

TRADITIONAL SIGN & FINGER POST COMPONENTS

The following pages illustrate some of the column and finial casting designs we've built up over the last 139 years.

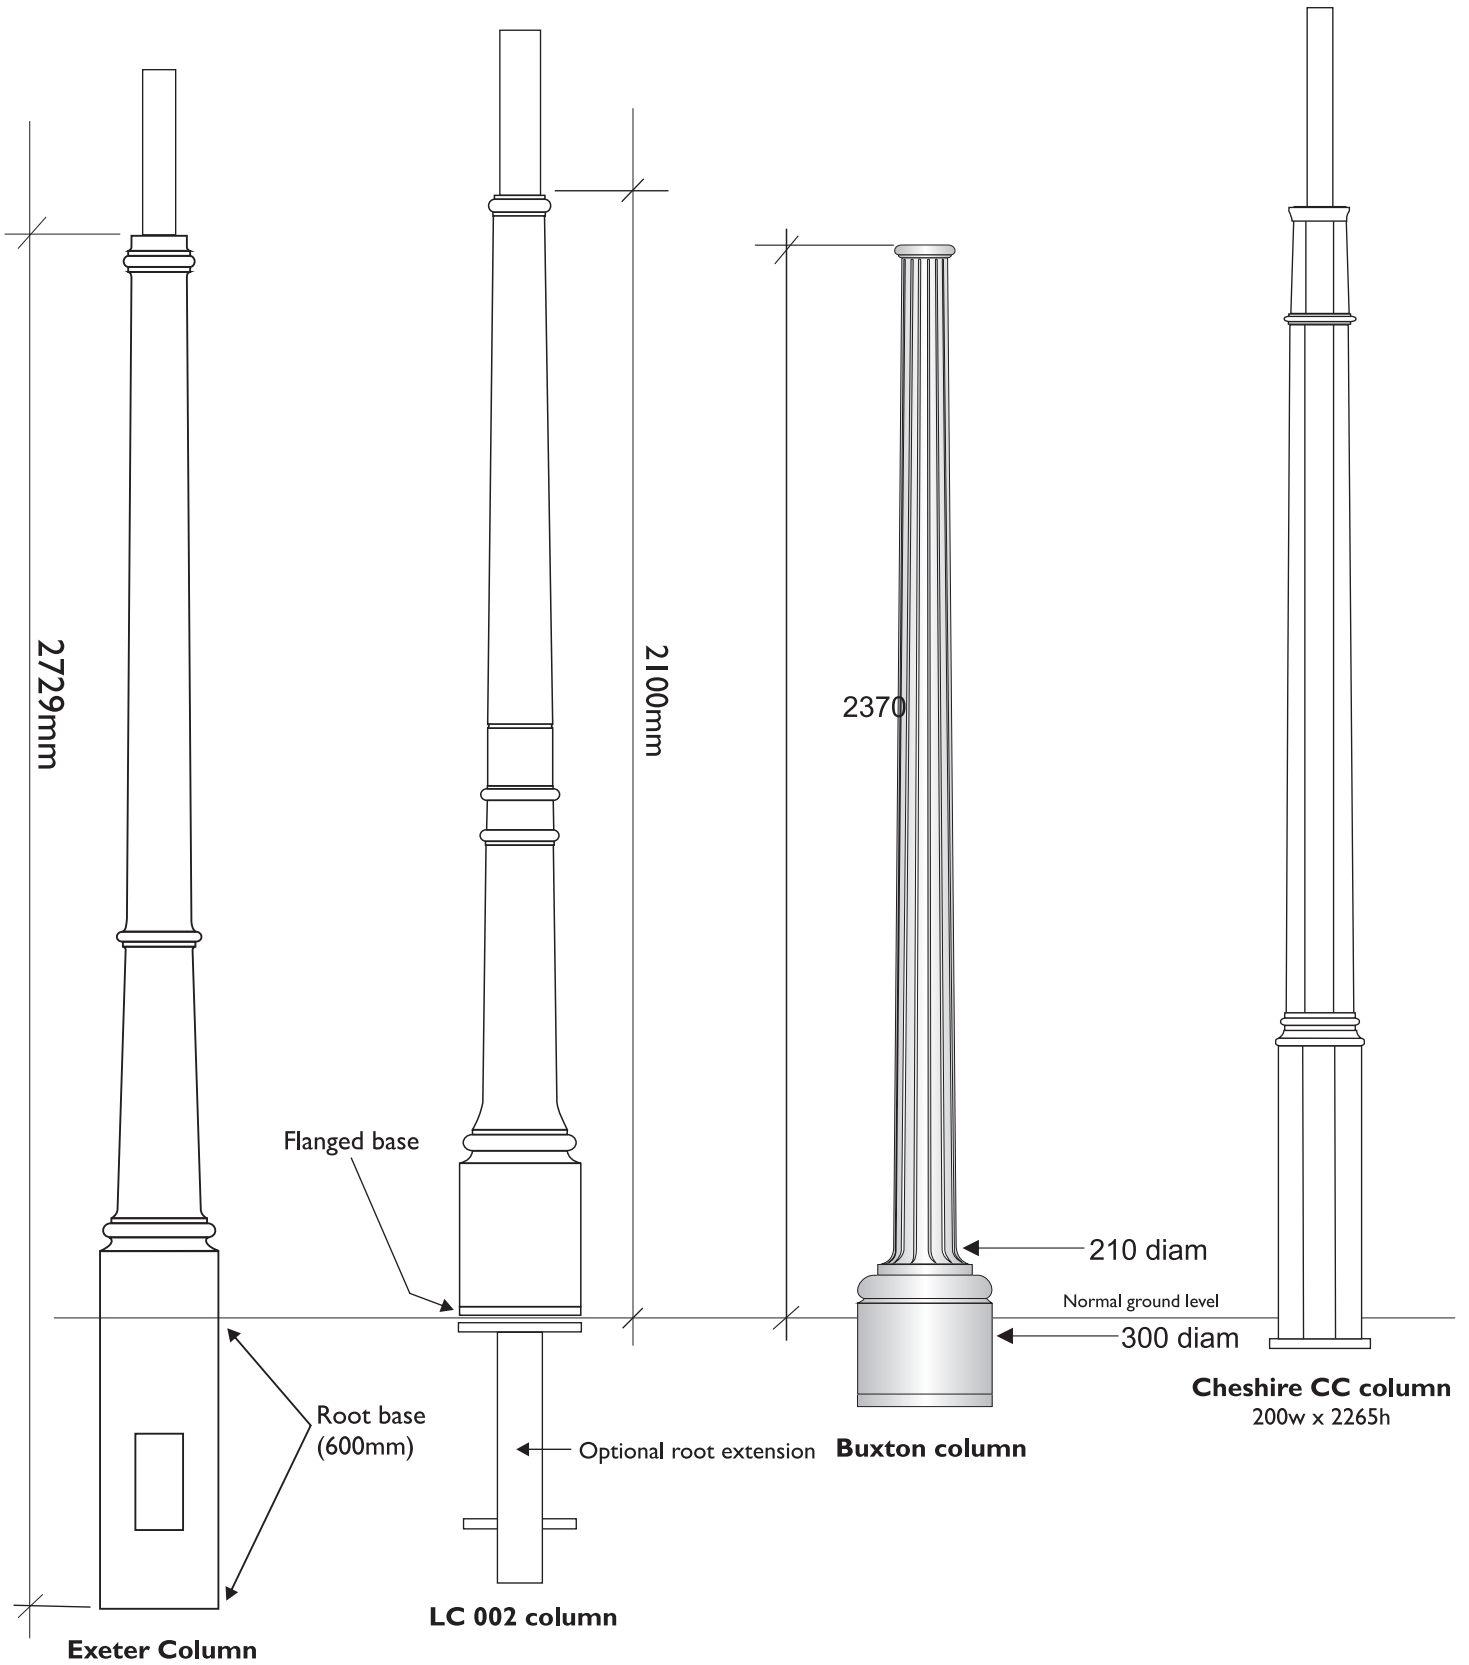

Also illustrated are some of the 80 patterns we have for signpost **fingers** to designs ranging from the 1920s to 2013. Please contact us if you are trying to match any existing cast finger, column or finial design - we may already have a pattern!

