

# Hearing Protector ITC 4 Channel

Made specifically for shooting, sports and high impact noise situations. Exceptionally accurate and lightning fast, digital circuitry delivers unsurpassed amplification for situational awareness and appropriate noise attenuation where you pull the trigger.

Advanced DSP (Digital Signal Processing)

## Features Include

- Digital Compression and Signal Processing Circuit
- Volume Control
- Memory Switch
- Low battery Warning
- Low Current Consumption
- Telecoil Option

## Technical Data

		Program 1	Program 2	Program 3
<b>Peak OSPL90</b>		90dB	90dB	95dB
<b>OSPL90-HFA</b>		86dB	86dB	90dB
<b>Peak Gain</b>		15dB	10dB	5dB
<b>HFA/FOG</b>		10dB	7dB	2dB
<b>Frequency Range</b>	F1	500Hz	500Hz	500Hz
	F2	4000Hz	4000Hz	4000Hz
<b>Distortion</b>	@500Hz	3.0dB	3.0dB	3.0dB
	@800Hz	2.0dB	2.0dB	2.0dB
	@1600Hz	1.0dB	1.0dB	1.0dB
<b>EQ Input Noise</b>		45dB	45dB	45dB
<b>Battery Size</b>		312A		
<b>Battery Drain</b>		1.0mA		
<b>Coupling</b>		HA1-2CC Coupler		
<b>Attack Time</b>		5-15ms		
<b>Release Time</b>		50-80ms
