AUDIO/VIDEO - BROADCAST HOME TECHNOLOGY - PRO AUDIO

Stratos **Connectivity Solutions**

Trompeter **Connectivity Solutions**

Maser Group History

Established in 1983, the Maser Group has grown into a multinational company with offices in Australia, New Zealand and the United Kingdom. The Maser Group is a diversified distributor of specialised communications solutions, products and systems to a large number of market segments including Broadcast, AV, Home Technology, Fixed Networks, HFC Networks, Industrial, Mobile/Wireless Networks, Public Security & Safety and Defence.

With a growing team, the Maser Group is positioned to offer specialist skills to support its clients including pre and post sales technical support, training, warehousing and distribution. The Group has offices/distribution centres in Fareham, Auckland, Christchurch, Melbourne and Sydney.

Maser excels in its ability to source and supply the most advanced and cost effective products and systems from key manufacturers worldwide. Our suppliers are carefully selected to ensure access to the latest technology in equipment and systems.

The Maser Group has a strong commitment to customer relations. Our aim is to provide you with the very best possible solutions, the finest products and the highest level of service.

Buy your cable 24/7 with our new ecommerce site <u>WWW.MASER-ONLINE.CO.UK</u>

Masercable is a high quality range of products developed in conjunction with our customers and offers quality and performance at a competitive price. Cable is supplied on either reels or cartons. We also offer products sourced from a number of quality manufacturers.

With a large stockholding in our south coast warehouse, Maser can supply all of your Cable & Connectivity requirements in a timely fashion.

Our sales team have extensive knowledge and expertise in the industries we serve, offering a friendly proactive service for our customers throughout the UK and Ireland. This catalogue represents a small sample of the products we offer. Please contact us to fulfil any cable or connectivity requirements you may have.

Maser Communications (UK) Ltd is the Belden Preferred Distribution Partner for Audio, Video and Broadcast products in the UK and Ireland.

To ensure complete signal integrity connectivity, Maser is also the UK Distributor for Trompeter who offer a full range of high performance connectivity and patching to suit all of your HD application requirements

Maser also offer Alpha Wire, Draka and Kathrein products.

We are pleased to announce we are now the Official UK Distributor for DK Technologies who specialise in audio, video metering and monitoring.

Freight & Payment Information

We offer a next working day delivery to UK mainland as standard. Timed services are also available on request. Credit account available on application. Terms & Conditions available on request. Payment accepted by BACS, Cheque or Credit/Debit Card.

Pictures are for illustrative purposes only. We reserve the right to change our products without notice.

1080P HDTV BRILLIANCE COAX 4.5GHZ-3Gb/s 4K RATED

179DT	 Very small & lightweight HD Coaxial for increased performance Available in 10 colours OD 2.9mm, PVC Jacket Option Supplied on 305m reels HD Transmission Distance – 40m
BELDEN 1855A	 Small and lightweight HD Coaxial For when you are running out of space, need to save weight and require flexibility Available in 10 colours OD 4mm, PVC Jacket Supplied on 305m reels HD Transmission Distance – 80m
1855ENH	 The HD Standard Coax - LSOH Jacket. Quality with exceptional tolerances reel after reel Available in 7 colours OD 4.5mm Supplied on 500m reels HD Transmission Distance - 100m
BELDEN 1505A	 HD Precision for Increased Performance Available in 10 colours OD 5.92mm PVC jacket Supplied on 305m reels HD Transmission Distance – 120m
1505ANH	 Precision for Higher Performance – LSOH Jacket Available in 7 colours OD 5.92mm Supplied on 500m reels HD Transmission Distance – 120m
BELDEN 1505F	 Amazing Flexibility in a Stranded Double Braid Mobile Construction Available in 5 colours OD 6.15mm PVC jacket Supplied on 305m reels HD Transmission Distance – 90m

