Did you know?

Harmful Chemicals Could Be Lurking in Your Home

- The average household contains more than 60 harmful chemicals.
- These chemicals can negatively impact our health and the health of our families.

Our Bodies Bear the Burden

- Many of the toxins that we breathe in and put on our bodies can build up, causing what is known as Body Burden.
- The heavier our Body Burden, the more it can negatively affect our health.

There's a better way.

Our Global Mission

Improving quality of life
by radically reducing chemicals
in our homes.

**Norwex was founded more than 25 years ago in Norway,
known for its forests, fjords and fresh air.**

Since then, our goal has been to help people everywhere create Safe Havens. How do we do it? By reducing harmful chemicals and waste that challenge the health of our families and the health of our environment.

Create Your Own Safe Haven!

Effective

- ✔ Norwex Microfiber is proven to remove up to 99% of bacteria from surfaces—using only water.*
- ✔ Our innovative plant- and enzyme-based products work to tackle tough jobs while leaving little footprint.
- ✔ We own our Research and Development and manufacturing facilities, so we oversee every step of the process—you can be confident that our products are safe and they work.

No harmful chemicals

- ✔ Norwex Microfiber and water alone cleans better than and significantly reduces toxic cleaning chemicals that can impact your family's health.
- ✔ Typical cleaning products are among the most toxic items in the home. That's why each of our ingredients undergoes an extensive safety and toxicological assessment.
- ✔ We maximize the use of plant-based ingredients and enzyme-based technology to provide better, safer alternatives to traditional, chemical-based cleaners.

Sustainable

- ✔ Many of our products are designed to replace single-use plastic and paper towels.
- ✔ Some of our most popular microfiber products now contain up to 70% recycled materials.
- ✔ Our Microfiber Recycling Program converts discarded microfiber into clean, renewable energy.
- ✔ Our product packaging incorporates OceanBound Plastic, which helps reduce the amount of plastic entering the world's oceans.

**When following proper care and use instructions.*

Amazing clean with only H₂O—no harmful chemicals required.

The Norwex Microfiber Advantage

Extra-absorbent and ultra-durable.

At just 1/200th the thickness of a human hair, Norwex Microfiber is a superior blend of extra-fine, super-dense, nylon fibers—ininitely better than anything else for picking up dirt and debris!

Removes up to 99% of bacteria from a surface using water only.*

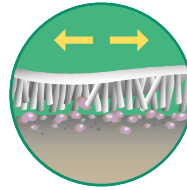

Self-purifies within 24 hours. When wet, our BacLock[®] antibacterial agent (micro silver) embedded in the cloth self-cleanses it, drastically reducing mold, fungi and bacterial odor so the cloth is ready to use again and again.

Saves time and money. With Norwex Microfiber, you can save up to \$600 a year on cleaning supplies—and cut your cleaning time in half!

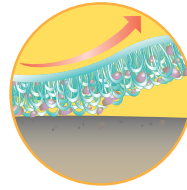

Easy to care for. BacLock self-purifies the cloth, so you launder less often! Between launderings, simply rinse thoroughly and hang to dry.

See complete Microfiber Care and Use instructions on page 47.

How Norwex Microfiber Works

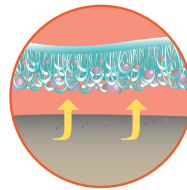

Traditional cotton cloth pushes around particles, spreading dirt, grime and moisture into the surface crevices, leaving it unclean.

Norwex Microfiber lifts and collects even the smallest particles of dirt, grease and moisture.

Use It Dry to Dust—Norwex Microfiber's electrostatic charge picks up and holds everything.

Use It Wet to Clean—When wet, Norwex Microfiber loosens and lifts the most stubborn dirt and debris.

Norwex Microfiber self-purifies—When wet, our BacLock antibacterial agent (micro silver) embedded in the cloth goes to work with self-purification properties.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.biz/en_US/norwex-guarantee for complete details.

See pages 54 – 55 to learn more about how Norwex Microfiber can clean every surface in your home!

* When following the proper care and use instructions.

