

The plastic solution

1

Choosing products from ALLIBERT BUCKHORN UK LTD means:

- Having access to Europe's largest range of plastic containers and pallets for materials storage, handling and distribution.
- Taking advantage of the design innovations and manufacturing technology of a leader in the field of plastics processing.
- Benefiting from over thirty-five years experience in the reusable packaging sector.
- Receiving specialist advice from a dedicated sales team.
- Confidence in availability and supply from an established international industrial operation with a vast distribution network.
- Using products made under the strictest quality control, certified to ISO 9001-2000.
- Conforming to all regulations currently in force including Packaging Directive CE 94-62 and French regulations Decree 98/638, as well as using raw materials which meet the demands specified for the year 2001 with regard to heavy metal content.
- And, after many years of intensive use, having the ability to recycle products when they come to the end of their working lives.