1080P HDTV BRILLIANCE COAX 4.5GHZ-3Gb/s 4K RATED

BELDEN 1694A	Classic performance - still the best • Available in 10 colours • OD 6.99mm PVC jacket • Supplied on 305m reels • HD Transmission Distance – 140m
1094A	 HD Transmission Distance – 140m
BELDEN 1694ANH	Classic performance - still the best with LSOH jacket • Available in 5 colours • OD 6.99mm • Supplied on 500m reels • HD Transmission Distance – 140m
	Flexible double braided stranded
BELDEN 1694F	 Available in 5 colours OD 7.01mm PVC jacket Supplied on 305m reels HD Transmission Distance – 110m
	Need more than 1694A then check out 1794A
BELDEN 1794A	 Available in 10 colours. OD 8.13mm PVC jacket Supplied on 305m reels HD Transmission Distance – 200m
	Super low loss HDTV COAX – the ultimate for long runs
BELDEN Image: Constraint of the second	 Available in 10 colours OD 10.16mm PVC jacket Supplied on 305m reels HD Transmission Distance – 230m
BELDEN 7731ANH	Super low loss HDTV COAX with LSOH – the ultimate for long runs • Available in 5 colours • OD 10.16mm • Supplied on 305m reels • HD Transmission Distance – 230m

DUOBOND® II HD 3GB DIGITAL VIDEO COAX

BELDEN

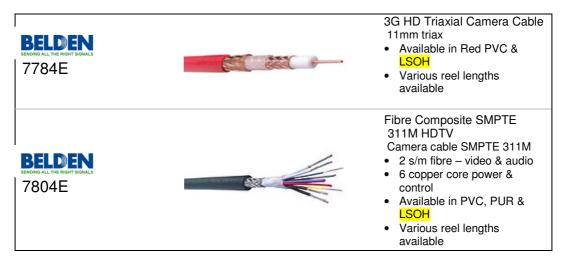

DUOBOND® II SERIES

Belden launches Duobond® II HD digital video cables for the reliable transmission of HD digital video signals in broadcast systems at data rates of 3GB/s. All supplied on 500m reels.

SATELLITE FEEDER COAX CABLE

9116E	RG6 CATV/SAT – CCA Centre Conductor • Available in Black and White • PVC jacket • Supplied on 305m reels • OD 6.99mm
MT.6059	 RG59/U Standard RG59 Coax Black PVC Supplied on 100m reels
MF.125.5	 CATV Coax 5 Core Black 5 Way with Earth Foam dielectric version of the classic CT125 Supplied on 100m reels
MF125.100	 CATV Coax Black Foam dielectric version of the classic CT125 Supplied on 100m reels
MF100-LSF	 Maser CATV Coax Black LSF jacket Supplied on 250m reels
MF100.250	 CATV Coax Black Foam dielectric version of the classic CT100 Also available in White Supplied on 250m reels
MF.100T-125	 CATV Twin Shotgun Foam dielectric Supplied on 125m reels

PROFESSIONAL AUDIO & CONTROL CABLES

BELDEN 1508ENH	 Small analogue audio pair with overall foil shield Grey LSOH jacket Supplied on 500m reels
BELDEN 1508A	 Small flexible analogue balanced audio pair with overall foil shield Black PVC jacket Supplied on 305m reels
BELDEN 70030	 Analogue balanced pair with overall foil shield Grey LSOH Jacket Multicore versions available Supplied on 500m reels
BELDDEN 70051 Series 70052 - 2 Pair 70053 - 4 Pair 70054 - 8 Pair 70055 - 12 Pair 70056 - 16 Pair	 AES/EBU balanced pair with overall foil shield Purple LSOH jacket Multicore versions available Supplied on 500m reels
9451D	 Analogue Shotgun balanced Grey/red PVC jacket Overall foil screen p/pair Supplied in 305m box
AlphaWire Categories to the Server of dense. A.2466C	Every wireman should have a reel of this audio/RS232 cable • 2 pair 22 AWG individual foil shield • Grey PVC • Supplied on 153/305m reels