** BacLock. This graphic is noted throughout the catalog to differentiate those products that contain an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and/or mildew growth within the product.

Some surfaces and finishes can be easily damaged. Please always test Norwex Microfiber on an inconspicuous spot first. Do not use microfiber (except Norwex Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

"The Norwex EnviroCloth is a game-changer... [It] cleans a multitude of surfaces, and all you have to do is wet the cloth with water."

— Lauren Fansler, Editor, *HGTV Magazine*

EnviroCloth® BacLock®

Removes up to 99% of bacteria and dirt on most every surface in your home with water alone. No need for chemical-laden, all-purpose cleaners or wasteful paper towels, so it's safer for your family and better for your budget and the environment! Use wet or dry.

EnviroWand® with Two-Sided Sleeve

Hard-to-reach nooks and crannies are no problem for the bendable EnviroWand. With nubby chenille on one side and microfiber on the other, it attracts and holds dust and dirt much better than single-use dusting pads and chemical-laden sprays. Easily cleans furniture, lampshades, bookshelves, windowsills and screens, blinds, ceiling fans and more!

Size: 67 cm x 7.5 cm / 26.4" x 3" 357051 **\$32.99**

Size: 45 cm x 7.5 cm / 17.72" x 3" 357052 **\$12.99**

Dusting Mitt 

Harmful chemicals found in household dust are no match for the dense, plush fibers in our Dusting Mitt! Its electrostatically charged microfiber attracts and holds dust and other dust-related allergens like a magnet, keeping them from resettling elsewhere. Your home stays dust-free longer!

Size: 26 cm x 14 cm / 10.24" x 5.51" **\$20.99**

Attaches to the Telescopic Mop Handle (page 10) for extra hard-to-reach surfaces.

Dust can contain up to 45 chemicals, including phthalates and flame retardants, and stir up allergies and asthma. Many cleaners leave a waxy residue that actually collects more dust, while regular cloths just move dust around, sweeping it up into the air to resettle again.

Cleaning Paste pairs great with a damp EnviroCloth!

Cleaning Paste

This effective Cleaning Paste works like “elbow grease in a jar,” giving you the scour power you need to tackle tough grime, rust stains, scuff marks, permanent marker and more to get surfaces sparkling clean! Use with a damp EnviroCloth and lather well. *Not for use on brushed stainless steel or special coatings. Always test on an inconspicuous place first.*

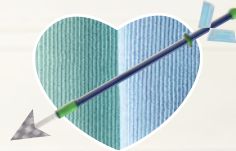

Size: 200 ml / 6.76 oz 403500 **\$29.99**

Cleaning Paste: one jar, hundreds of uses!

Cleaning Paste goes beyond bathrooms and kitchens—it can be used indoors and out! 🏠 Quickly cleans lawn furniture, campers and boats. 🍳 Removes burn marks from pots, pans and appliances. ✍️ Erases permanent marker from tile, laminate and linoleum. 🧹 Cleans and polishes all kinds of surfaces with just one application!

No bucket. No mess. No stress. No kidding.

Our Mop Systems take the hassle out of mopping. With Mop Pads for every surface, microfiber and water pick up everything you and yours can lay down. Your floors are clean, shiny and free from those sticky, waxy, harmful chemicals where children and pets play.

Laundry helpers that lighten the chemical load.

What you need to know about dryer sheets: Dryer sheets are one of the biggest offenders for leaving behind residual toxins. They vent into the air we breathe and rub off on clothing and then onto our skin, causing sensitivities.

Fluff and Tumble Dryer Balls

Dryer sheets can leave harmful chemicals in clothing which then touches your skin. Our 100% New Zealand wool dryer balls soften fabric naturally, helping to reduce static and wrinkles and cut drying time—all without toxins. They're also great for use with essential oils to naturally scent your laundry. 2-year warranty.

Did you know that the kitchen can be one of the biggest sources of waste (and chemicals!) in the home? Single-use bags, wrappers, straws and paper towels and napkins are choking our planet, and plastic food storage options can leach harmful chemicals into your family's food. Choose healthier alternatives and put sustainability on the menu!

