Getting ready for school with Hatchlings - Where learning is fun!

At the Hatchlings we provide an all round nursery education for our children, getting them ready for their first steps into school.

Our curriculum follows The Early Years Foundation Stage (EYFS), which sets the standards of teaching and learning to ensure all children are ready for school. This gives them a range of knowledge and skills for a good foundation of education.

Sessions are balanced and creative within a learning atmosphere. Our children are encouraged; through discovery, to develop social and academic skills at their own pace.

The emphasis is always on play as they learn.

All full-time staff are fully qualified to level 3 or higher. In addition our staff have access to regular training courses including safe-guarding and first aid.

Founded in 1996 by Elizabeth and John Sudlow, The Hatchlings Nursery School is a family run business. Elizabeth is a qualified teacher and has many years experience educating young children. Our first school opened in January 1996 at Anstey Close with our second school following in May 2005 at Worting Road.

Please call in any time or make an appointment to view our lovely settings and meet our friendly staff.

Home visits are available.

We have lovely open spaces indoors and out for children to explore and learn in; catering for children in a warm, homely and friendly environment.

There is a wide range of activities available and many of them are child led.

We encourage healthy eating having two snack times a day with milk and fruit provided.

British Values are promoted alongside Equality and Diversity.

Complimentary settling in sessions are offered and we welcome families to special stay and play days, also arranging Christmas parties with a yearly visit from Santa.

Parents are welcome to call in at any time to see and talk about their children's work.

We use 'Tapestry', an online 'Learning Journal', which allows parents and carers to view and comment on their own child's progress. When they move on to their new setting or school this information is passed on.

As a registered Nursery School, we are delighted with our recent 'Outstanding and Good' gradings from OFSTED. Parents are welcome to read our current report in-house or online.

Nursery policies are available at both settings.

We are comprehensively insured through the Pre-School Learning Alliance.

Both nurseries take children from 2-5 years and accept all payments: Childcare Vouchers, Bank Transfers and the 15 / 30 hour Government Grants.
