

JEEP® RENEGADE

# REDEFINING FUN

Since 1941, Jeep® has pushed the boundaries in both 4x4 capabilities and making driving fun, the Jeep® Renegade is no different. With its unmistakable styling and road presence the Jeep® Renegade is an SUV which is at home everywhere you go. Unparalleled performance, cutting edge technology and clever storage solutions. Get ready to redefine the rules of fun.

# REIMAGINING ATTRACTION

A striking blend of wild and cultivated, the Jeep® Renegade has a jaw-dropping attitude and it's proud to show it.

Its stance is powerful, its proportions aggressive, its look and feel tremendously nonconformist and fresh.

Some urban environments remind us of the brutal, but irresistible wilderness out there, and such is the Jeep® Renegade.

Available HID Xenon Headlamps

The Renegade is full of unique details and legendary Jeep, brand design cues. Its look is built upon the Wrangler's powerful stance, elaborating on its rugged body forms and decisive proportions. At the front, the iconic seven-slot grille is surrounded by a vibrant coloured "shield", while large circular headlamps are tucked under the hood for a snappier look.

The trapezoidal wheel arches are in continuation of Jeep,'s legacy. The X icon - a Renegade exclusive, inspired by the design of the vintage gas cans - signs the back lamp and the exclusive Renegade badge on the side of the vehicle.

Continuing a tradition that began back in 1941, the Renegade also offers open-air freedom with two optional opening roof systems. Choose from either the electric panoramic sunroof, providing exciting panoramic views at every ride, or the MySky open air-roof which features manual removable panels and a power tilt/slide function. Its honeycomb fibreglass polyurethane roof panels are lightweight and stow neatly in the rear cargo area.

# REDISCOVER COMFORT

It's rugged. It's refined. It's simply iconic.

With worlds to explore and adventures to experience, you want a vehicle that's ready for almost anything.

The Jeep® Renegade has everything you need and nothing you don't.

Model shown Jeep Renegade Limited

Design makes a strong and lasting emotional impact. So that's how the interior appearance of the Jeep® Renegade came about. Its rugged, but energetic look continues the brand's legendary heritage, with a stylishness normally found in larger cars.

Its design theme is defined by the joining of soft and tactile forms with realistic and functional detail. The electric parking brake is operated by a switch mounted in the centre console. The sculpted softtouch instrument panel meets with bold functional elements like the passenger grab handle, itself inspired by legendary past Jeep® vehicles. Together, they create a unique, but sculpted habitat.

On board comfort and entertainment are assured by the available top-of-the-line 9-speaker 560 watts Beats audio system and a number of technological features including steering wheels with integrated controls and Uconnect™ Live 5.0" and 6.5" touchscreen systems. They manage Bluetooth connectivity, DAB digital radio, USB and auxiliary audio jack input.

Additionally, Uconnect™ 6.5" offers a premium navigation system with stunning 3D graphics and sensor-assisted GPS which helps ensure accurate positioning even when travelling in areas where GPS signals can become obstructed.

In a Renegade you can communicate, navigate and be entertained whilst remaining focused on the road, with your hands on the wheel. Uconnect™ LIVE enhances your driving experience with sophisticated, yet simple-to-use technological solutions satisfying your desire for top level connectivity and infotainment". Downloading the Uconnect™ LIVE app on your smartphone, allows you to customise your on-board entertainment, receive updates on your vehicle status and have all information relating to your journey brought to you in real time. With Uconnect™ LIVE your Renegade becomes the connecting tool between you and your devices.

**BE CONNECTED TO YOUR LIFE.** With Uconnect™ LIVE you can access your digital world from your Renegade's touchscreen display. Choose between TuneIn online radios with over 100,000 stations from all over the world or Deezer music with over 35 million tracks. Reuters will keep you up-to-date with the latest news from all over the world. With Facebook you will be the first to like your friends' status and Twitter will allow you to keep up with all the latest chat.

**KEEP CONTROL OF EVERYTHING.** You are always in control of your car with my:Car, via your computer and smartphone. You can check your fuel level and tyre pressure, choose an

assistance service if you have an emergency and be informed if there's anything wrong with your vehicle. When your smartphone is connected via Bluetooth, the most important alerts are automatically forwarded to your personal Uconnect™ LIVE account, making managing vehicle maintenance easier than ever before. You can improve your driving style, save fuel and check your car's CO<sub>2</sub> emissions in real time with eco:Drive™. During each trip eco:Drive™ monitors four driving parameters: acceleration, deceleration, changing gears and speed variation.

**ALWAYS FIND YOUR WAY.** TomTom LIVE offers you updated information in real time on your journey directly through your navigator: weather, traffic, speed cameras and online searches for points of interest with TomTom Places. So you can save time, reduce stress and make every journey more efficient and safer.

**LIVE YOUR JEEP. TO THE MAX.** With the unique Jeep Skills\* features, available on the Uconnect 6.5" Infotainment system, you can now monitor your driving performance with real-time feedback from your instrument panel and off-road driving intelligence. Live the real Jeep. experience, following the official trails, collecting special GPS badges and sharing your results online with the Jeep. community.

