

## FITTED FURNITURE

APRIL 2017

CALYPSO | FITTED FURNITURE FINISHES

All our door finishes are supplied with the complimenting carcass colours as shown below by default. If a different mix of fascia and carcass finishes is required they will need to be specified separately. The finishes reproduced in this brochure are subject to screen and print variations - Please use our free sample service for more exact colour matching. All fitted furniture orders are dispatched within 72 hours.

## FITTED FURNITURE | BRECON

The uncluttered and unambiguous look of its square style fascias helps this simple, contemporary range of furniture to offer a fresh, modern outlook on life. With its clear symmetrical lines, Brecon Bathroom Furniture looks outstanding in a glossy reflective or super matt finish.

### BRECON FURNITURE FEATURES

- 18mm vinyl wrapped furniture grade MDF slab doors & fascia panels.
- All 18mm ready assembled MFC carcasses with PVC edging.
- All carcasses & fascias pre-drilled & marked for fittings.
- Fully adjustable all-steel soft-close hinges to doors.
- Soft-close drawer runners with 4-way fascia adjustment.
- Choice of two carcass & plinth heights (661/561mm & 150/250mm).
- Choice of three finished base unit depths (218mm, 303mm & 443mm).
- Not suitable for installation in wet-rooms.
- Fitted bathroom furniture should only be installed within a well ventilated bathroom environment.

HOW TO ORDER...

Sample Listing from following furniture pricing pages:

W x D x H	ORDER CODE	PRICE	Breakdown Codes:		
			Carcass	Upper Panel	Lower Panel
500 x 218 x 811	4226XXX	£290.40	4012s	2010	5031
500 x 303 x 811	4426XXX	£290.40	4012	2010	5031

When ordering, the **XXX** part of the code must be replaced by the **Letter Code** representing the door style and finish required. These Letter Codes are shown on the inside cover of this brochure, and listed below.

Example:

The WC unit shown above, if required in Brecon High Gloss White should be ordered as: **4226BRH**, or if in Chiltern Clay Blue, should be ordered as **4226CHCB**. This will ensure the correct carcass finish will be applied as indicated on the inside front cover of this brochure. Fascia panels will also be added automatically to your order.

BRECON	CHILTERN	MALVERN	CHEVIOT	SELTER
High Gloss White - <b>BRH</b> Matt White - <b>BRMW</b> White Ripple - <b>BRWR</b> Hacienda White - <b>BRHW</b> Cream Gloss - <b>BRCG</b> Clay Gloss - <b>BRCY</b> Pebble - <b>BRPE</b> Cast Concrete - <b>BRCE</b> Stone Gloss - <b>BRSG</b> Basalt Mist - <b>BRBM</b> Washed Walnut - <b>BRWW</b> Hacienda Sand - <b>BRHS</b> Hacienda Grey - <b>BRHG</b> Light Oak - <b>BRLO</b> Tigerwood - <b>BRTD</b> Graphite Ripple - <b>BRGR</b> Graphite Grey - <b>BRGG</b> Hacienda Black - <b>BRHB</b>	High Gloss White - <b>CHH</b> White Ash - <b>CHA</b> Clay Grey - <b>CHYG</b> Clay Blue - <b>CHCB</b> Cashmere - <b>CHCM</b> Mussel - <b>CHML</b> Clay Carbon - <b>CHCC</b> Solid Oak - <b>CHSO</b>	High Gloss White - <b>MAH</b> White Ash - <b>MAA</b>	Frost White - <b>CTFW</b> Sand Latte - <b>CTSL</b> Polished Walnut - <b>CTPT</b> Metallic Slate - <b>CTMS</b>	Pearl - <b>STPL</b> Oyster - <b>STOR</b>

Alternatively, all components can be ordered separately using the Breakdown Codes listed alongside the prices. These are also shown on pages 111 for Fitted Furniture, 117 for Selter Furniture and 125 for Solid Oak Furniture. In this instance both the carcass finish code and fascia finish codes will need to be specified.

FITTED FURNITURE PRODUCT NOTES

- 18mm furniture grade MDF doors & fascia panels.
- All 18mm rigid MFC carcasses with PVC edging.
- All carcasses & fascias pre-drilled & marked for fittings.

