COMSCENTRE
NETWORKS

BUSINESS GRADE DATA NETWORKS

The Comscentre network is a highly resilient MPLS network with two Points of Presence (POP's) in capital cities throughout Australia and Asia, meshed together into a highly resilient core.

Connect your sites to the Comscentre MPLS core using a variety of options, including the NBN in Australia, or through a range of wholesale telecommunications providers throughout the region.

THE COMSCENTRE NETWORK PROVIDES

- Business grade internet services
- VPNs for remote users
- Wireless services in remote areas
- Ultra-secure data between offices
- Backup wireless services
- Managed Firewall Services

- SIP Connect for your voice calls
- Video Conferencing between offices
- Uncontended bandwidth
- Private Networks from LAN to WAN
- Switching and routing

Comscentre networks enable you to get on with growing your business, avoiding disruptive network issues

Who we are

Comscentre is an Australian owned business communications service provider offering enterprise grade voice, data, video, LAN and WAN managed communications services.

Through our comprehensive range of communications solutions, we provide reduced complexity, reduced business costs and improved productivity. Comscentre's unique One Touch Control solution amalgamates voice, video and data into one centralised fully managed service.

This means our customers have one organisation, one contact point and one monthly bill for all their network and communication needs. Specialising in communications solutions for mid-market and enterprise organisations, Comscentre has offices in Sydney, Melbourne, Brisbane, Perth, Adelaide and Asia.

Comscentre exists to provide the communications networks that connect your staff to each other and to your customers. Communications that work without excuse so that your business can communicate better, allowing you to concentrate on making your business a better place for your staff and your customers.
