

Intouch Advance's International Data Device

Low cost international
mobile broadband

Intouch Advance are pleased to launch the International Data Device, which is a mobile broadband plan that you can take with you to 70 countries, saving up to 80% on costs.

What is the International Data Device?

The International Data Device's unique service brings business travellers fast and secure internet access using their own personal, portable Wi-Fi hotspot or SIM only device. By paying one flat rate you benefit from absolutely no data roaming charges anywhere on the International Data Device's network.

Why International Data Device?

Intouch Advance's International Data Device allows you to keep on using the internet as if you were at home without the fear of high roaming charges while saving up to 80% on costs. The network currently covers 70 countries and continues to expand.

What does it cost?

Intouch Advance's International Data Device offers simply priced plans with contract lengths of either 12 or 24 months. You don't have to remember to top up and it costs only 25p per MB for out of plan usage. Please see tariffs below.

International Data Device

Key Features

- Fast and secure 3G+ internet access across our international network of 70 countries
- One flat rate across inclusive country tariffs
- Accessed via your own personal portable WiFi hot spot or SIM only device

	1GB	2GB	5GB
	International	International	International
12 Months	£49.00	£69.00	£149.00
24 Months	£39.00	£59.00	£125.00
Overage*	25p	25p	25p

*25p/MB Overage charge applies if the subscriber exceeds their data package.
The service will not work outside the inclusive countries, see coverage map for details.