PROFESSIONAL SPEAKER & MICROPHONE CABLE

BELDEN BE46380	 Massive 4mm of High purity copper for audio purists 2 x 4.0mm conductors Mobile/fixed installations Black jacket Supplied on 100m reels
MASER MASER PS.OF2/2.5-100	 MASERCABLE <i>ProSpeaker</i> 2x2.5mm of high purity OFC copper in a tough but flexible black PVC jacket Supplied on 100m reels
PS.OFC4-100	 MASERCABLE <i>ProSpeaker</i> 4x16 AWG of high purity OFC copper in a tough but flexible green PVC jacket Supplied on 100m reels
BELDEN 70047	 4x2.5mm Halogen Free FRNC Black jacket Supplied on 500m reels
PS-OFC2/NH-250	 MASERCABLE <i>ProPink</i> 2x16 AWG of high purity OFC copper Pink LSOH jacket Supplied on 250m reels
PS-OFC4/NH-250	 MASERCABLE <i>ProSpeaker</i> 4x16 AWG of high purity OFC copper Pink LSOH jacket Supplied on 250m reels
BELDEN MIC/STARQUAD	 Super Flex Microphone Cable OFC with overall braid PVC jacket Supplied on 500m reels Various options available – please contact Maser for details

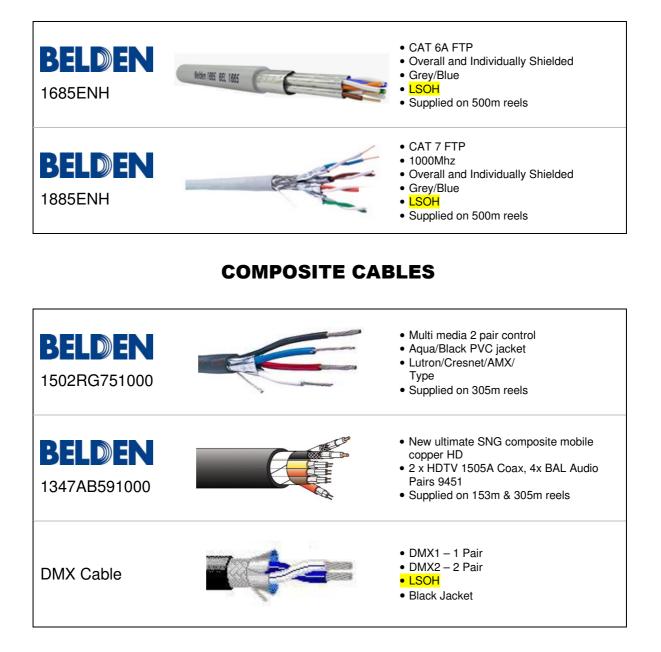

DATA CABLES

BELD EN 1583E	 CAT5E UTP PVC/LSOH Solid conductor Available in 10 colours Supplied in 305m box
Draka C5EF-GY	 CAT5E FTP PVC grey jacket Solid conductor Overall foil shield Supplied in 305m box
Draka CAT5E FTP PATCH	 CAT5E FTP Patch Stranded Conductor Foil shield PVC Grey jacket Supplied in 305m box
BELD EN 1305A	 CAT5E Mobile CATSNAKE Upjacketed, PVC Black Ethersound approved Supplied on 305m reels
BELDEN 1303E	 CAT6A Mobile CATSNAKE CAT6A S/FTP Supplied on 305m reels
BELD EN 7965E	 CAT6 UTP PVC/LSOH Blue/Grey Supplied on 305m reel
BELDEN 7860NBH	 CAT6 FTP Overall foil shield LSOH Grey, Blue or Violet Supplied on 305m reels

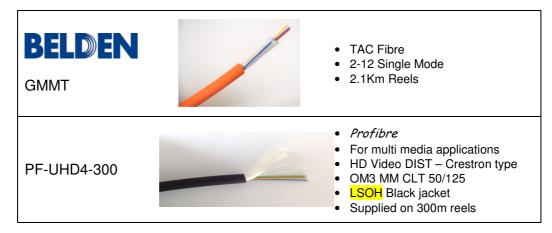

DATA CABLES

FIBRE CABLES

FIBRE OPTIC

Loose Tube Cables

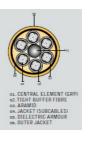

In loose tube cables, the coated fibre "floats" within a rugged, abrasion resistant, oversized tube which is filled with optical gel. Since the tube does not have direct contact with the fibre, any cable material expansion or contraction will not cause stress on the fibre. Much of the external stress placed on the tube also will not be transferred to the fibre. The non-hygroscopic gel prevents water from entering the tube. The loose tube cables are proven the best solution for harsh environment conditions in the outdoors.

