Service for a full year.

"We are extremely fortunate to have had access to such a life-changing resource and we will never forget the difference you have made to our lives."

Please support us

Support your local hospice! There are plenty of ways that you can get involved.

Big Bake: Can you hold a coffee morning, bake sale or bake-off to raise some dough? Take part in our Big Bake campaign this year!

Give to us regularly: Regular donations help us to plan for the future and ensure the development of our services. If you would like to give a donation to us each month we would be so grateful for your support.

What's on your Life List? We all have bucket lists, whether that's doing the Great North Run or learning to play an instrument. Why not raise money while you do them? We have plenty of challenges you can tick off your life list or we'd love to hear your ideas.

Become a Business Ambassador! Are you looking for ways for your business to stand out or to demonstrate to your customers how committed you are to improving the lives of local people? Join Tynedale Hospice's membership scheme and fulfil your CSR objectives, access one-of-a-kind marketing opportunities and boost your brand.

Set up a Tribute Fund: Many people tell us that they take comfort in doing something positive in memory of a loved one.

For more details on how you can support us please call our fundraising team on 01434 606 444 or email fundraising@tynedalehospice.com.

Care — When and where it counts

Tynedale Hospice at Home
Registered Charity no. 1034170
3 Wentworth Place, Hexham, NE46 1XB

Our Hospice

Tynedale Hospice at Home was founded in 1993 and today provides nursing care and services to children, adults and families from across the Tynedale, West Northumberland and Ponteland areas.

- We cover a large rural area—800 square miles.
- We provide three services: nursing care in the home, a Hospital Transport Service and Family Support for children and adults who are going through or who have experienced a bereavement.
- Our services are all free of charge.
- 1 in 3 people will be touched by hospice care during their lives.

“A heartfelt thank you to everyone at the Hospice. Your amazing nurses were there when we needed you the most. We don’t know what we’d have done without you.”

Nursing Care in the Home

Tynedale Hospice at Home provides care for people with a terminal illness including cancer, multiple sclerosis, muscular dystrophy and degenerative neurological conditions.

We provide support within the home, allowing our patients to be in familiar surroundings with their family and friends close by.

In the last year we provided over 8,400 hours of care to local people.

Hospital Transport Service

Living in a large rural area can make it difficult for patients to attend medical or hospital appointments, especially if they are in Newcastle or beyond.

Our service provides transport to and from these appointments and it is undertaken entirely by volunteer drivers. Not only do our drivers provide peace of mind but they can also provide a listening ear and a friendly face at difficult or worrying times.

In the last year our drivers covered 47,800 miles, completing 850 journeys for more than 130 local people.

Family Support

We offer pre and post bereavement support services to children, adults and families who are going through or who have experienced the death of a sibling, child, parent, family member or friend. For children and adults this can be an extremely distressing and confusing time and our qualified staff and specially trained volunteers provide support in a number of ways including individual sessions, group support, after school clubs for children and special ‘Rainbow Days’ for children and young people.

The Rainbow Project for children provides a safe environment to talk and explore their feelings. Often it’s important for children to know that they are not the only ones who have experienced the loss of someone they love.

In the last year we worked with 43 families and supported 79 children.

Our support service is open to everyone in the community, it’s not just related to families who have received nursing care.

In the last year 126 adults who were facing or grieving the death of a child, spouse or family member were supported by our staff and volunteers.
