MURATA MACHINERY USA, INC.

Turning Centers for the Medical Industry

Muratec Machinery's multi-axis, multi-function MT machines, gantry automation and barfeed options deliver the ultimate in medical manufacturing flexibility. Our extremely reliable machine tools are capable of incredibly precise tolerances and every machine we produce incorporates advanced, flexible automation that gives you the freedom to change over to a variety of capabilities for a wide range of jobs. This advanced level of flexible Murata Automation easily handles raw parts from bar, sawn blanks, forgings or castings and can also be used in manual mode to turn one- or two-piece jobs.

MT Series MT12, MT20, MT25, MT200

Muratec's MT Series of twin-opposing spindle CNC turning centers is designed for intensive live tool application work with a compact, space-saving design. The MT machine series is also engineered for high profitability and productivity that provides better cost performance.

Reliability by Design

Accuracy and Custom Automation for the Medical Industry

Murata Machinery USA customizes each machine with post-process gages, infeed and outfeed systems, shuttle, transfers and orientation stations that are ideal for the precision turning demanded by the medical industry.

Murata's Gaging and Automation Systems Group will vertically integrate your new or used systems with gages engineered, constructed and tested locally at Murata's Charlotte, NC, facility, with software developed by Murata. This turnkey integration ensures accuracy of close tolerances with no loss in production and full feedback for offline collection while maximizing your savings. Gages are also available in your choice of gantry-mounted, floor-mounted, or dual-station floor-mounted post-process configurations, all offering combination feature measurements, offset feedback, optional data collection, and gantry loading and unloading capabilities.

Located in Charlotte, NC, Murata Machinery USA, Inc. is a subsidiary of Murata Machinery Ltd. of Kyoto, Japan. With *Reliability By Design* built into every machine, Murata produces durable turning machines engineered and constructed using the legendary Warner Swasey platform.
