

Topside Product Range

We are Patriot International, a dominant force in the field of specialist maintenance and construction equipment for the Oil & Energy industry.

Our products and services are designed to meet the needs of businesses - from the subsea industry to renewables, nuclear to mining.

With the supply of equipment for rental and sale, a reliable delivery service, production support, manpower services, and ECITB approved training courses; Patriot offers a range of service solutions to make your operations run more efficiently.

Make life easier; use Patriot International's products and services as a complete package to complete the task and turn problems into solutions.

“We possess a Can-Do attitude and strive to go that extra mile for our clients. We turn problems into solutions.”

Logistics

We take pride in providing a complete service to our clients, even to the point of delivering equipment directly to your specific destination.

The perks of Patriot's own transport service:

- Better prices than regular couriers
- More efficient, as no courier waiting time at collection point
- Patriot takes insurance responsibility to point of delivery
- One telephone call to arrange specialist equipment and transport
- Raises one purchase order to cover the equipment and transport
- Available 24 hours a day, 7 days a week

Training & Manpower

Our training courses are geared towards providing clients with skills that will enable them to improve efficiency in the application of specialist pipework construction and maintenance services. The courses can be tailored to suit your specific technical and financial requirements.

Patriot International has a comprehensive database full of specialist technicians and workers of all levels. Whatever your needs require, we can provide and mobilise manpower at short notice.

Training Courses:

- 2 day Controlled Bolt Tightening
- 5 day Introduction to In-Situ Machining – Pipe Cutting and Beveling
- 2 day Flange Facing
- 2 day Milling, Drilling, Boring
- 2 day Heat Treatment

Controlled Bolt Tightening

- Topside Tensioners
- Torque Wrench
- Nut Splitter
- Flange Spreader
- Ultrasonic
- Consumables

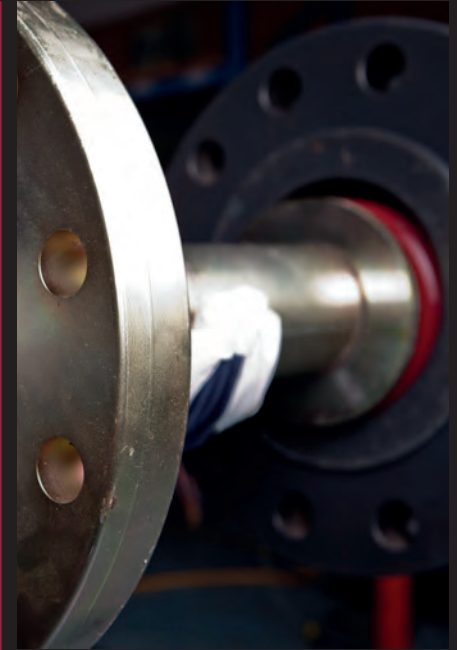

Whether Torque or Tension, Patriot can offer a complete range of Bolt Tightening and specialist ancillary equipment to handle all eventualities.

In-situ Machining

- Pipe Cutting / Bevelling
- Flange Facing
- Line Boring
- Milling and Drilling
- Heat Exchange Repair
- Consumables

Be it Pipe Cutting, Flange Facing, Milling, Drilling or Boring, the range of portable machines can be mobilised to the location at minimal notice.

Pressure Testing

- Grip Tight
- Flange Weld Testers
- Double Block and Bleed

The Patriot range of pressure testing products allow our clients to confidently test open ended and flanged pipework to high pressures. With the range of Flange Weld Testers and GripTights, we can test most configurations, providing a fast and highly efficient method of achieving the desired result.

React Spanner

Safety comes first.

Heat Treatment

- Resistance
- Induction
- Consumables

Pre and Post Weld Heat Treatment can be achieved with conventional "Resistance" type or "Induction" type units.