Silicone Food Storage Containers

Reduce the use of plastic wrap and plastic containers that can leach harmful chemicals into your family's food. You'll love that these heavy-duty, BPA-free containers are reusable and have easy-to-use latches that provide a powerful seal to keep contents safe and fresh. When not in use, these eco-friendly containers take up 60% less room when compared to other storage options. Dishwasher, freezer and microwave safe.

Some candles, gels, aerosols and plug-in fresheners have one thing in common: harmful chemicals like formaldehyde and dioxins. They can wreak havoc on our health through headaches, eye and throat irritation.

Typical spray air fresheners rely on chemical-laden formulas to mask odors. These can irritate nasal passages and may trigger asthma. Many also contain phthalates and aerosol propellants.

- Our Odour Eliminator is powered by enzymes, which act as natural biological catalysts that speed up the odor-reducing process.
- Norwex products are free from phthalates, which are endocrine-disrupting chemicals found in many air-freshening products.
- Norwex products are free from aerosol propellants, which contribute to indoor air pollution and harm the ozone.

Just spritz and go!

MY NORWEX JOURNEY

My Product Story: I LOVE our Odour Eliminator! Instead of using those other sprays that just mask the smell with harmful chemicals, the Odour Eliminator actually eliminates odors—it's safe and effective throughout my home!

What Norwex Means to Me: At first, it was about how fast and easy it is to clean with Norwex products. But over time, learning how chemicals affect our bodies, it became my mission to spread the word about a healthier cleaning solution.

Let this sink in:

Reducing harmful chemicals where we live goes beyond cleaning.

We often unknowingly put toxins on and into our bodies, through the personal care products we use every day. These toxins can build up over time, causing Body Burden and affecting our health.

Did you know that the average woman uses 12 personal care products every day, with 168 unique ingredients? Or that certain chemicals from personal care products can disrupt our hormone system, leading to weight gain, diabetes, fertility issues and more? When it comes to body care, you have a choice.

Don't choose products that coat your skin and hair in chemicals, adding to Body Burden. Choose Lysere by Norwex.

Lysere Body Lotion

Protect, soothe and hydrate as you replenish your skin's moisture barrier. HOW TO CARE FOR YOUR MICROFIBER:

- Do not use bleach, fabric softeners or dryer sheets when laundering microfiber; they coat the fibers and reduce their ability to clean effectively.
- Launder microfiber cloths separately or with other lint-free laundry. Dry completely.
- Rinse slightly dirty microfiber cloths under warm, running water and hang to dry or drop into the dryer.
- For best results, use a laundry detergent that's free from fillers, like a Norwex laundry detergent.
- For an even deeper clean, use Microfiber Cleaner Laundry Booster.

All Norwex Microfiber products carry a two-year warranty.

Please visit www.norwex.biz/en_US/norwex-guarantee for complete details.

Go for the win!

Show the athletes in your family a little TLC too. Whether it's on the course, in the gym or on the go, they'll score every time with Norwex on the team!

MY NORWEX JOURNEY

My Product Story: The Safe Haven 5 products will change your home. I'm cleaning up after a family of six and a 100-lb. Saint Berdoodle puppy. That's a lot of mess! I appreciate how fast I can clean and have complete peace of mind that I'm not leaving behind toxic residue to harm the ones I care about most.

What Norwex Means to Me: I love my Norwex Life! I get to teach people how to create Safe Havens and set my own work hours. Win! Win! This journey has brought my family true friendships, amazing vacations and a full-time income. This year it's paying for college for my oldest child. Thank you, Norwex!

MY NORWEX JOURNEY

Why I Share Norwex: When you want to change someone's home environment, even the world's environment, you share Norwex! The blessing that comes full circle when you are invited to share the products and Mission, and when people actively incorporate it into their lives, is unlike anything I have ever experienced. My passion for this journey grows every time a home is changed!

What I Love Most: This is such an exciting time to get on board with cleaner living. I love and feel honored that I get to build an army of people who want to change lives and make a REAL IMPACT!