\*Included on cars built after 2nd June 2016. Please confirm with dealer at point of ordering if feature is required

The Jeep® Renegade also comes with a state-of-the-art class leading 7" (Limited and Trailhawk models) TFT display providing full-colour vehicle information in a totally customisable and intuitive way.

The driver can select from a multitude of information that can be displayed in the centre of the instrument cluster including turn-by-turn navigation, speed, real-time fuel economy, safety warnings (including Parallel/Perpendicular Park Assist and LaneSense®, Lane Departure Warning Plus where fitted), audio information and Jeep® - specific features including Selec-Terrain®.

# REINSPIRE YOUR PASSION

The Jeep® Renegade is equipped for almost anything you can throw at it. With best-in-class off road capability thanks to the Jeep Selec-Terrain® systems and unmatched on-road precision with the class leading 9-speed automatic transmission. The Jeep® Renegade is the first small SUV designed with you in mind and is at home everywhere you go.

The range of 8 Powertrain combinations available on the Jeep® Renegade will fit every requirement for efficiency and performance, in town or off-road. Traction systems are available in 2WD and 4WD and fuel efficiency is achieved by the category-exclusive rear axle disconnect system that seamlessly switches between two and four wheel drive only when 4X4 traction is needed.

FUEL	ENGINE	HP	TRACTION	TRANSMISSION	
PETROL	1.6 E-TorQ	110 HP	4X2	5 speed	MANUAL
	1.4 MultiAir II	140 HP	4X2	6 speed	MANUAL
	1.4 MultiAir II	140 HP	4X2	6 speed	DUAL CLUTCH AUTOMATIC
	1.4 MultiAir II	170 HP	4X4	9 speed	AUTOMATIC
DIESEL	1.6 MultiJet II	120 HP	4X2	6 speed	MANUAL
	2.0 MultiJet II	140 HP	4X4	6 speed	MANUAL
	2.0 MultiJet II	140 HP	4X4 Low	9 speed	AUTOMATIC
	2.0 MultiJet II	170 HP	4X4 Low	9 speed	AUTOMATIC

The Jeep® Renegade is the first in its segment to feature a nine-speed automatic transmission which enables the vehicle to optimise engine output and provides a more responsive driving experience with quicker acceleration and smoother shifting.

4x4 version

Approach Angle 21°

Breakover Angle 24°

Departure Angle 32°

Ground clearance 20 cm

The Jeep® Renegade provides a choice of two innovative 4X4 systems: Jeep® Active Drive (one-speed system available on Longitude or Limited); or Jeep® Active Drive Low (low-range, one-speed system available on 2.0 MultiJet II 140hp 4WD Automatic Limited and Trailhawk) both guaranteeing outstanding on-road traction and unmatched off-road capability.

Jeep® Active Drive is fully automatic and delivers seamless operation in and out of four-wheel drive, at any speed. This system requires no driver intervention, delivers yaw correction during dynamic events and improves both understeer and oversteer conditions.

Jeep® Active Drive Low builds on the Jeep® Active Drive system and affords a 20:1 crawl ratio for genuine 4x4 capability. This system in combination with the diesel 2.0-litre and nine-speed automatic gearbox ensures best-in-class off-road capability.

Jeep® Active Drive systems feature Selec-Terrain® which allows the driver to choose on and off-road settings for optimum performances on all road conditions, offering up to five modes; Auto, Snow, Sand, Mud, and exclusively to the Trailhawk version, the Rock mode, for even greater off-road capabilities to maximise wheel traction and improve grip.

**MUD:** Maximises low-speed traction by allowing additional wheel slip via specifically tuned chassis controls, differentials and transmission ratios that are geared to successfully tackle mud.

**SNOW:** Achieves impressive performance over snow and ice covered roads by maximising vehicle stability and minimising over-steer. Major systems automatically managed in this mode include antilock brakes and traction control.

**SAND:** The system converts to a uniquely calibrated Sand mode that utilises an aggressive throttle and up-shift points, to tackle looser, and covered surfaces.

**ROCK:** This available mode, exclusive to Trailhawk, delivers low-speed 4x4 capability thanks to its rear-differential locking element. This allows Renegade to command the world's most challenging terrain.

Jeep  
Renegade

# RE-EXPLORE YOUR INSTINCTS

The Jeep® Renegade is limitless, in town and off-road.

For those who demand more extreme capabilities, the Jeep® Renegade Trailhawk delivers best-in-class Trail Rated 4X4 performance.

The “Trail Rated” badge on the Trailhawk signifies that the vehicle is designed to perform in a variety of challenging off-road conditions, improving performance on five fundamental attributes: traction, ground clearance, manoeuvrability, articulation, and water fording.

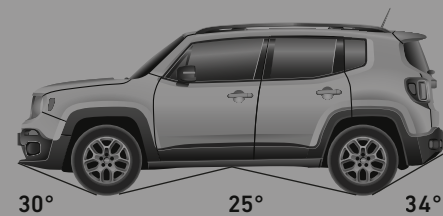

There is simply no terrain that the Jeep® Renegade Trailhawk won't rule.