Step1 | Measure Your Room

You will need to measure the dimensions of your bathroom including fixed items such as doors, soil pipes, windows and radiators. A quick sketch of your room layout will help you in the next few steps.

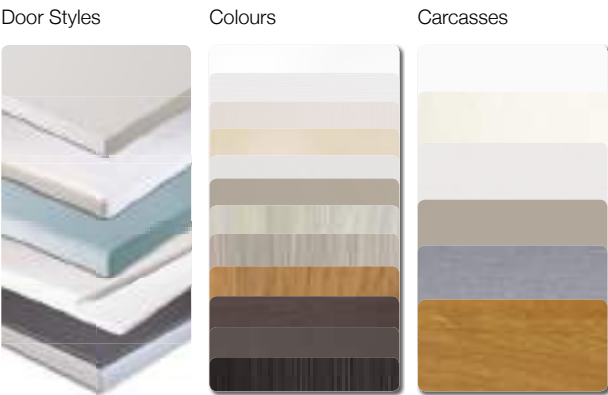

Step2 | Plan Furniture Locations

Draw in your chosen furniture sizes creating a complete run of furniture within your allocated space. Still struggling? You can either log onto our free planner or talk to your local bathroom retailer/plumber.

Step3 | Door Style and Colour

5 styles - Brecon, Malvern, Chiltern, Cheviot and Selter  
26 door finishes - 6 stocked carcasses

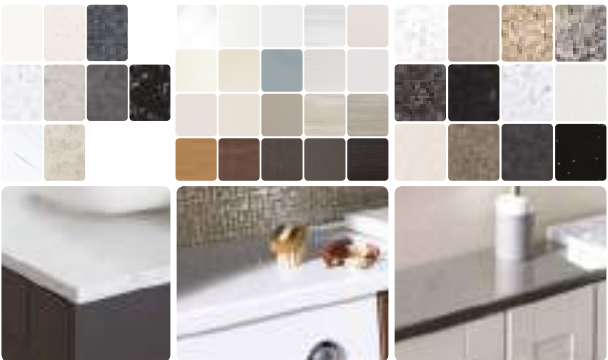

Step4 | Sanitaryware and Taps

A selection of Basin, WC and Tap options to suit all types of bathrooms and personal tastes.

Step5 | Worktops

Calypstone 12mm and 20mm | Vinyl 22mm | Postformed 28mm

Step6 | Ancillary

Finally finishing with Handles, Lighting and Mirrors.

Create Your Perfect Bathroom

We have provided you with a handy and easy to use online bathroom planner that will help you plan your perfect bathroom, cloakroom or en-suite. Fitting furniture in the space available couldn't be easier with a click and drop action.

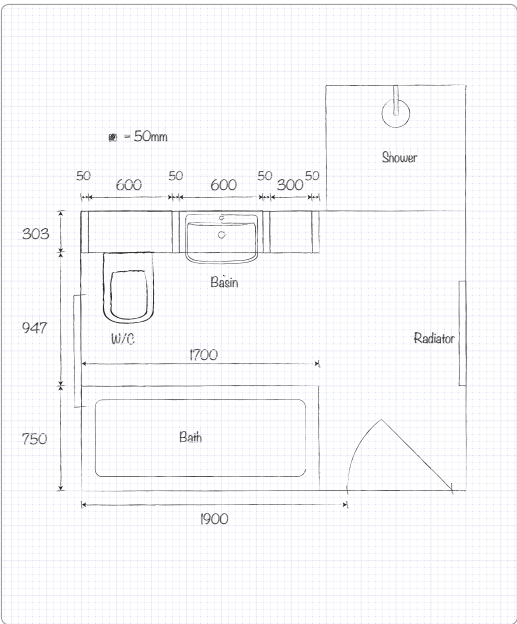

Woodstock's 2D/3D Planner has been designed with simplicity in mind. Simply prepare yourself with your room dimensions and the positioning of windows or doors and other obstacles. Log in, create your room, drop in the furniture of your choice. You can even open the doors and drawers, delete and add until you are satisfied or save for up to 28 days whilst you confirm on your room layout. There are no skills required, design with ease exactly what you require.

