

ABOVE GROUND STORAGE TANKS  
CRADLE-MOUNTED & SKIDS-MOUNTED TANKS

Diesel prices go up and down,  
but our tanks go and stay  
where you need them.

Either mounted on cradles fixed to the floor,  
or fitted with skids to enable easy repositioning where required on  
site, the tanks in this range are built to withstand the onslaught of the  
elements and manhandling over the roughest terrain.

forgeweld

LEADERS IN STEEL TANK MANUFACTURE, SINCE 1963.

### Tough

Constructed in hardwearing carbon steel, these are Forgeweld's trusty workhorses for the fuel and construction industries.

Submerged arc welding, performed under a blanket of flux, ensures strong, clean welds with deep penetration and no spatter. Welds produced are sound, uniform, and corrosion resistant - perfect for long-term service in the field.

### Warranty policy

Forgeweld's Cradle-mounted and Skids-mounted storage tanks carries a warranty against defective materials and workmanship for a period of 24 months from the date of installation.

### Low maintenance

Maintenance is virtually zero. The exterior is finished with a tough shield of heat-reflective paint. The tanks are single-walled cylinders. The interiors can be coated or painted, on request.

### Sizes to suit your needs

The tanks are supplied in the dimensions shown below, delivered by independent installers, either on skids or cradles.

### SANS 10131 compliant

Like all Forgeweld's aboveground tanks, these vessels comply with SANS 10131 standards, your assurance of a tank that's tougher than tough.

VOLUME m <sup>3</sup>	IN. DIAMETER mm	OUT. DIAMETER mm	OVERALL LENGTH mm	SHELL THICKNESS mm	CALC. CAPACITY litres	APPROX. WEIGHT kg
