

P603 CoSHH Personal Protective Equipment (PPE)

PROFICIENCY MODULE

This BOHS Proficiency Course is ideally suited to LEV Engineers and other specialists who may have already completed the P601, P602 or equivalent module(s)

The Tutor on this highly inter-active course is **Bill Cassells**. Bill brings a fresh approach to Proficiency Module teaching and all delivered in his own lively, supportive and informal style!

LEV topic specialists, Health and Safety or Occupational Hygiene professionals, Managers, Supervisors and Building Services engineers can, by adding this qualification to the P601, P602 and P604 (or equivalent) Modules seek to gain further professional recognition by applying to BOHS to be considered for the award of Certificate of Competence (Control) which permits the use of post-nominal letters **CoC (Control)**.

Faculty of
Occupational
Hygiene

SUMMARY ELEMENTS

- CoSHH Hierarchy of Control
- Achieving Control—the Options
- Personal Protective Equipment (PPE)
- Respiratory Protective Equipment (RPE)
