

Safeguarding Solutions Procedures websites

Save time and resources with this custom-built, user-friendly platform for your Safeguarding Procedures. Built exclusively for Safeguarding Boards, the template has proven popular with users for its innovative design and functionality, allowing for simple, straight-forward navigation. We provide in-depth training to enable you to update the site as-and-when required.

Benefits

Easily-accessible, intuitive site layout and structure

Flexibility for immediate updates

Extensive reporting

Website and social media integration

Innovative 'Quick Guide' for simplistic navigation and overview

Intelligent alerting system

Key Features

Flexible updates

All Procedures can be updated or re-worded at any time; an audited trail tracks any edits, allowing site visitors to see what changes have been made and when and admin users to see who made them. We provide detailed training to enable you to make these edits as-and-when required without having to wait on any third party.

Detailed reporting

We can provide extensive analytics reports on all Procedures websites to allow for analysis and future planning. All reports can be tailored to your organisation's specific requirements.

Automated alerting system

We offer the option of sending out automated alerts featuring all updates to client databases every six months in line with the national updates.

Integration to websites

All procedures can be integrated with your website and social media channels, where certain web pages are linked to relevant procedures.

We're delighted with the procedures solution – we felt restricted by our previous site and couldn't offer the wealth of information we knew we had about what the Board does, for either professionals or families. Phew's digital solution means any Safeguarding Board can operate a contemporary, easy-to-use website, which we can be updated as required, and will better enable us to engage with our audiences.

Marion Rajan, East Sussex LSCB Board Manager

...multi-agency safeguarding procedures are fit for purpose and responsive to lessons learned from case reviews. Policies and procedures are clear, concise, and readily accessible on the Board website. The website highlights key changes and clear datestamping enables practitioners to quickly identify amendments to procedures.
