Dear friends of the KIRAN-Family!

With this Calendar we come to wish you all the best for the new year 2014: may it be filled with Hope, Joy and Peace for you and all the world! We like to present you every month with a photo from our activities, and also with some paintings from our students. While looking at them you can imagine their deep courage while they face life with a very limiting disability, but also their joy to be creative and to give a little happiness to others through their art.

We chose quotations from the web-site "thankful living", and with this we wish you many beautiful and thank-filled days in this year 2014! Please do keep in touch, The KIRAN-children need your encouragement!

The KIRAN-Family

KIRAN, literally means 'ray of light', is a Centre for differently-abled children and youngsters. Founded in September 1990 by a small group of people from various social, cultural and religious background, it has continued its work based on the idea of togetherness, enriching everyone's talents and abilities. In 1998 KIRAN Centre shifted from the city Varanasi to Madhopur, a village near to the famous Shooltankeshwar Temple, located about 12 kms south to B.H.U. (Benaras Hindu University). Today KIRAN Centre functions as a small village where children and youngsters with different abilities receive education, skill & vocational training as well as physical rehabilitation. KIRAN Centre is also carrying the Community Based Rehabilitation services in 40 villages of Mirzapur District and Out-reach services in 7 districts surrounded to Varanasi, where we give counseling, assessment, medication and therapeutic services at a great extent to the needy ones at their door step. We are also in touch with them for their follow-ups. Most of the children and youngsters with whom we are working are having consequences of polio, cerebral palsy, rickets or hearing impairments. Unfortunately, many such children suffer the fate of being hidden and kept at their homes and getting no access to education or rehabilitation. In such cases KIRAN offers chances and possibilities in various ways. At KIRAN we believe that 'family involvement' is an essential part of the recovery process. We remain in constant touch with the children's and youngster's families, discussing medical conditions, educational issues, as well as providing them counseling and support.