The 2D/3D Planner is a free service provided by Woodstock Trading Company and is to be used as a visual representation only. All images depicted on this planner are within reasonable representation of the Calypso product. A free sample service is provided if you are unsure about the finish on your selected product.

Give it a try today:

Offset corner allowing clearance for door opening.

**Option2**

BATTON SUPPORTS

BRACKET

Standard with corner void using one halved end panel allows for drawer extension.

**Option3**

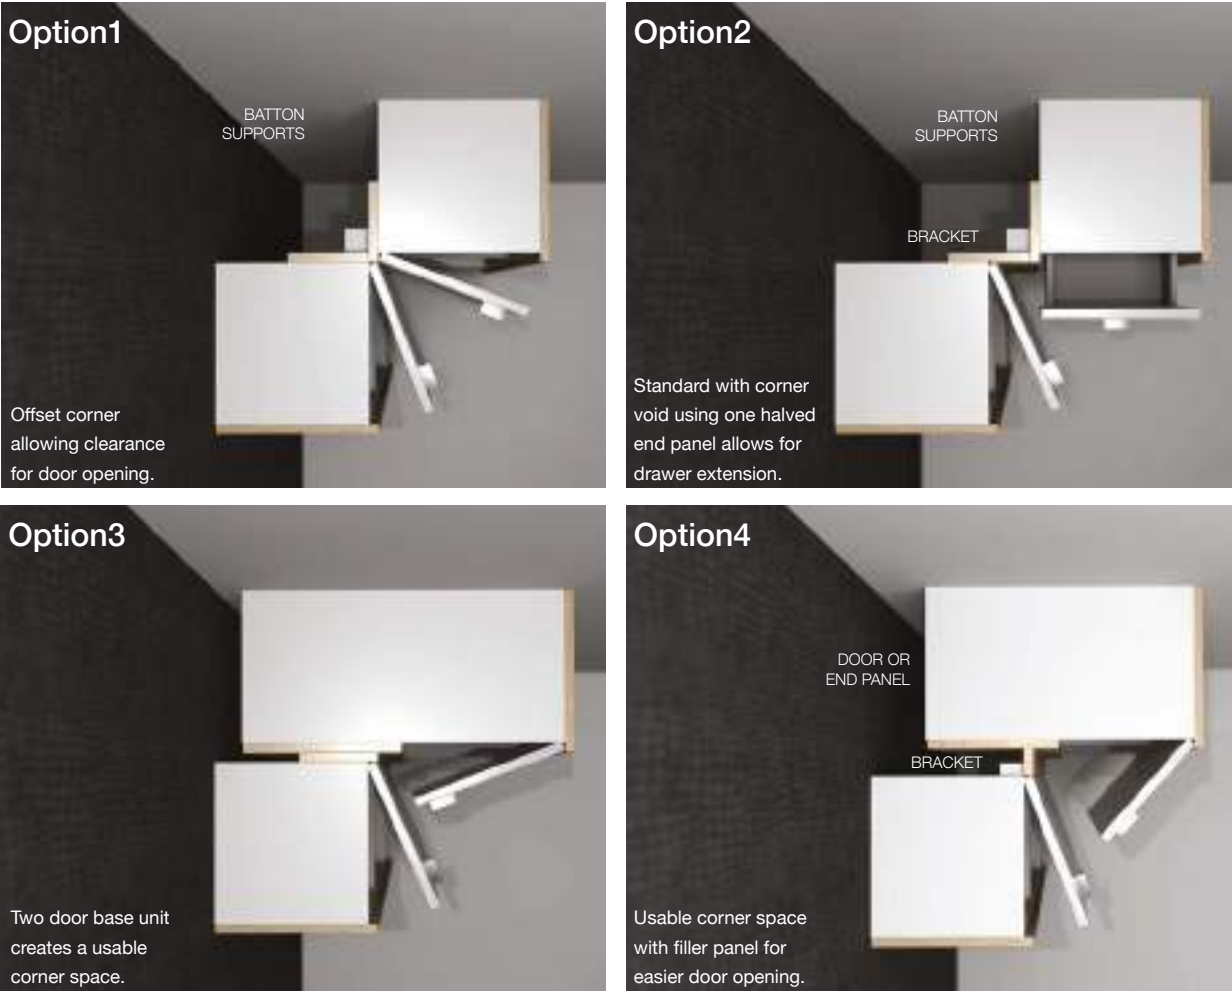

Two door base unit creates a usable corner space.

