PERFORMANCE CHEMICALS

**A commitment that
goes farther.**

OUR COMMITMENT:

To continually push the boundaries of performance—for your products and your results.

Buckman performance chemicals live up to their name. They preserve, protect, clean, stabilize and optimize the effectiveness of products across a wide range of industries.

But we don't stop there. We offer the vast resources of a global network, from scientists in the lab to technicians on site, to help you tackle specific problems, find new opportunities, gain efficiencies in production and be more competitive. So not only do your products perform better, your operation does too.

Continuous improvement. Superior results. That's the promise of Buckman performance chemicals.

Buckman

Commitment makes the best chemistry.

EXPERIENCIA DE BUCKMAN

| Agriculture | Biofuels | Coatings | Formulators | Metalworking | Oil & gas | Plastics | Recreational water |
| Textiles | Toll manufacturing | Wood treatment |

APPLICATIONS AND PRODUCTS

| Additives | Algaecides | Bactericides | Biofuel additives | Boiler water | Clarifiers | Cleaners | Cooling water |
| Corrosion inhibitors | Defoamers | Dispersants | Enzymes | Fertilizers | Filter cleaners | Flame retardants |
| Flocculants | Fuel oil additives | Fungicides | Hydrogen sulfide scavengers | Insecticides | Microbicides |
| Phosphate scavengers | Phosphonates | Phosphorous acid | Polymers | Polymer randomizer | Preservatives |
| Reverse osmosis | Rust inhibitors | Sapstain control | Scale control | Scale inhibitors | Sludge dispersants |
| Soil fumigants | Tannin stain blockers | Ultraviolet light stabilizers | Urethane/epoxy catalysts | Wastewater |
| Water dispersants | Wood brightener |
