

Case Study :(enter name of technology)

Capacity	<i>(Please mention designed and actual)</i>	Area of installation (Sq. Ft.)	
Inlet	<i>(Such as Excreta + Flush water + Urine + Anal cleansing Water)</i>	Outlet	<i>Such as Methane and golden coloured water</i>
Year of Installation		Capital investment (INR)	
Scale of service	<i>(No. of people/settlement size)</i>	Treatment time	<i>Not known (designed & actual)</i>
C.O.D.		B.O.D.	

Location of the technology:

Please provide a google coordinates

Need for technology

Please provide a brief write up

System description

Please provide points describing the system

Operation and maintenance:

Electricity Consumed (In units)	
Maintenance of the installation	<i>Please provide points describing the system</i>
O&M cost (INR)	

Technology provider perspective:

Please provide points describing the system

Social Aspect

Perspective towards the technology/plant: Positive

Pros	Cons
<i>Please provide points describing the system</i>	<i>Please provide points describing the system</i>