**Option4**

DOOR OR END PANEL

BRACKET

Usable corner space with filler panel for easier door opening.

Carcass Depths & Heights

CALYPSO | BATH BULKHEAD

661mm Bath Bulkhead Unit

W x D x H	ORDER CODE	Breakdown Codes:	
		Carcass	Panel
830 x 218 x 811	1245XXX	1001s	3008
830 x 303 x 811	1445XXX	1001	3008

561mm Bath Bulkhead Unit

W x D x H	ORDER CODE	Breakdown Codes:	
		Carcass	Panel
830 x 218 x 811	4245XXX	4001s	3008
830 x 303 x 811	4445XXX	4001	3008

The bath bulkhead unit has a full floor to worktop panel matched to your chosen vinyl fascia. Supplied with a 600mm carcass, it will work with any width WC Carcass. When ordering replace 'XXX' with your chosen finish. The panel can also be ordered on its own to be used as a fitters panel order code 3008 see breakdown pages.

CALYPSO | INTERNAL WALL MIRRORS

Remove all internal fittings

Place mirror in rear of carcass

Re-assemble unit

**A.** Remove - fascias, hinge plates, shelves and shelf supports. This will leave you with an empty carcass.

**B.** Make sure wall cupboard is fully adjusted as the mirror covers the entire back. Place the mirror at the bottom of the unit, apply a small amount of silicone to the rear of the mirror, and push into the carcass fixing it in place.

**C.** Replace - shelving supports, shelves, hinge plates and fascias.

### Internal Wall Unit Mirrors

W x H x D	ORDER CODE	PRICE
262 x 623 x 3 (300mm Wall Unit)	3355	£63.60
262 x 1184 x 3 (300mm Tall Wall Unit)	3342	£73.20
462 x 623 x 3 (500mm Wall Unit)	3356	£70.80
562 x 623 x 3 (600mm Wall Unit)	3357	£75.60

Calypstone Care

Calypstone is an acrylic based product with all the practicalities of a hard wood, meaning it can be cut using common woodworking tools. A jigsaw with a good quality blade is ideal for initial cuts and should always be approached from the front profile of the worktop, ensure any off cuts are well supported.

If the cut is to be a show end, glance the cut with a sharp bladed router. Then sand a 3mm top and bottom radius along the length of the show end. Finish with the gentle application of mildly abrasive rubbing compound and finally polish. All components required are available in the Calypstone Repair Kit (7470.04) below.

Silicone can be used to fix Calypstone to the base units. If wanting to join two pieces of Calypstone, run a bead of silicone along the joint edge of the first piece and push the second piece firmly up to the first piece to create the joint. You should aim to squeeze as much silicone out of the joint as possible, the more you do the less visible the final joint will be. Any excess silicone then needs to be removed.

**Maintenance Kit**

7470.03

£52.80

Used on Calypstone products for general maintenance and polishing.

**Repair Kit**

7470.04

£57.60

Used on Calypstone products to remove deeper scratches.

CE | Ceramic Basins

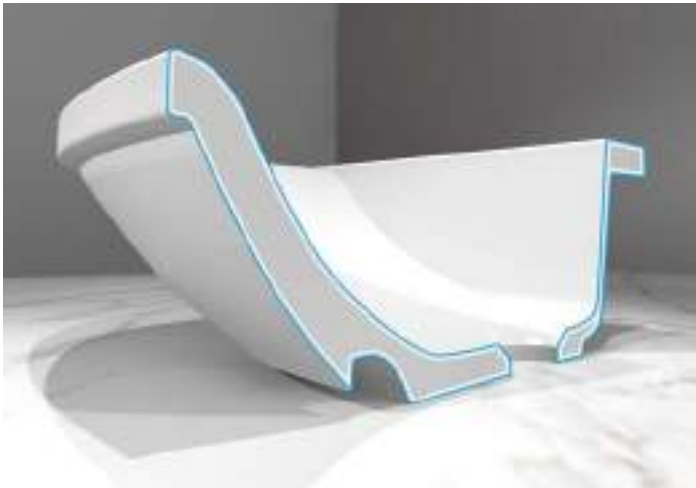

Ceramic Basins are made out of liquefied fireclay which is poured into a mould and allowed to set before being hand finished. A ground glass glaze would typically be sprayed over the basin before the final firing.

