

VERTICAL  
PLATFORM LIFT

# SIRIO

**extrōma**<sup>®</sup>  
solutions in motion

MAXIMUM TRAVEL  
19.5 METRES

"TAILOR-MADE" SYSTEM  
CONSTRUCTION

## VERSATILE, SAFE AND WITH LOW ENERGY CONSUMPTION, IT FITS PERFECTLY INTO EVERY TYPE OF CONTEXT

SIRIO is a vertical passenger platform lift, ideal for providing unrestricted access within homes built on more than one floor. SIRIO can be installed either on a supporting wall, by means of special wall-mounted supports, or using the "self-supporting" version, allowing the unit to be installed anywhere in the home. SIRIO's compact size makes it ideal for installation in particularly narrow stairwells. SIRIO is designed and built on a genuine "tailor-made" principle, exploiting every millimetre of space available. Comfortable and very quiet, SIRIO adds to your home's value and prestige. With maximum travel of 19.5 metres, SIRIO is able to serve up to 6 floors in absolute safety

and without interfering with the architecture of its installation area. SIRIO's electricity consumption is impressively low, similar to that of an ordinary household appliance. Special care is taken over details and finishing, which combine with the vast range of optional colours available to allow the lift to be personalised to the customer's specific taste and requirements. SIRIO can be installed on the inside or outside of buildings, and always offers the best service with any weather conditions. In the event of outdoor installation with direct access to the building, SIRIO can be equipped with special thermal barrier aluminium doors that ensure perfect draught-proof insulation.

<b>Maximum load capacity</b>	min 315 kg - max 500 kg (nominal load capacity 250 kg/m <sup>2</sup> )
<b>Maximum travel</b>	19,5 Mt
<b>Stops</b>	6 max
<b>Speed</b>	0,15 m/s max.
<b>Headroom</b>	2200 mm (wall shaft) 2350 mm (self-supporting shaft)
<b>Controls</b>	Automatic at floors/Run to hold in cabin
<b>Power supply</b>	230V - 50 Hz
<b>Electrical consumption</b>	1,5/1,8 kW
<b>Pit</b>	120 mm min
<b>Installation</b>	indoor/outdoor

# CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

The aim is to create “total quality” in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.
