

There is no better time to get professionally taken photos of your product than when we are producing the first articles of a production run.

These will give your packs a professional look and give you a stock of pictures for use in all your marketing media.

We can

- Select perfect packs from the run during packing
- Take to the studio and put back into your stock
- Produce fully professional images for email or on CD-ROM in any file format (.jpg, .tiff etc)

Andpak works with Prodoto [www.prodoto.com](http://www.prodoto.com) the leading commercial studio who provide us with a complete service, including set up and post production

Just add ***“marketing photos”*** as a line to your order and we'll take care of the rest.

Prices depend on number of items in a photo etc. we can work out costs based on the job requirements.