This long-lasting, durable material suits a simple and minimalistic bathroom suite as well as a traditional Victorian look. Stains are easily removed and ceramic is generally easy to clean to maintain a shiny appearance.

CM | Cast Marble

The core ingredient of our Cast Marble basins is Dolomite Marble which is formed through volcanic action. This rock is milled and purified before being mixed with polymer resin formed into the required shape and then coated with a resin and quartz mixed gel coat to save its pigment and smooth finish. The result is an extremely durable and easy to maintain product coupled with the benefit of constant sizing and smooth finishing that cannot be matched by traditional ceramics. Scratches are also repairable making this a more forgiving option.

It is important to install light fittings and electrical mirrors in the correct bathroom zone. This is not an installation guide and all electrical work should be made to the latest editions of the IEE Wiring Regulations or a qualified Electrician.

- Zone 0 - Inside the bath or shower tray itself. Any appliance used in this zone must be rated at least IP67 which is immersion proof.
- Zone 1 - Area above the bath or shower tray to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required and elements must also be protected by a 30mA residual current device (RCD) to protect the circuit. The electrical connection to the power supply for these appliances must be in Zones 2/3
- Zone 2 - Area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition it is good practice to consider the area around a washbasin, within a 60cm radius of any tap to be considered as zone 2.
- Zone 3 - The area beyond zone 2, stretching 2.4m horizontally and up to 2.25m vertically. There is not a specified IP number for this zone, although some products are marked as not for bathroom use.

Failure to have electrical products installed and certificated by a qualified electrician will invalidate any product guarantee.

	0	1	2	3	4	5	6	7	8
First Numeral - Protection against ingress of foreign bodies e.g tools, fingers, dust, etc.	No protection	Protected against solid objects over 50mm. e.g. accidental touch by hands	Protected against solid objects over 12mm. e.g. fingers	Protected against solid objects over 2.5mm. e.g. tools, wire	Protected against solid objects over 1mm. e.g. small tools, thin wire	Protected against dust, allowing limited ingress. (no harmful deposit)	Totally protected against dust.	-	-
Second Numeral - Protection against ingress of liquids	No protection	Protection against vertically falling drops of water.	Protection against direct sprays of water up to 15° from the vertical.	Protection against direct sprays of water up to 65° from the vertical.	Protection against water sprayed from all directions. Limited ingress permitted.	Protection against low pressure jets of water from all directions. Limited ingress permitted.	Protection against powerful jets of water from all directions. Limited ingress permitted.	Protection against the effect of immersion up to 1m for short periods.	Protection against long periods of immersion under pressure.

The IP (Ingress Protection) standard describes a uniform system for classifying the degrees of protection provided by the enclosure of electrical equipment. Installation must be made in accordance with the current IEE wiring regulations and relevant building regulations. Calypso recommends that all electrical bathroom products should only be fitted by a suitably qualified Part P registered electrician.

## Responsible Sourcing

Packaging is sourced through FSC accredited mills, and all catalogues are manufactured from sustainable and audited sources. We invest heavily in modern and eco friendly vehicles throughout our delivery fleet to ensure we are operating with a minimal carbon footprint.

## Delivery Service

With the majority of deliveries being undertaken on our own vehicles and our 99% stock guarantee, our aim is to offer the shortest Order-to-Delivery time in the industry. With the back-up support of couriers, every exigency can be covered.

## Environmental

Throughout the company's processes from initial contact to sales, production, delivery and aftersales, we aim to consider the environment at every step. We never overlook the opportunity to save paper, recycle materials and re-use components and parts in a bid to further cut our carbon footprint.