Central Loose Tube Cables

The Central Loose tube designs are the economical option for low fibre counts (up to 24 fibres). The cable design offers a smaller overall dimension and ensures a more efficient use of conduit space than typical loose tube. The central tube minimizes the amount of labour and material required to install the cable.

Buffered Fibre Cables

This group of products is characterized by buffered fibres. A thermoplastic material is extruded directly over the acrylate coating, increasing the outside diameter of the fibre to 900 micron (0.9 mm), an industry standard. The tight buffer supplies the fibre with added mechanical and environmental protection, increased size for easy handling and a simple means of adding colour coding for fibre identification. During connectorization, the buffer is stripped back to an exact length as required by the connector manufacturer. The cables are available for indoor and indoor/outdoor (universal) applications.

STRATOS EXPANDED BEAM CONNECTORS AND ASSEMBLIES

Stratos Connectivity Solutions HMA and HxMA	1B	 2 & 4 channels, mm or sm Rugged hermaphroditic construction Compatible with MIL-DTL-83526/20A/21A & mixedmode

STRATOS EXPANDED BEAM CONNECTORS AND ASSEMBLIES

Stratos Connectivity Solutions Hx1080		 SMPTE compatible – 2 optical & 2 electrical Rugged hermaphroditic construction Field serviceable – easy to clean
Stratos Connectivity Solutions HTC	6	 1 to 4 channels, multimode MIL-C-38999 Series III shell size 13 with shell 11 option Backshell options:
Stratos Connectivity Solutions Bullet Adaptors		 Eliminates hybrid jumper cables HMA to TFOCA HMA to TFOCA-11® TFOCA to ST, SC, LC, FC
Stratos Connectivity Solutions Loopback	le Contraction of the second sec	 Facilitates burn-in and system testing Singlemode and multimode 2 and 4 channel Rugged hermaphroditic
Stratos Connectivity Solutions Cable Reel		 Military, Industrial and AV reels Various sizes to accommodate a specified length
Stratos Connectivity Solutions Ruggedized In-Line Splice	N. B. B.	 2 and 4 channels, mm and sm LC connector polish configuration Field termination in 30 minutes

MASER CABLE HDMI PATCH LEADS

HDTV 3Gb/s – 4.5GHZ VIDEO WECO PATCH PANELS

HDVDP/HDVDPM SERIES WECO PATCH PANELS

Key Features:

Trompeter's new HDVDP and HDVDPM Patch Jacks are designed and engineered to exceed SMPTE 292M specifications for high definition video transmission and connectivity. The normal-thru contact interface design of HDVDP/HDVDPM consists of a self-aligning normal-thru U-slot, two redundant points of contact, an independent applied normal force at each contact point and a mechanical wipe region at each contact interface location. These design attributes provide reliable and repeatable patching/un-patching, resulting in low-level contact resistance stability.

HDVDPT Full-size WECo format, terminated HDVDP Full-size WECo format, non-terminated HDVDPMT mini WECo format, terminated HDVDPM mini WECo format, non-terminated

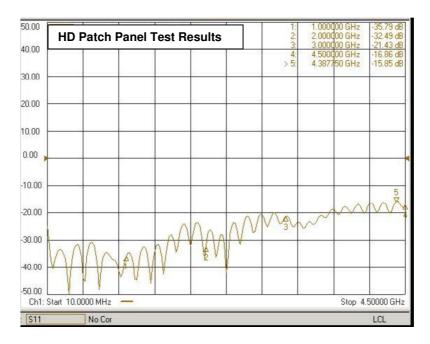

See page 16 for Test Data.

UPL2000 SERIES – 4.5GHZ HD 3Gb/s BNC CONNECTIVITY

TROMPETER

The Trompeter UPL2000 is a classically robust, high frequency, true 75 ohm BNC connector that is designed to handle high bit-rate digital video signal transmissions in conjunction with the low loss coaxial cables used in broadcast applications.

