

OPS Global

Health and Safety Training Prospectus 2016

OPS

CONSULTANCY &
TRAINING

Our 2016 prospectus is designed for aspiring Health and Safety professionals looking to further their understanding, awareness and skill set in the growing Health and Safety profession.

OPS Consultancy & Training provide proven training courses for UK and overseas clients, both corporate and individual. Courses are suitable for professional development programmes leading to recognised levels of certification. Extended networking with associated training providers ensures meeting clients specific requirements for industrial training.

NEBOSH

OPS is a provider of NEBOSH (The National Examination Board in Occupational Safety and Health) accredited courses who offer a comprehensive range of globally-recognised qualifications designed to meet the health, safety and environmental management needs of all places of work.

Who will benefit?

The courses will benefit any managers or supervisors responsible for the well being of their workforce, safety officers looking for internationally recognised qualification. UK and overseas organisations seeking to implement International Standards in Health & Safety.

International & National General Certificate (IGC)

- The certificate covers the principles relating to health and safety, identification and control of workplace hazards and the practical application of this knowledge.
- The IGC syllabus takes a risk management approach based on best practice and international standards. The qualification also features a practical workplace assessment.

International Oil & Gas Certificate (IOGC)

- This qualification focuses on international standards and management systems, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.
- The Certificate also highlights the importance of process safety management in the Oil and Gas industry.

International Construction Certificate (ICC)

- It is likely to prove useful for those concerned with the management of buildings who may need to ensure that contractors are working safely.
- Certificate is aimed at Supervisors, Managers and CDM coordinators who are required to ensure that activities under their control are undertaken safely.

International Fire & Safety Certificate (IFC)

- Covers the principles of fire and explosion, causes and prevention of fires, fire protection in buildings and ensuring the safety of people in the event of fire.
- The practical element of the course ensures that participants can carry out, unaided, a fire risk assessment and prepare a recommendations report for management.

We now offer evening and block courses across Europe, North America and North Africa giving you more options when choosing a location to earn your qualification.