Boxes designed and manufactured for us use FSC accredited paper mills which source from sustainable forestry. In addition to this, the liners and corrugated fluting in our boxes are made from recycled materials and when finished with will again be fed back in to the recycling system.

All of our bathroom furniture is manufactured from FSC certified timber and only taken from well managed sustainable forests.

Please don't forget, once you have finished with our catalogue place it into the recycling bin so you can do your bit for the environment. One day we might even use the paper again!

Our catalogue is printed from carefully selected FSC accredited printers that also consider environmental impacts as high priority.

## Woodstock's Green Measures

Our commitment to minimise our environmental impact starts at our own purpose built office and warehouse facilities where 48 solar panels have been installed to use natural sources of energy to provide power for heating and other services within the building. Light sensors are used to minimise light pollution, and the window and insulation properties designed to the highest standards in order to reduce heat loss.

Recycling has a high priority at our distribution center. From wood and plastics through to paper and general waste we aim to maintain a process that is as environmentally friendly as possible. Measures include the use of an in-house bailing machine to compress and wrap all cardboard ready for recycling.

We are committed to ensure that all products are obtained from reliable and responsible sources. Our purchasing department is unable to continue trade with companies who cannot fulfil our environmental and sourcing questionnaires. Certificates are also held as proof from all supply sources.

This catalogue has also been produced via carefully chosen companies who pride themselves on minimising their environmental impact. Printed media for Woodstock Trading Company is consistently sourced from such companies.

## Soft Close

Soft closure comes as standard on all our doors and drawers when purchased as a complete unit. We believe in the added luxury that a quiet, smooth, soft close hinge, drawer and toilet seat provides.

## Our Products

Our company policy of continuous improvement particularly applies to the products we offer. With our in-house testing team nothing gets overlooked. From our Calypso hinge caps to our vast furniture range you can be sure that all Calypso products have been tried and proven to the highest standards.

## Calypso Guarantee

Our skilled development team work fervently to create new and exciting furniture for the UK market. Quality at every point with 18mm drilled and pin pricked rigid carcasses - accuracy in everything we do. Combined with long guarantees we carry an extensive selection of replacement parts to service customers in the years to come.

## Help and Advice

We have dedicated departments for every step of the way. You should enjoy every moment of your new Calypso bathroom. Can't decide on a finish? - We have a free sample service to provide you with a real piece Calypso Furniture. We are only a phone call away - 01432 367367.

## CALYPSO | NOTES

### Important Notes

It is important when ordering and booking installations that sufficient time is allowed between product delivery date and installation date, for the checking of goods and if required, the re-delivery of any rejected or damaged items.

When planning, remember to allow for décor end panels for any exposed end-of-run base or wall unit carcasses, adding 18mm for each end panel required.

All our door finishes are supplied by default with the complimenting carcass colours as indicated on the inside front cover of this brochure. If a different mix of fascia and carcass finishes is required, they will have to be specified separately using the individual product codes shown within the pricing areas of this catalogue. The relevant finish codes need to be added to each product code at the time of ordering. All stocked products are dispatched within 72 hours of ordering.

Our 250mm plinth can also be used as flyover shelving if cut lengthwise down to 220mm.

All carcasses are supplied ready assembled, with door and fascia panels packed separately for fitting once carcasses are installed to help avoid damage. Door and drawer front are supplied undrilled for handles to give maximum flexibility and choice.

Slimline basin units in bathrooms will require reduced-depth semi recessed basins.

Calypso units are designed at a height to allow good access underneath the carcasses to run the soil pipe and water feeds with a choice of 150mm or 250mm plinths.

Due to space restrictions on slimline units, the rear legs should be removed to run a soil pipe through, and rigidity is maintained by the front legs and wall fixing.

All our concealed WC cisterns are suitable for front access servicing. If other manufacturer's concealed cisterns are used, service access may become a problem.

Prices in this catalogue include VAT at 20%.

### Product Notes & Specifications

Please note all images within the pricing sections are CAD generated images and may not reflect the unit exactly. We strongly recommend that any questions relating to detail of any units are asked prior to ordering.

