

**Joe**

**“I have been supported by Affinity Trust for a long time. It’s the best service.”**

Joe has been supported by Affinity Trust for over 9 years. We provide Joe with 24 hour support to enable him to live in his own home, maintain his tenancy agreement, manage his money and to get out and about to do the things he enjoys.

We listen to Joe to find out what he would like to do. We work closely with him and his care manager so that the support he receives from Affinity Trust promotes his independence in a way that is right for him.

Joe has rediscovered his love of cycling. He goes out on his bike with his support team every day. Because cycling is important to him, Joe has chosen support workers who are fit and can ride a bike.

Joe cycles into town to go shopping as well as riding his bike for fun. With support from his Affinity Trust team, he bought a new bike over the internet.

Joe says: “I like to ride my bike around the Isle of Mull. Me and my support worker take the boat over to the island.”

Joe has just moved house. He played an active role in finding a home that was right for him. His new home is in the perfect location because it is close to a cycle track.

**“My support team help me to do the things I would like to do.”**
