Throughout the challenge teams will compete in a series of head to head tasks, which build on communication and logic and include a riveting pit stop challenge.

Together We Can

The ultimate in collective team building, Together We Can is ideal for groups wishing to focus on communication and collaborative success.

Having been split into sub-groups, guests will be presented with a number of challenges and tasks which each team must contribute to the completion of.

Each group starts on a different challenge and must decide the concept, direction and theme of the task before moving on to work on the next station.

Ideal for building and strengthening company relationships, Together We can requires team work, communication and co-operation throughout and sees teams unite in success with the unveiling of their completed tasks.

Participants must work together to formulate their business idea, get to grips with the money side, create a marketing plan (or even make an advert using elements of our iPad Movie Making event), and develop their pitch.

Plan in hand they must then face the dragons in the den – but only the best teams will be rewarded with the 'cash' to get their idea off the ground.

At the start of the event each team will be presented with a box containing a variety of mysterious activities that they must successfully work through in order to gain as many points as possible.

While some of the tasks will appear straight forward, with the pressure of the clock it's never as easy as it seems. Teams will have to work strategically and communicate effectively to make sure they complete each challenge successfully, all under the watchful eye of an adjudicator.

Win or lose, by the end of the activity each team will have learnt how to work together more effectively and have lasting hilarious memories from this frantic, fast paced event.

The Bigger Picture

This classic and effective team building event sees guests working together to create art on a massive scale.

Your group will be split into small teams and tasked with creating different sections of a replica masterpiece. Harder than it sounds, you'll soon realise, with the help of your experienced facilitator, that communication and focus on the 'bigger picture' is key.

Individual success isn't possible without the support of the team. A fantastic event for getting your hands dirty and being creative, The Bigger Picture provides a tangible end product which can be taken away to hang proudly on the office wall for years to come.

Traditionally a war dance for Maori people of New Zealand, the Haka has more recently become known as the famous ritual of the All Blacks rugby team before a game. During a Haka session, guests will be shown how this powerful dance is done the Maori way.

Large groups will be split into teams and taken into separate areas to learn the dance and words to the Haka. Once guests master this art, and dress up in the traditional costume with their 'moko' applied, the group will reunite to perform the Haka as one united group making a truly spectacular display.

The Haka

Fantastic to energise and engage guests, the Haka works brilliantly as an Ice Breaker or breakout session to a meeting or conference.

A hugely motivational and interactive team building event, Drumming Workshop can be run as a part of a meeting or conference or as an activity in itself.

Over the course of the event the experienced facilitators will have your group playing cohesively together and layering different rhythms one on top of the other – reacting and communicating as a unit.

With guidance from the experienced Drum Master, participants will learn how different rhythms come together to create one sound, in the same way that individuals and teams come together to form a company.

Drumming Workshop can also be tailored to your organisation with company themes cleverly threaded through the rhythms played.

Armed with a set of decks, mixers and headphones, each group will have the opportunity to try mixing for themselves, get some hands on experience and really test the group collaboration.

Under the careful eye of our DJ, the guests will be tasked with creating their own mix, and will even have the opportunity to take the recorded mix home. This modern and innovative event is a great alternative to a traditional team building activity.

Chocolate Making

The perfect event for the chocolate lover inside us all!

With the help of our professional chocolatier, participants will be schooled in the art of creating delicious artisan chocolates. Armed with their new found knowledge, teams will be challenged to design, make and market their own ranges.

Our experienced chocolatier will demonstrate some of the key techniques involved in the art of chocolate making, including chocolate tempering.

In true 'Master Chef' style, teams are provided with a variety of ingredients and, under the watchful eye of our head chef, must devise, design and deliver a selection of canapés. Cooking ability aside, creativity, careful planning, attention to detail and the ability to remain calm under pressure are a must for this tasty team trial!

With a selection of ingredients at hand, teams will be asked to create a range of luxury style canapés from blinis to risotto balls. Presentation will be scrutinised and guests will be shown some classic tricks of the trade including the use of mirrors, granite and slates.

Ideal as a pre-dinner experience, guests will sample a variety of wines from around the globe and learn to appreciate what makes each unique and how to recognise it in a blind taste test. Suitable for those with a little or a lot of wine knowledge, our experts come with a wealth of experience guaranteeing that all of your guests will leave with a better understanding and appreciation of wine.

Functional Fortunes

A spin off from the classic game show, Functional Fortunes is a fast, furious & fabulously funny evening entertainment event.

Reinventing and relishing the iconic elements of both the classic and modern game shows of a similar name, your group will first be split into their Functional Families or 'teams'. The next challenge is to beat the buzzers in a series of rounds and head to head questions against the competing families.

With a larger than life host, authentic questions, interactive buzzers, and our survey boards which feature the all-important classic yellow crosses this event always goes down a storm. Functional Fortunes works well during dinner with each round falling in between courses, or as a stand-alone evening event.

With just one evening to solve the murder, guests will need to use their powers of deduction to unmask the culprit.

Ideally complimented by a meal at your chosen venue, our Detective will be the Senior Investigating Officer but he will need the assistance of guests to help solve the crime.

As the drama unfolds, throughout the evening further evidence will be unveiled, hints dropped and instructions given. It is then up to the guests to retrieve information from their fellow guests – asking the right question to the right person can be the key to success, but beware of being deceived!

An intense blend of intrigue and action – perfect for team building, corporate entertainment or just a bit of fun!