Carcasses – All carcasses are supplied with hinges, wall fix brackets and fittings, and base units come with adjustable legs and plinth fittings. All plinths, end panels and handles must be ordered separately. Unit dimensions given are overall including fascias but exclude legs (661mm units supplied with 150mm legs, 561mm units supplied with 250mm legs). All carcasses are made from 18mm MFC.

Vinyl Wrapped Doors/Worktops/Plinths/End Panels – All vinyl panels are a vinyl wrap on an MDF core. Doors, plinths and end panels have an 18mm furniture grade MDF core, and vinyl worktops have a 22mm core. Any exposure of the MDF core through cutting must be sealed with a proprietary sealant such as PVA or silicone to maintain the warranty. Printed colours and woodgrains are subject to print and screen variations and are for illustration purposes only.

Please call sales on 01432 367 367 to request a real sample for exact colour matching prior to ordering.

### Woodstock Returns Policy

Any damaged or unwanted items must be reported within 28 days. Any items ordered and delivered in good faith but no longer required will be subject to a 25% handling and re-stocking charge.

Non-required items can only be accepted for return if:

- They are returned in original packaging.
- They have not been fitted in any way (this would include legs fitted onto carcasses).
- They are in re-saleable condition.

Picking or Delivery Errors & Manufacturing Defects must also be reported within 28 days. Credit will be given once the goods are received back, inspected and signed off.

If collected by one of our own vehicles the driver will inspect for damages or fittings on collection. Acceptance or refusal of collection is at the discretion of the driver

If collected by carrier, the items must be protected with extra packaging, the paperwork must be attached (provided by Woodstock), and Woodstock will arrange the 3rd party collection.

Credit Approval or Refusal:

Once returned goods are received and inspected as per terms above, credit will either be approved or refused. If refused, a credit refusal number is assigned and a written reason given and sent by fax or email. Goods will then be held for 7 days before disposal. Any query regarding the refusal must be logged during this 7 day period.

### Taking Care of Your Calypso Products

By following some simple care and cleaning guidelines, Calypso products can be expected to give many years of pleasurable, trouble-free service.

Calypso bathroom furniture is designed to be used within domestic environments. Adequate ventilation is key. As with all timber products, bathroom furniture will be adversely affected if subject to excessive moisture on the surface or in the atmosphere. It is strongly recommended that a suitable bathroom extractor fan is installed to prevent condensation building up and to prevent damage to the furniture.

Calypso timber based fitted furniture must never be installed in a wet-room situation.

It is most important that any cut or exposed panel edge, and any floor or wall abutment with furniture or sanitaryware, must be sealed with a waterproof sealant such as silicone or similar to avoid the possibility of water ingress and damage.

All water spills and sprays must be wiped clean and mopped dry immediately to prevent water marks or other damage.

Never use chemical or abrasive cleaners, bleach or furniture polishes on any bathroom furniture as the finish can be affected. Clean only with a soft damp cloth and a mild soap solution as necessary.

Solid Oak is a very hard-wearing material and its looks are enhanced with wear over the years. Occasional application of a wax-based furniture polish should be all that is needed to maintain its finish. DO NOT USE household cleaners or abrasive powders on oak, and remove any spills or stains immediately with a soft damp cloth and mild detergent (washing-up liquid). Excessive moisture or water spills will darken the oak surface.

CERAMIC SANITARYWARE - Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

BRASSWARE - Clean with a damp cloth, rinse clean and polish with a dry cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

DIMENSIONAL TOLERANCE - Due to the nature of materials and production processes dimensions may vary within a tolerance of ± 2mm on furniture, ± 3mm on cast basins and ± 5mm on ceramic.

COLOUR REPRODUCTION - Colour reproduction is as accurate as possible within the limitations of the printing process. A free sample service is provided if you are unsure about the finish on your selected product. Please call sales on 01432 367 367 to order. Also note, colours will vary under artificial light.

Woodstock Trading Company's policy is one of continual improvement and development. We therefore reserve the right to alter materials and specifications without notice.

All orders placed with Woodstock Trading Company are subject to our standard terms and conditions of sale which can be found at [www.woodstockco.com/dimages/products/Terms\\_and\\_Conditions\\_of\\_Supply.pdf](http://www.woodstockco.com/dimages/products/Terms_and_Conditions_of_Supply.pdf)