CAST FINGERPOSTS & SIGNPOSTS

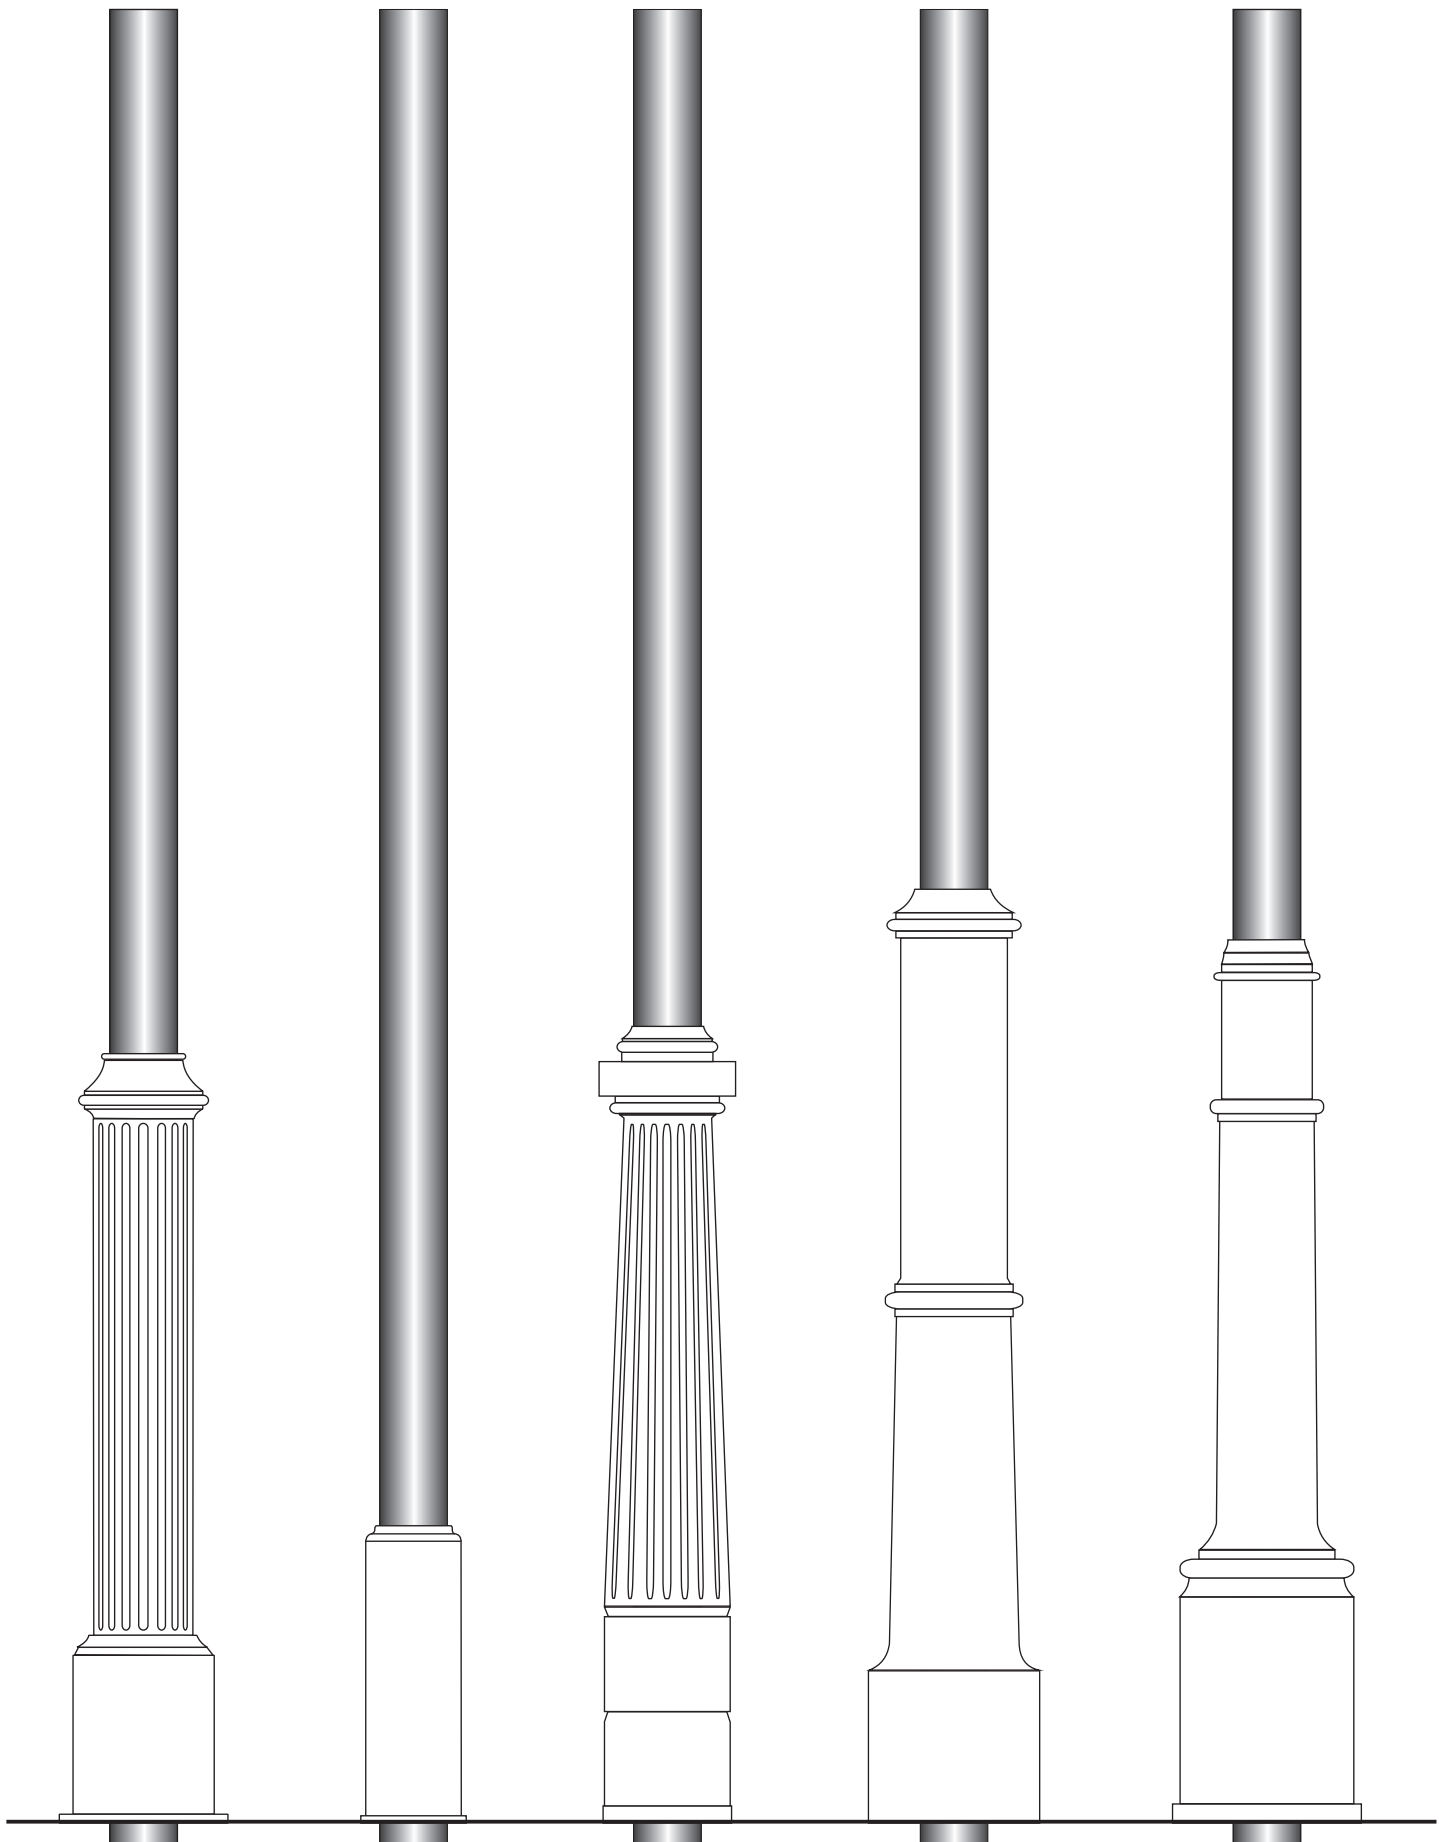

Leander Architectural - 139 years of quality and service

(1 to 15 scale)