The Renegade Trailhawk takes the unique Jeep® design and 4x4 capability to a new level. A Trail Rated exterior appearance with Neutral Grey Satin Gloss exterior accents, skid plates, meaty all-terrain tyres, red rear tow hook, and unique front and rear fascias to deliver best-in-class off-road angles (30 degree approach, 25 degree breakover and 34 degree departure angles).

However, it's not all about the looks. The Trailhawk combines the 9-speed automatic transmission with the 170hp of the 2.0 MultiJet II engine and takes Selec-Terrain® to the next level, with Rock mode capability.

Approach Angle 30°  
Breakover Angle 25°  
Departure Angle 34°

As soon as you get inside the Renegade Trailhawk, you'll see how different it is from any other model. Its interior is "Trailhawk" black leather, with Ruby Red stitching with matching anodised accents, topped with a unique Trailhawk signature. Furthermore, the mat located in the middle storage slot features an exclusive image of the Moab map.

# YOUR SAFETY IN MIND

The Jeep® Renegade puts safety and security above everything else, resulting in more than 60 available safety and security features, including Forward Collision Warning-Plus With Mitigation and LaneSense®, Lane Departure Warning-Plus, standard on Limited versions.

The Renegade punches above its weight with an impressive line up of safety features, these include automatic headlamps, Blind Spot Monitoring, next generation ESC, Hill-descent Control, ParkSense, ParkView rear backup camera, Rain-sensing wipers and many more. For further information on the comprehensive safety systems please see the following page.

**FORWARD COLLISION WARNING-PLUS, WITH MITIGATION.**

Radar and video sensors detect whether the Renegade is approaching another vehicle or large obstacle in its path too rapidly and will warn and / or assist the driver in avoiding/mitigating the incident. It uses 3 different steps.

- 1) Predictive Collision Warning. Provides audible and visible alerts as well as 'brake jerk' to warn about approaching an obstacle in your path.
- 2) Advanced Brake Assist: If you are reacting but not braking fast enough, ABA will increase the braking to avoid / mitigate the accident.
- 3) Collision Mitigation System: If you don't react the system will apply the brake system to avoid / mitigate the collision.

**REAR CAMERA WITH DYNAMIC LINES.**

The ParkView back-up camera provides enhanced visibility when reversing and accurately predicts the car's movement by using Dynamic Lines on screen.

**BLIND SPOT MONITORING AND REAR CROSS-PATH DETECTION.**

These sentry systems constantly monitor the space between you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors or an audible chime.

Both Rear camera and Blind spot monitoring are available within the Parking Pack.

**LANESENSE®, LANE DEPARTURE WARNING-PLUS (LDW).**

The vehicle lane position is monitored by cameras and, should you approach or cross the lane boundaries unintentionally, the system provides a visual warning. Additionally, in case of lane drift, the system proactively leverages the electronic power steering to deliver a torque input to assist you with a corrective action.

**SIX STANDARD AIR BAGS.**

Full-length side-curtain airbags, seat-mounted front side thorax airbags and advanced multistage front airbags all work in tandem to help provide complete protection.

**ELECTRONIC STABILITY CONTROL (ESC).**

Enhances your control and helps maintain directional stability under all conditions. If there is a discernible difference between your input through the steering wheel and the vehicle's path, ESC applies selective braking and accelerator input to guide the vehicle back on to your intended path.

**ELECTRONIC ROLL MITIGATION (ERM).**

As an extension of ESC, ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control.

**TRAILER SWAY CONTROL (TSC).**

Reduces trailer sway and improves handling in adverse towing conditions caused by crosswinds and traffic. The system monitors your vehicle's movement relative to your intended path, then applies alternating brake pressure to slow the vehicle and then increases the pressure on one front wheel in order to counteract the sway induced by the trailer.

# RETHINK UNLIMITED

Unleash your inner Renegade. From the four available models - Sport, Longitude, Limited and Trailhawk – you can choose the colour, the optional equipment and the Mopar accessories so that you can customise your Renegade to reflect your lifestyle.

Jeep®

Whether its climbing rugged hills or crossing a crowded city, stand out with Authentic Jeep. Accessories from Mopar®.

Made in tandem with the engineering teams that designed the vehicle, there are more than 110 exclusive Mopar accessories available. Created uniquely for the Renegade, its Mopar accessories perfectly reflect the cars design and functional characteristics.

Stylish accessories include a wide range of bonnet and body-side decal kits, glossy black front grille, side mirror covers and dedicated alloy wheels.

Practical accessories include a multi-functional carriage structure and a particularly strong steel 16" wheel designed for extreme off-road driving, along with a number of other items such as front skid plates, tubular side steps, bull styling bars, and roof light kits.

Ownership experience can be enhanced further with the Mopar Vehicle Protection extended warranty and maintenance packs. These provide comprehensive coverage for all mechanical and electrical components, a time and mileage option to suit and assistance from factory-trained technicians all across Europe. For more information, terms and conditions visit [www.mopar.eu](http://www.mopar.eu)
