PRESS RELEASE
FOR IMMEDIATE RELEASE

ACOUSTIC GUITAR HARNESS™

*Add security and comfort to your classical or acoustic guitar with NEOTECH's **ACOUSTIC GUITAR HARNESS™***

NEOTECH introduces a one-of-a-kind harness design for both acoustic and classical guitars. The revolutionary **ACOUSTIC GUITAR HARNESS™** combines a dual-hook design with NEOTECH's patented internal control-stretch system to offer a comfortable, secure strap that maximizes freedom of movement. The weight of the instrument is removed from the neck and dispersed evenly across the back and shoulders. The custom non-marring plastic hooks are felt-lined and designed specifically for the acoustic and classical guitar. Protective covers fit over adjustment hardware to avoid direct contact with the guitar. The harness adjustment system freely glides through the hardware located in the back to increase mobility without sacrificing comfort. The versatile strap design enables the player to connect the top hook from either the left or right shoulder with a strong side release buckle. This added security gives musicians increased freedom of movement so that they are free to concentrate on the music and their playing technique. There's no other harness like it!

The **ACOUSTIC GUITAR HARNESS™** is fully adjustable in both regular and X-Long. It's available in black and proudly made 100% in the USA.

Neotech continues to innovate quality products to meet the ever-changing needs of the avid musician. We proudly make our products in the USA using top-quality materials as we feel you deserve the very best!
