FUNDED
EMPLOYER
TRAINING***

Skills Support for the Workforce

The Skills Support for the Workforce Programme is designed to deliver fully funded employer responsive skills training to improve the skill levels of staff across the Greater Lincolnshire area.

The focus is on key sectors including engineering, food, ports and logistics, manufacturing, digital, HR, accountancy, retail and the visitor economy.

*If your business employs less than 250 employees, then you may be eligible.

Challenge those skills gaps, improve productivity, retain staff, improve skills and knowledge, increase customer satisfaction, generate new business, reduce costs...whatever impact skills could have across your business then this funding could support achievement of those goals.

Contact us NOW to find out more.
