## Marine Pumps, Parts and Solutions

Here at Cougar Pumps we are experts in the specification and supply of pumps for the marine and offshore market. With a customer base including ferries, ship managers, marine re-sellers and ship owners we can provide for all aspects of the marine sector.

We have built our technical expertise for over three decades enabling us to specify the best pump for the required application. Providing pumps not just for sea water, but for fuel, lubricating oils and waste water, we **export globally**.

Supply of **Titanium pumps** to pump sea water for deck seals on **4 oil tankers** based in **South America**.