Trompeter design engineers understand the unique problems associated with the combination of high data rate digital traffic and high frequency transmissions. The unique design of the UPL2000 allows for an impedance matched transition through the connector, taking advantage of the electromagnetic effects that are so unique to high frequency transmission lines. The signal is contained within the inside surface of the outer shield through the connector in much the same way that the braid of the coax cable contains the electromagnetic energy of the signal within the cable dielectric itself. This effect is more pronounced as transmission frequency rises, as is the case with DTV and HDTV.

Please see page 23 for HD Cross Reference and Page 16 for Test Data.

HD TV BRILLIANCE 3GB BNC CONNECTORS

Belden HD Brilliance Connectors exceed SMPTE return loss standards, providing excellent headroom and true 75 ohm performance for those instances when Broadcasters need to push the limits. Durability is excellent, with brass construction and patented compression rings ensuring pullout forces exceeding 445 N, depending on the cable. Experts can choose from three Belden HD Brilliance Connector platforms to find the right solution for their broadcast needs.

DK TECHNOLOGIES

MSD600M++ AUDIO METER

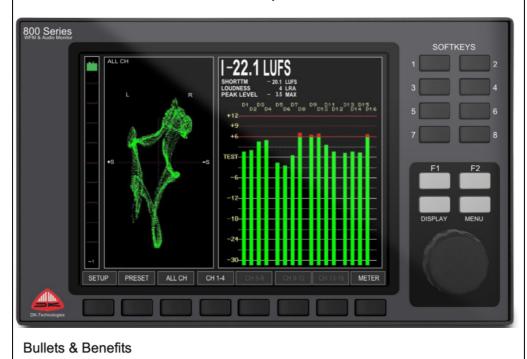

AUDIO AND WAVEFORM MONITOR

The PT0800 introduces a unique combination of Audio, Loudness and Waveform monitoring at the highest precision, allowing it to blend into virtually any metering applications.

With its modular hardware approach and highly customised user interface, the PT0800 is one of the most versatile Waveform Monitors/Audio and Loudness Meters on the market today.

- High Bright TFT 6.8"
- 8 User Preset Keys, customizable
- 8 User Soft keys, complete customization
- Modular I/O: SDI, AES, Dolby E etc.
- Up to 64 Audio Inputs/16 outputs
- Full Audio Metering inc. stereo, 5.1 & multiple channels
- Loudness Logging, compliant with all major broadcast standards
- User definable Gamut error settings
- G, R, B, Y, Cb, Cr & Luminance display

- A/B Overlay & A/B Parade display
- Up to 2 or 4 Auto sensing SDI inputs
- Up to 4 Waveforms on single screen
- 2 or 4 Channel Waveform Monitor
- Num. display of user selectable timebase
- Universal 1/2 rack, 3RU or Desktop
- Picture preview
- Up to 4 SDI video inputs , 1 SDI output
- Self-sensing genlock input, Blackburst / Trilevel

DK T7

DK T7 – Compliant Audio, Loudness & Logging System

Hit your Audio and Loudness sweet-spot with outstanding precision, instant overview and detailed reporting

We are proud to present our feature packed and high precision 7" Multi touch Audio, Loudness & Logging Metering system.

The DK T7 marks another high point in Audio & Loudness Metering. Complete with all our well-known high precision metering tools as well as 3G SDI, 8 ch. AES I/O, Headphone out and more – all included from the get-go – the DK T7 has you covered for any possible application.

BENEFITS

- Bargraphs or Moving Coil Your choice of metering tool
- JellyFish[™] & StarFish[™] Channel Interrelation View
- Loudness and True Peak Logging Document & Report
- Clear Loudness metering & readout Loudness conformity
- Real time True Peak PPM No hidden 'overs'
- Compliant with major loudness standards Hit your target
- \bullet FFT Analysis See and secure your audio from any angle
- SDI 3G I/O, AES3 8ch. I/O, Analogue 2ch. In Covered!
- \bullet Flexible and User definable setup Personalize to your wish
- SMPTE Reader Readout and Log against Time code
- HDMI screen and Audio output Monitor your Meter
- Headphone Output Listen in
- USB and Ethernet Control Log and Report
- Multi Touch screen User interface
