## Our specialized services

**Preparation for final accounts**

Preparation of final accounts for the shareholders is one of the key tasks for any organization. Shareholders are interested in viewing the performance of the organization. Final accounts are viewed by the investors (present and potential) in their strategic positioning and strategic decision making

WeAccountax has an expert team of expert accountant who are proficient in preparing financial statements in accordance with international financial reporting standards. For small business, it is not possible to afford an entire financial accounting department, WeAccountax is providing affordable financial accounts preparation for businesses along with ensuring client satisfaction and quality of financial accounts

Preparation of final accounts is a statutory obligation for the businesses for the purpose of their annual taxation etc. WeAccountax can ensure your financial accounts are accurate and prepared on time. This will save our clients to escape narrow deadlines and penalties for late filing or wrong filing

WeAccountax can customize their services according to the need of client. Some clients are interested in receiving monthly or quarterly updates about their business financial position rather than annual report for better decision making about their business. WeAccountax customization provides reliable flexibility to our clients enabling them to adjust as per their business demands

For accurate financial annual accounts, accurate bookkeeping is a pre requisite for any business entity. WeAccountax has a team of professional accountants who have vast experience in maintaining books for the company, their quick response to the actual business transaction makes us an ideal choice for quick and accurate booking keeping for the company

Our experts can extract maximum information from the bank statement making it least bothersome for the our client, and by judging every transaction in the light of international financial standards and financial frame work and posting it accurate with sufficient payment evidence for the company

WeAccountax provide implementation and support services for the XERO accounting software for the p-urpose of bookkeeping and financial reporting. By understanding the client processes of the organization and nature of financial transaction, we customize the software as per the exact client business needs Our 24 hours a day and 7 days a week support services to our respective clients ensure that all of the issues of client's system are resolved in minimum time including, wrong reports, bug in the system etc. Quick resolution of the problem saves time, efforts and money in terms of delays for the organization

**VAT**

Expert consultancy in value added tax is beginning to become an utmost need of any business ever since HM revenue and customs has started to tighten the grip on businesses and get registered under value added tax. Even though value added tax is focused on charging the end consumer but wrong value added tax consultancy can cost a lot of the business. WeAccountax has team of expert accountants who understand the underlying details and legalities of value added tax legislation in United Kingdom. Our team can help a business assess the need and benefits of registering under value added tax. Ensuring to register and deregister as soon as the HMRC provided threshold is exceeded. We can ensure correct rates being charged on the respective supplies and see if there is any special provision for the likes of your business and ensure business ceases maximum benefit out of it.

Value added tax legislation requires return filing and make appropriate payable payments to the HMRC on a timely basis. WeAccountax ensure, our client return filing are filed on time with utmost accuracy and all penalties, notices and fines are eventually automatically avoided.

In a labor intense business, payroll constitute of a large portion of the company. Such businesses are required to get their payroll registered with HMRC for Pay as you earn policy for the tax payments of the employees. WeAccountax can help you register with HMRC as an employer and ensure proper documentation and details are provided to HMRC for this process.

Our experts can design a payroll system for the organization which is by default linked with the attendance of the employees, ensuring correct calculation of monthly salary, benefits and tax calculation of the each and every employee. In organization which comprises of a large number of employees, biggest issue is to develop a system which calculates salaries of all the employees regularly accurately.

WeAccountax helps their clients to ensure their payroll compliances are up to the mark all the time, which can avoid HMRC investigations and compliance audit for the payroll system of the organization. Our expert are aware of the areas which are likely to be investigated and pinpointed as a problem, so WeAccountax ensures all of vulnerable areas are covered and protected.

## Tax Consultancy

Living in an heavily tax economy, tax consultancy is one of the most important consultancies businesses and individual can use for tax avoidance and paying minimum amount of taxation in a legal way. Taxation legislations contains a lot of details and provisions which are applicable to a certain company or an individual and to extract maximum benefit out of it professional tax consultants are the best possible option

At WeAccountax we take the responsibility of our client's taxation at highest priority and ensure our client saves money, time and work at every possible taxable incident. Our experts are well aware of the detailed rules and regulations of the taxation and taxation system running in United Kingdom, making WeAccountax your best possible guide for all taxation problems

WeAccountax not only provides tax consultancy services but also provide income and corporation tax return filing before deadline for respective individuals and businesses. Accuracy and meeting the deadline is a must when it comes to dealing with HMRC, this can not only save our clients from unneeded penalties and fines, but also save our clients unnecessary investigations which may get started if some suspicious information or late information is filed in the return

**Tax investigations** and follow up enquiring by the tax authorities are one of the biggest concern for the individuals and business owners filing their tax returns. Despite everything filed accurately and timely, there are high chances that HMRC could startup an investigation or send you an enquiry about your filing information. WeAccountax has a history for dealing perfectly with HMRC we can help our clients focus on the right areas, gather right information and ensure that proper and correct information is sent to HMRC for the enquiries to avoid further investigations

In Case of investigations, our expert can guide you through the entire investigation to avoid any claims of wrongful information provided by HMRC, we can help our clients justify their returns in the best possible legal manner

## Tax investigations

Investigation is usually requires quick response from the tax payer to gather information and get it in a presentable format for the HMRC for audit and investigation. Our team can help you to quickly file the documents necessary, provide correct and logical reasoning for every aspect of our clients tax return and make sure our clients get out of the investigation save and sound

WeAccountax team of professional accountants can deal with investigations and enquiries of any sort for our clients irrespective of their size and industry

## Company Formation

After a certain size of growth most feasible option business owners can opt is to limit their financial liability towards the business by create a separate business identity for the business. It protects business owners personal wealth from loses of the company and helping business to raise capital from the capital markets

Limited liability company exhibit long term commitment of the business management towards their customer and supplier developing long term trust and commitment between the entities. Brand image improvement can impact the business in many ways including increase in sales, and reduction in operational costs

Registering a company requires a complicated process, documentation and legal exposures, WeAccountax ensures their clients companies are registered with shortest possible time without any objection from the registrar of companies

After registration of the company, there are certain compliance areas which need to be fulfilled in order for the company to keep operating. WeAccountax can provide continual support to our clients registered companies by providing them valuable insight regarding current and upcoming compliance which are to be abided by owners of the company in other to run a limited liability company

**Trademarks** are the marketable symbols of the organization which conveys a lot of meaning regarding the organization to the external environment especially to customers, suppliers and business partners. Often the nonverbal message being conveyed to the external environment is the solemnly difference between the success and failure of the business

WeAccountax excels in the field of trademark registration. Years of experience and know how regarding legal frame work has abled the organization to facilitate their clients in developing and registering their trade mark in least possible time

Dealing with the regulatory bodies often involves the risk of getting rejection or objection from the regulators. With our years of experience we are aware of the areas which are prone to the risk and what measures can our clients take to ensure minimum objections are made in our client's application to register a trademark

Post Trademark registration consultancy for issues arising afterwards, i.e. consultancy regarding the legal issues arising onwards such as defending your trade mark in litigation or claiming you're right on a certain trade mark, WeAccountax can provide all sort of services to your business

Trademark registration through WeAccountax is an unreal experience for our valued clients because of the quality-consistent consultancy and support our clients receive from our end which guarantees success and time saving
